

REPLACEMENT OF ORIGINAL WINDOWS

(LISTED BUILDINGS & CONSERVATION AREAS)

In order to consider applications for the replacement of original windows, the following drawings will be required:

- Building elevation as existing (1:100)
- Building elevation as proposed (1:100)

Existing Original Window:-

- Full window elevation (1:20)
- Full vertical section (1:5)
- Full cross section (1:5)
- Horn detail (if present) (1:1)

Proposed Replacement Window:-

- Full window elevation (1:20)
- Full vertical section (1:5)
- Full cross section (1:5)
- Horn detail (if present) (1:1)

NB Replacement windows:

- *should match very closely the proportions and detailing of the original window;*
- *should match very closely the position in the reveal of the original window;*
- *should have glazing bars forward of the surface of glazing units (if present on the original) and be an integral part of the window construction.*
