Please note that there will be double counting as a household often can be placed in a B&B initially and then moved to alternative temporary accommodation . Data only includes those households who have left temporary accommodation and will be updated every 6 months

Families = With Children

Data is updated every 6 mths and is based on year went into temporary and updated when leaving temp accommodation

Some households will move from one form of temp to another

This does not include those housed due to "Every one in Campaign"

Last Updated September 2023

2022/2023 Also includes cases from Ukraine and costs
