|---|--------------|-----------------|
| Oak Road Playing Fields NE187   | 01/05/2008   | AB              |
| Past visits / surveys   |              |                 |
| Limited Hull CC file data c.1992 and 2001   |              |                 |
| Assessment criteria   | 0            | Criterion Score |
| 1. Diversity * give details   | Qualify?     | Numerical score |
| i. Site supports UK BAP habitats*   | yes          |                 |
| ii. Site supports UK BAP species*   | yes          |                 |
| iii. Site supports HBAP habitats*   | yes          | 17 / 12         |
| iv Site supports HBAP species*  | yes          |                 |
| v. High habitat diversity present   | yes          |                 |
| vi High species diversity present   | yes          |                 |
| vii Site has high potential for HBAP / UKBAP / protected species*   | yes          |                 |
| Comments: UKBAP habitats: Hedgerows, Ponds (pond on site does not necessarily qualify)  |              | Overall Score   |
| HBAP habitats: Freshwater, Grassland, Woodland, Scrub, Hedgerow   |              | -               |
| UKBAP species: reed bunting, skylark  |              | VH              |
| HBAP species: house martin, reed bunting, skylark   |              |                 |
| High potential for: amphibians (including GCN), water vole, bats. Small red-eyed dam  | selfly was   |                 |
| recorded here in 2006. This is one of only two East Yorkshire Records   |              |                 |
| 2. Naturalness * give details   | •            | Numerical Score |
| i. Remnant natural system or long established man-made habitat evident on site*   | no           |                 |
| ii. Remnant rural landscape evident on site*  | no           | 4 / 8           |
| iii. Part or all of site naturally colonised  | yes          |                 |
| iv. Part or all of site amenity managed greenspace or allotment   | yes          |                 |
| Comments:   |              | Overall Score   |
| The pond has been created relatively recently   |              |                 |
|   |              | _ M             |
| 3. Rare or exceptional features * give details  |              | Numerical Score |
| i. Site supports a significant area of a habitat that is rare in the city*  | yes          |                 |
| ii. Site supports 1 or more native species that are very rare in the city*  | no           |                 |
| iii. Site supports 1 or more native species that are rare in the city*  | yes          | 10 / 10         |
| iv. Site supports 3 or more native species that are uncommon or rare in the city*   | no           |                 |
| v Site supports a range of common native species  | yes          |                 |
| Comments:   |              | Overall Score   |
| Ponds are a rare habitat in the city  |              |                 |
| Greater pond sedge is a rare species in the city  |              |                 |
|   |              | H               |
|   |              |                 |
|   |              | 1               |

Site has high aesthetic or landscape value* Provides opportunities for contact with nature Close to residential areas Close to schools Provides access out of city Provides links between open spaces Comments: | yes no no no  yes yes yes yes yes yes yes yes yes | Numerical Score 4 / 8  Overall Score M  Numerical Score  19 / 12  Overall Score |

### **NE202 Land North of the Croft Ennerdale**

23/06/2008

| Formal Name   | Common Name           | Group           |
|---|-----------------------|-----------------|
| Equisetum arvense L.  | Field Horsetail       | horsetail       |
| Alisma plantago-aquatica L.                                 | Water-plantain        | flowering plant |
| Carex hirta L.  | Hairy Sedge           | flowering plant |
| Carex otrubae Podp.   | False Fox-sedge       | flowering plant |
| Juncus conglomeratus L.                                     | Compact Rush          | flowering plant |
| Juncus inflexus L.  | Hard Rush             | flowering plant |
| Agrostis stolonifera L.                                     | Creeping Bent         | flowering plant |
| Alopecurus geniculatus L.                                   | Marsh Foxtail         | flowering plant |
| Alopecurus pratensis L.                                     | Meadow Foxtail        | flowering plant |
| Arrhenatherum elatius (L.) P. Beauv. ex J. Presl & C. Presl | False Oat-grass       | flowering plant |
| Cynosurus cristatus L.                                      | Crested Dog's-tail    | flowering plant |
| Dactylis glomerata L.                                       | Cock's-foot           | flowering plant |
| Deschampsia cespitosa (L.) P. Beauv.                        | Deschampsia cespitosa | flowering plant |
| Elytrigia repens (L.) Desv. ex Nevski                       | Common Couch          | flowering plant |
| Festuca arundinacea Schreb.                                 | Tall Fescue           | flowering plant |
| Festuca rubra L.  | Red Fescue            | flowering plant |
| Lolium perenne L.   | Perennial Rye-grass   | flowering plant |
| Phleum pratense L.  | Timothy               | flowering plant |
| Poa trivialis L.  | Rough Meadow-grass    | flowering plant |
| Acer campestre L.   | Field Maple           | flowering plant |
| Chaerophyllum temulum L.                                    | Rough Chervil         | flowering plant |
| Centaurea nigra L.  | Common Knapweed       | flowering plant |
| Cirsium arvense (L.) Scop.                                  | Creeping Thistle      | flowering plant |
| Leontodon autumnalis L.                                     | Autumn Hawkbit        | flowering plant |
| Leucanthemum vulgare Lam.                                   | Oxeye Daisy           | flowering plant |
| Senecio erucifolius L.                                      | Hoary Ragwort         | flowering plant |
| Senecio vulgaris L.   | Groundsel             | flowering plant |
| Sonchus oleraceus L.  | Smooth Sow-thistle    | flowering plant |
| Corylus avellana L.   | Hazel                 | flowering plant |
| Armoracia rusticana P. Gaertn., B. Mey. & Scherb.           | Horse-radish          | flowering plant |
| Raphanus raphanistrum L.                                    | Wild Radish           | flowering plant |
| Convolvulus L.  | Convolvulus           | flowering plant |
| Lathyrus pratensis L.                                       | Meadow Vetchling      | flowering plant |
| Trifolium pratense L.                                       | Red Clover            | flowering plant |
| Trifolium repens L.   | White Clover          | flowering plant |
| Vicia cracca L.   | Tufted Vetch          | flowering plant |
| Vicia sativa L.   | Common Vetch          | flowering plant |
| Quercus robur L.  | Pedunculate Oak       | flowering plant |
| Glechoma hederacea L.                                       | Ground-ivy            | flowering plant |
| Prunella vulgaris L.  | Selfheal              | flowering plant |
| Malva sylvestris L.   | Common Mallow         | flowering plant |
| Fraxinus excelsior L.                                       | Ash                   |                 |
|   | Great Willowherb      | flowering plant |
| Epilobium hirsutum L.                                       |                       | flowering plant |
| Plantago lanceolata L.                                      | Ribwort Plantain      | flowering plant |
| Plantago major L.   | Greater Plantain      | flowering plant |
| Persicaria amphibia (L.) Delarbre                           | Amphibious Bistort    | flowering plant |
| Rumex crispus L.  | Curled Dock           | flowering plant |
| Rumex obtusifolius L.                                       | Broad-leaved Dock     | flowering plant |
| Lysimachia vulgaris L.                                      | Yellow Loosestrife    | flowering plant |

|  | Qualify?                                      |   |
| 5. Fragility * score doubles if site scores over 5 pts in rarity category  |   | Numerical Score   |
| Does the site support a rare habitat?  | yes   |   |
| Species / habitats at risk from succession (lack of management)*   | yes   | 10 / 10   |
| Species / habitats at risk from invasive species*  | no  | 10 / 10   |
| Species / habitats at risk from recreational pressure*   | no  |   |
| Species / habitats at risk from litter / fly tipping/ pollution*   | yes   |   |
| Comments:  | thin aita                                     | Overall Score   |
| There are two major threats to long-term continuity of the special habitats and species on Firstly, the current lack of tree/scrub management is resulting in gradually decreasing drop  |   |   |
| light levels reaching the drain, and a consequent loss of plant diversity. Secondly, the leve  |   | Н   |
| fly tipping here is probably at the highest in the city. Probably because of the site's proximi  |   | "   |
| a large housing estate. This is creating a shortage of space and substrate for plant regene  | •   |   |
| 6. Connectivity within the landscape   | nation.                                       | Numerical Score   |

# **NE316 Holderness Drain**

24/06/2008

| Formal Name   | Common Name               | Group           |
|---|---------------------------|-----------------|
| Equisetum arvense L.  | Field Horsetail           | horsetail       |
| Sagittaria sagittifolia L.                                  | Arrowhead                 | flowering plant |
| Elodea canadensis Michx.                                    | Canadian Waterweed        | flowering plant |
| Agrostis capillaris L.                                      | Common Bent               | flowering plant |
| Anisantha sterilis (L.) Nevski                              | Barren Brome              | flowering plant |
| Arrhenatherum elatius (L.) P. Beauv. ex J. Presl & C. Presl | False Oat-grass           | flowering plant |
| Cynosurus cristatus L.                                      | Crested Dog's-tail        | flowering plant |
| Dactylis glomerata L.                                       | Cock's-foot               | flowering plant |
| Elytrigia repens (L.) Desv. ex Nevski                       | Common Couch              | flowering plant |
| Festuca rubra L.  | Red Fescue                | flowering plant |
| Glyceria maxima (Hartm.) Holmb.                             | Reed Sweet-grass          | flowering plant |
| Holcus lanatus L.   | Yorkshire-fog             | flowering plant |
| Hordeum murinum L.  | Wall Barley               | flowering plant |
| Lolium perenne L.   | Perennial Rye-grass       | flowering plant |
| Phleum pratense L.  | Timothy                   | flowering plant |
| Phalaris arundinacea L.                                     | Reed Canary-grass         | flowering plant |
| Phleum pratense L.  | Timothy                   | flowering plant |
| Phragmites australis (Cav.) Trin. ex Steud.                 | Common Reed               | flowering plant |
| Poa trivialis L.  | Rough Meadow-grass        | flowering plant |
| Vulpia myuros (L.) C.C. Gmel.                               | Rat's-tail Fescue         | flowering plant |
| Potamogeton L.  | Potamogeton               | flowering plant |
| Potamogeton pectinatus L.                                   | Fennel Pondweed           | flowering plant |
| Acer pseudoplatanus L.                                      | Sycamore                  | flowering plant |
| Anthriscus sylvestris (L.) Hoffm.                           | Cow Parsley               | flowering plant |
| Heracleum sphondylium L.                                    | Hogweed                   | flowering plant |
| Torilis japonica (Houtt.) DC.                               | Upright Hedge-parsley     | flowering plant |
| Arctium minus (Hill) Bernh.                                 | Lesser Burdock            | flowering plant |
| Arctium minus agg.  | Arctium minus agg.        | flowering plant |
| Artemisia vulgaris L.                                       | Mugwort                   | flowering plant |
| Bellis perennis L.  | Daisy                     | flowering plant |
| Cirsium arvense (L.) Scop.                                  | Creeping Thistle          | flowering plant |
| Crepis vesicaria L.   | Beaked Hawk's-beard       | flowering plant |
| Leucanthemum vulgare Lam.                                   | Oxeye Daisy               | flowering plant |
| Matricaria discoidea DC.                                    | Pineappleweed             | flowering plant |
| Matricaria recutita L.                                      | Scented Mayweed           | flowering plant |
| Senecio jacobaea L.   | Common Ragwort            | flowering plant |
| Senecio vulgaris L.   | Groundsel                 | flowering plant |
| Sonchus asper (L.) Hill                                     | Prickly Sow-thistle       | flowering plant |
| Taraxacum officinale agg.                                   | Taraxacum officinale agg. | flowering plant |
| Myosotis laxa Lehm.   | Tufted Forget-me-not      | flowering plant |
| Alliaria petiolata (M. Bieb.) Cavara & Grande               | Garlic Mustard            | flowering plant |
| Armoracia rusticana P. Gaertn., B. Mey. & Scherb.           | Horse-radish              | flowering plant |
| Capsella bursa-pastoris (L.) Medik.                         | Shepherd's-purse          | flowering plant |
| Rorippa Scop.   | Rorippa                   | flowering plant |
| Sisymbrium officinale (L.) Scop.                            | Hedge Mustard             | flowering plant |
| Sambucus nigra L.   | Elder                     | flowering plant |
| Symphoricarpos albus (L.) S.F. Blake                        | Snowberry                 | flowering plant |
| Euonymus europaeus L.                                       | Spindle                   | flowering plant |
| Calystegia silvatica (Kit.) Griseb.                         | Large Bindweed            | flowering plant |
| Convolvulus arvensis L.                                     | Field Bindweed            | flowering plant |
| Cornus sanguinea L.   | Dogwood                   | flowering plant |
| Dipsacus fullonum L.  | Wild Teasel               | flowering plant |
| Lathyrus pratensis L.                                       | Meadow Vetchling          | flowering plant |
| Medicago Iupulina L.  | Black Medick              | flowering plant |

| Onania aningga I                                   | Cniny Bootharrow            | flowering plant                 |
|--|-----------------------------|---------------------------------|

| Scrophularia nodosa L.                             | Common Figwort              | flowering plant                 |
| Veronica catenata Pennell                          | Pink Water-Speedwell        | flowering plant                 |
| Ulmus procera Salisb.                              | English Elm                 | flowering plant                 |
| Urtica dioica L.                                   | Common Nettle               | flowering plant                 |
| Valeriana officinalis L.                           | Common Valerian             | flowering plant                 |
| Enallagma cyathigerum (Charpentier, 1840)          | Common Blue Damselfly       | insect - dragonfly<br>(Odonata) |
| Pieris rapae (Linnaeus, 1758)                      | Small White                 | insect - butterfly              |
| Polyommatus icarus (Rottemburg, 1775)              | Common Blue                 | insect - butterfly              |
| Pararge aegeria (Linnaeus, 1758)                   | Speckled Wood               | insect - butterfly              |
| Anas platyrhynchos Linnaeus, 1758                  | Mallard                     | bird                            |
| Gallinula chloropus (Linnaeus, 1758)               | Common Moorhen              | bird                            |
| Columba palumbus Linnaeus, 1758                    | Common Wood Pigeon          | bird                            |
| Apus apus (Linnaeus, 1758)                         | Common Swift                | bird                            |
| Hirundo rustica Linnaeus, 1758                     | Barn Swallow                | bird                            |
| Delichon urbicum (Linnaeus, 1758)                  | House Martin                | bird                            |
| Troglodytes troglodytes (Linnaeus, 1758)           | Winter Wren                 | bird                            |
| Prunella modularis (Linnaeus, 1758)                | Hedge Accentor              | bird                            |
| Turdus merula Linnaeus, 1758                       | Common Blackbird            | bird                            |
| Sylvia atricapilla (Linnaeus, 1758)                | Blackcap                    | bird                            |
| Sylvia communis Latham, 1787                       | Common Whitethroat          | bird                            |
| Phylloscopus collybita (Vieillot, 1817)            | Common Chiffchaff           | bird                            |
| Cyanistes caeruleus (Linnaeus, 1758)               | Blue Tit                    | bird                            |
| Pica pica (Linnaeus, 1758)                         | Black-billed Magpie         | bird                            |
| Corvus corone Linnaeus, 1758                       | Carrion Crow                | bird                            |
| Sturnus vulgaris Linnaeus, 1758                    | Common Starling             | bird                            |
| Passer domesticus (Linnaeus, 1758)                 | House Sparrow               | bird                            |
|  | Chaffinch                   | bird                            |
| Fringilla coelebs Linnaeus, 1758                   |                             |                                 |
| Carduelis chloris (Linnaeus, 1758)                 | European Greenfinch         | bird                            |
| Oryctolagus cuniculus (Linnaeus, 1758)             | European Rabbit             | terrestrial                     |

|--|---|--|
| Assessment criteria (Continued)  |   | Criterion Score  |
|  | Qualify?  |  |
| 5. Fragility * score doubles if site scores over 5 pts in rarity category  |   | Numerical Score  |
| Does the site support a rare habitat?  | no  |  |
| Species / habitats at risk from succession (lack of management)*   | yes   |  |
| Species / habitats at risk from invasive species*  | no  | 8 / 10   |
| Species / habitats at risk from recreational pressure*   | no  |  |
| Species / habitats at risk from litter / fly tipping*  | yes   |  |
| Comments:  |   | Overall Score  |
| Management of the grassland varies between total neglect and amenity mowing. Some  |   |  |
| cut and collect mowing would be beneficial. Judicious use of herbicides under a manage   |   |  |
| could keep some a greater area of ballast open for annual and short lived perennial plan   | is.   | Н  |
| Fly tipping and litter are of great concern, particularly within the drainage ditch  |   |  |
| 6. Connectivity within the landscape   |   | Numerical Score  |
| The site is a Key link in Hull's Green Network   | yes   | inumencai Score  |
| The site is an important 'stepping stone' feature  | no  | 13 / 10  |
| The site is an important linear feature or contains linear features  | yes   | 13 / 10  |
| Site is adjacent to another SNCI (including those outside the city   | yes   |  |
| Site adjacent to other greenspace (including countryside outside the city)   | no  |  |
| Comments:  | 110   | Overall Score  |
| An important wildlife corridor spanning several kilometres. One resident said that they ha   | nd seen   | O VOI UIII OOOI O  |
| deer using the site to move into the city from the surrounding countryside. The site is like   |   |  |
| to be an important commuting route for other mammals, especially bats, and also birds.   |   | VH   |
