NARRATIVE REPORT

1. *Introduction*

Hull is a unique city with a proud maritime heritage. As an 'entirely urban island' surrounded by the deeply rural East Riding of Yorkshire and the Humber Estuary; it serves a large hinterland of coast and countryside.

Covering 7,158 hectares (27.59 square miles) Hull, whilst the fourth largest city in the Yorkshire and Humber region, has one of the most tightly drawn administrative boundaries in the country. Its population of 275,400 live across 21 wards and include a disproportionate share of low-income, poorly-qualified, unemployed and economically inactive residents living in some of the most deprived areas of England. The city's natural suburban villages (e.g. Cottingham, Hedon, Hessle, and Willerby) are in the more affluent East Riding of Yorkshire, many of whose residents commute into the city for work and for retail / leisure activities.

Hull is the only east coast city to have a port within its administrative boundaries. The Port of Hull is the largest single item of transport infrastructure within the City and is a major national centre for the offshore renewables sector. The sustained redevelopment programme undertaken by Associated British Ports has made Hull one of the best-equipped freight and passenger centres in the UK, with additional capacity for growth. The M62, stretching across Britain, links Hull to Liverpool (via Leeds and Manchester) and intersects with the north-south A1/M1 (London to Edinburgh) route.

Hull Key Facts

- Hull is home to 275,400 people (2024); with a travel to work population of 531,800 (2021) which covers the city and extensive commuting zones in the East Riding, and which acts as a crucial "functional economic area".
- Population growth in Hull – estimated at 14,500 (5.6%) over the last ten years – tends to be below the national average; impeded by historic high levels of internal out migration (e.g., people moving out of Hull to elsewhere in the UK).
- Whilst internal out migration previously focused on families with children moving out of Hull, largely to the surrounding East Riding, recent and ongoing work in Hull building new houses, creating new jobs, improving the public realm, and improving educational attainment has resulted in a sustained 13-year increase in both the number of 5 – 14 year olds and 30 – 39 year olds, to the highest number on recent record, as we continue to create a city and neighbourhoods which attract people to live and work here.
- Instead, the increased level of internal outward migration is now largely driven by those within the 20 – 34-year age group, who make up half of all outward internal migrants. In particular, the number of 20 – 24-year-olds, Hull's largest age group (until 2019), has fallen consistently to the lowest number on recent record because large numbers of young people (including university graduates) choose to leave Hull for other large Northern cities.
- It is important to note that Hull's population has a history of being undercounted. Recently revised population estimates for each year 2012 to 2021 show that previously released mid-year estimates were significantly under counting the local population in the years preceding the 2021 Census. In fact, during the ten-year period between 2011 and 2021 there was a total cumulative population undercount of nearly 49,000 people.
- There are currently approximately 124,700 residential properties in Hull (2024). This number has grown by an average of over 640 properties in each year over the last five years (including an average of over 280 new house build completions per annum); with continued large-scale house building and city centre conversions / developments.
- The local economy is worth £7,403m (2023); an increase of £690m (10.3%) compared to the previous year. Gross Value Added per head of population (an economic output measurement) is now estimated at £27,222, which is below both the regional figure of £29,285 and the national figure of £36,632.
- Hull's largest sector is manufacturing, which is currently valued at £1,819 million (or 24.6% of the economy). Other significant sectors include human health and social work (£882 million; 11.9% of the economy), wholesale and retail trade (£812 million; 11.0% of the economy), real estate activities (£633 million; 8.6% of the economy), and education (£610 million, 8.2% of the economy).

- During the 12 months to September 2025, an average of 117,000 residents were classed as in employment (67.2% compared to 75.8% nationally); which is a 6,400 reduction from the previous year. Between March 2025 and June 2025, employment in Hull fell significantly by 8,600 and is currently at its lowest level since 2015 / 2016.
- Over the same period, an average of 7,500 residents were classed as unemployed (6.0% compared to 4.3% nationally); which is a 3,100 increase from the previous year. Total unemployment in Hull has risen during each of the last six quarters and is currently at its highest level since 2019 / 2020.
- The DWP unemployment benefit claimant count provides an alternative, and more up to date, picture of unemployment in Hull. During the 12 months to February 2026, an average of 9,700 residents were classed as unemployed (5.5% compared to 4.0% nationally); which is an 800 decrease from the previous year.
- Finally, during the 12 months to September 2025, an average of 46,400 residents were classed as in economically inactive (27.3% compared to 20.7% nationally); which is a 5,600 increase from the previous year. With the exception of one quarter in 2023 / 2024, economic inactivity in Hull is currently at its highest level since 2014 / 2015.
- There are 138,000 jobs based in Hull (2023) – a decrease of 1,000 jobs from the preceding years. Most of the jobs in Hull are based in manufacturing (16.7%), human health and social work (15.1%), wholesale and retail trade (14.3%) and administrative and support service activities (11.1%).
- In 2025, Hull is home to just under 8,800 local businesses – a small increase of around 100 businesses from the previous year, following two consecutive years of decreases. Whilst most of these businesses are micro, employing 0 – 9 people (76.8%); Hull has a higher proportion of medium and large sized businesses compared to regionally and nationally.
- Median resident full time weekly wages in Hull are currently £645.10 (2025). This is £124.40 below the England average. Over the last year weekly wages in Hull rose £43.90 (7.3%), to their highest level on record. This growth was above both regional (5.2%) and national (5.1%) wage growth; resulting in a narrowing in wage gap between Hull and England for the first time in for years.
- Hull is ranked as the 6th most deprived local authority in England (2025); a small improvement from 4th most deprived local authority in 2019. 42% of LSOA in Hull are amongst the 10% most deprived nationally, 36.3% of households experience income deprivation and 20.8% of households experience employment deprivation.
- In 2024 / 2025, 20,600 (37.2%) of all children under 16 in Hull are estimated to live in relative low-income families, after housing costs, compared to 26.0% in the UK. This is similar to the previous year (37.9%), and the 26th highest proportion of children in relative low-income families of all 361 local authorities in the UK.
- Nearly 21,500 households (17.9%) experience fuel poverty in 2023 – compared to 11.4% nationally and 20.4% in the previous year.
- Life expectancy at birth in Hull in 2022-24 was 75.5 years for men and 80.4 years for women. This compares with 79.5 years for men (a difference of 4.0 years) and 83.3 years for women (a difference of 2.9 years) for England.
- Between 2011-14 and 2017-19, life expectancy in Hull stalled, and decreased, despite increases nationally over the same period. Then, between 2017-19 and 2020-22, due to the COVID-19 pandemic, life expectancy in Hull further decreased to a recent low; and at a greater rate of decrease than experienced nationally. Whilst increases in life expectancy in Hull have occurred between 2020-22 and 2022-24, life expectancy for 2022-24 is lower than estimates prior to the pandemic, and currently similar to what it was 14 years ago for men and four years ago for women.
- In 2022-24, healthy life expectancy, for both men and women, is around 8 years below the national average and has decreased over the last year, at a greater rate than decreases nationally over the same period. Comparing healthy local life expectancy and life expectancy at birth suggests males in Hull experience an average of around 22.4 years of ill health (29.7% of their life), while females experience 27.1 years of ill health (33.7% of their life).
- During the 12 months to September 2025, an average of 62,200 working age people in Hull are EA core or work-limiting disabled. This equates to 36.6% of working age people (compared to 25.6% nationally). The number / rate of working age disabled residents is now at its highest level on recent record.
- The GCSE average Attainment 8 score (2024/25) in Hull is 40.4; below the regional figure of 44.4 and the national figure of 46.0, a decrease from 41.6 the previous year, and the lowest average Attainment 8 score on recent record.

- 36.6% of students in Hull achieved grades 5 or above in English and Maths (compared to 45.4% nationally) and 55.3% achieved grades 4 or above (compared to 64.8% nationally). Both are broadly similar to the previous year.
- As of 31 March 2025, the rate of Children in Need in Hull (509.3 per 10,000 children) is significantly higher than the national rate (330.3 per 10,000 children), but a reduction compared to the previous year (536.2 per 10,000 children). The rate of Children Looked After (119 per 10,000 children) is nearly twice the national rate (67 per 10,000 children), and broadly similar compared to the previous year (121 per 10,000 children).
- The total crime rate in Hull in 2025 was 128.6 per 1,000 residents; compared to 79.0 per 1,000 nationally. However, the total ASB incident rate was 9.70 per 1,000 residents; compared to 15.26 per 1,000 nationally.
- Total crime in Hull in 2025 was 1.7% lower compared to the previous year (598 fewer offences); including a 2.5% decrease in sexual and violent offences. Over the same period there was a 9.3% decrease in incidents of ASB (266 fewer incidents).

Council Statistics

- Responsible for nearly 22,900 council homes (2025).
- Responsible for (local authority maintained) 146 nursery school children, 24,639 primary school children, 16,988 secondary school children, 840 special school students and 418 students in Alternative Provision (2024/25).
- 9,084 children in state-funded schools with Special Educational Needs (2024/25); either with an EHC plan (2,586) or SEN support / SEN without an EHC plan (6,498).
- 4,696 children referred to children's social care services (2025).
- 14,928 school children known to be eligible for free school meals (2024/25).
- Over 106,400 tonnes of household waste collected, of which over 50,200 tonnes (47.2%) sent for recycling (2024/25).
- Assessed 3,805 households for homelessness of which 3,462 (91.0%) were assessed as owed a duty (1,590 prevention duty and 1,872 relief duty). 1,213 households secured accommodation for 6 months or more. (2024/25).
- 5,637 employees (4,740.38 FTE's) (31 March 2026).

2. Significant Issues for 2025/26 and Beyond

The Council's key challenge is responding to increasing demand for services following over a previous decade of reductions in the money it has available. The Council, and City, as Yorkshire's only major port, faces specific challenges and opportunities in relation to exiting the European Union. There are also a wide range of further challenges as well as opportunities:

- Maintaining key infrastructure and improving the environment.
- Improving economic productivity, skills and education.
- Devolution and the role of cities.
- Climate change and living with water.
- Rising service demands and expectations of adult and children's social care services.
- Income inequality and impacts of welfare reform.
- Digital access and the provision of online services.
- Working more efficiently within the council and across partnerships.
- Future funding of local government.

Responding to these challenges, the Council will design and develop services that not only identify opportunities for working together with partners, but also to an approach that:

- **Promotes independence** – people and communities are able to do things for themselves rather than relying on public services for care and support.
- **Supports community resilience / family networks** – an emphasis on supporting existing and new community networks and providers.
- **Intervenes quickly and effectively at an early stage** – identifying and targeting our support on early signs of difficulty, rather than on the high cost / acute services, on the basis that prevention is better than cure.
- **Prioritises independent, self-supported communities** – rather than institutional support and care.

3. Community Plan

The Council approved a Community Plan for 2024-2034 in November 2023. The Community Plan sets out six ambitions and three commitments which will be the key areas of focus for the Council, along with its partners, over the next ten years: The six ambitions are:

- Safe and Welcoming Neighbourhoods
- A Healthier and Fairer Hull
- Reaching our potential
- Economic Growth that works for all
- Responding to the Climate Emergency
- Our Culture, Our Heritage, Our City

The three Commitments are:

- Engagement of all residents and communities
- Strong, united leadership committed to improving outcomes
- A focus on inclusion

In developing the Community Plan, the Council has been clear that development and delivery will only be as strong as the engagement, listening, and working with communities that has been, and will continue to be, created. During the development the Council has sought feedback from a wide range of partners, residents, and stakeholders all of which has informed the final plan.

As the City Plan came to an end, it was timely to develop a new plan for the city. This presents a new opportunity to reset the relationship with our residents and ensure resident voice directly informs strategic priorities going forward.

The adoption of a Community Plan by the Council enabled the implementation of policy, investment, and savings decisions to be carried out within a clear framework. The Community Plan, together with other key strategies, will help support the ongoing development of area-based plans.

The provision of a clear statement of intent, in the context of ongoing public austerity and increasing service demands, will support services and partners to prioritise resource allocation for revenue, capital, savings and transformational programmes.

The Community Plan will also provide a simple communication tool to ensure that the Council's staff, partners, and residents are able to understand the priorities of the Council and the areas in which we are seeking to work with others and the role of the Council in Hull. This clarity is particularly important for partners involved in investment decisions who require evidence of prioritisation and ongoing commitment to funding support and that these priorities and commitments are embedded in policy.

The Community Plan will provide a framework for assessing delivery against key outcomes for the Council and its partners and therefore influence performance management and measurement. For the Council, this is articulated within the Council Plan 2024-2028.

The plan provides a framework for prioritising its scarce resources and, supported by a wide range of other strategies and plans, create a golden thread running across the organisation, demonstrating how activity is linked to delivery of the ambitions and priorities.

4. Devolution

The Council, in collaboration with East Riding of Yorkshire Council and the Government, worked to legally establish and form the Hull and East Yorkshire Mayoral Combined Authority (MCA) during 2024-25. The MCA will work to focus on a regional scale for investment providing Hull access to opportunities beyond the local level. The MCA will continue to evolve in future years and focus on developing the prosperity of Hull and East Yorkshire. The priorities set out in the Devolution Deal were:

- More jobs
- A better-connected region
- Affordable homes
- Fit and Healthy communities
- Investing in our young people

These will develop over the next year as the MCA develops its strategies into investment plans that will start to become fundamental to the Council at a local level in securing economic growth for our city.

City Plan Performance: 2025-2026

	Population	Period	No	%	England	Previous	Direction

5. **Financial Outlook for Council**

As reported to Council in February 2026 as part of the General Fund Revenue Budget 2026/27 and Medium Term Financial Plan 2026/27 to 2028/29, the Government announced details of the Provisional Local Government Finance Settlement on 18 December. This is the first multiyear Local Government settlement in over 5-years and, whilst future funding allocations will be subject to annual review, it provides some stability to Local Government financial planning and the Medium Term Financial Plan for the Council.

During 2025/26 Government consulted on the long-awaited Spending Review for Local Government funding, which presented the Fair Funding 2.0 (FF2.0) Consultation in late spring 2025. FF2.0 is the first fundamental update to the Local Government finance system since 2013/14 and aimed to align funding allocations to areas of greatest need, e.g. deprivation, which would be distributed through updated Relative Needs and Resources Formulas.

Over the summer into autumn 2025, FF2.0 modelling undertook a number of iterations as the Government worked to update various policies into the overall Local Government funding envelope and reflect the feedback following the conclusion of the FF2.0 consultation. The following updates were announced within the Local Government Autumn Funding Policy Statement, published on 20th November 2025, and included within the revised funding formulas within the funding settlement;

- Updated baseline data for Index of Multiple Deprivation (IMD) 2025
- New Income Deprivation Affecting Children Index (IDACI) for Children's Resource Needs Formula (RNF)
- Updated population base to 2022 (not mid-2024 estimates)
- Removal of "remoteness" adjustment from all Area Cost Adjustment's except Adult Social Care RNF
- Increased distance for Home to School Transport cap from 20 to 50 miles
- Continuation of Recovery Grants for upper tier authorities but with an introduced £35m funding cap to core spending power
- Confirmation of Business Rates Reset and associated funding floors
- Grants rolling into the Settlement Funding Allocation (SFA)

MHCLG subsequently published the Financial Local Government Finance Settlement on 9th February 2026 which included amendments to the provisional settlement. The changes related to a small increase in Core Spending Power (CSP) through a 'Additional Recovery Grant' and some further funding through the Homeless, Rough Sleeping and Domestic Abuse Grant. In addition, the settlement also outlined further details in relation to SEND which highlights the need for the Council to set aside funds to meet the confirmed proportion of the Council's significant DSG deficit.

Following the changes to the IMD 2025 calculations, Hull City Council transitioned from the fourth most deprived Local Authority in England to the sixth, reiterating a greater funding need within the city than many other authorities across the country. However, the details outlined within the funding settlement, following wider funding formula changes included with FF2.0, have generated a more mixed reflection of funding versus need; and whilst there has been an increase in Core Spending Power (CSP) for 2026/27, with the Local Government Financial Settlement, it is important to note that this is within the context of continued significant inflationary costs arising since 2022/23 which have continued to impact into 2025/26 and the significant loss in funding since 2010.

Formal revenue monitoring reports during 2025/26 have continued to highlight the significant costs for inflation on non-pay, pay and sustained high levels of interest rates but also increasing levels of demand and complexity of need.

The financial pressures faced by the Council require continued delivery of agreed savings measures for 2026/27 and continued delivery of 2025/26 schemes which are yet to be achieved. Additional efficiencies needed for future years to balance the budget and protect the Council's financial stability will also be required from 2026/27. Therefore, the Council will continue to develop efficiencies in line with the overall best value framework strategy.

In Hull the increase in core spending power (CSP) in the next year is 7.03%, and 16.85% over the 3-year settlement. Despite the increase in estimated funding in 2026/27, the funding received will not cover the significant increase in inflation and demand costs over the last 4 years. It is within this context that the Council must seek to continue to control its costs in order to bring expenditure into line with available resources.

Within the overall settlement, it was acknowledged by Government that Local Government Pension Fund triennial valuations are due nationally from 1st April 2026 and it was anticipated that reductions in overall pension contributions would be achieved by most local authorities within the 3-year multi year settlement period. Specifically, MHCLG identified within the provisional local government settlement announcement that Councils in receipt of reduced pension costs following the triennial valuation should plan to utilise these savings to balance their overall budgets alongside FF2.0. For Hull, this has been confirmed as a reduction in both primary and secondary pension rate contributions, which in turn has generated a £9.8m reduction in pension costs within each financial year of the MTFP. Therefore, without this substantial reduction, it would have been difficult to provide a balanced budget overall and it is evident MHCLG believed pensions savings would be a material factor for many authorities to achieve balanced budgets within the overall funding settlement.

6. **Revenue Outturn 2025/26**

The Provisional 2025/26 Outturn was reported to Cabinet on 22 June 2026, and, as noted in the table below, the Council, at an overall Council level incurred an overspend of £4.2m. A one-time use of reserves will be required to balance the budget in 2025/26, as anticipated during the last round of the 25/26 Budget Monitoring and approved within the 2026/27 Budget at Full Council in February 2026.

In year and future year projections will be informed by the first round of monitoring and the updated positions will be considered by Cabinet in July 2026.

Reported Revenue Outturn	Budget £'000	Actual £'000	Variations £'000
Net position - Services	361,249	374,937	13,688
Net position - Corporate Accounts including Receipts from Council Tax, Business Rates, Revenue Grant	(361,249)	(370,695)	(9,446)
	<u>-</u>	<u>4,242</u>	<u>4,242</u>

The level of general reserves at 31 March 2026 have remained in line with the previous year and stand at £20.968m.

7. **Capital Programme**

Expenditure by the Council in 2025/26 was £241m with expenditure aimed at underpinning the Council's objectives and providing for investment in long term assets which will be used to deliver Council services. The largest spending areas for 2025/26 were:

- Roads and Infrastructure (£21m)
- Clean Environment (£0.8m)
- Crime Prevention (£0.5m)
- Carbon Reduction (£36m)
- Efficiency and Value for Money (£16m)
- Improving Local Areas (£65m)
- HRA (£85m)
- Other (£17m)

8. **Housing**

Government rent policy allows for annual increases of CPI plus 1% and Government has extended this for a further 10 years from 2026/27 and is implementing rent convergence from 2027/28. The Regulator of Social Housing (RSH) publishes an annual Rent Standard which governs rent setting, which was updated for 2026.

In recent years there has been a significant amount of additional legislation and guidance applicable to the housing sector, with the most wide-ranging impact arising from the Social Housing (Regulation) Act 2023 and specifically the role of the RSH.

The RSH is central to the way in which social housing providers are regulated and standards define the outcomes that landlords must deliver for tenants. This includes making strategic and effective choices so that competing priorities are managed effectively and address the specific risks and challenges. The RSH assesses how well landlords deliver the outcomes set in their standards and take action if needed. This means that landlords must be able to demonstrate, with evidence, how they are delivering those outcomes. Landlords also need to be transparent with their tenants and other stakeholders about their performance.

The regulations include the Governance and Financial Viability Standard to ensure landlords are well run and financially viable, the Value for Money Standard to ensure landlords make the best use of their resources and the Rent Standard to ensure rents are set as set out in Government policy.

9. **Statement of Accounts**

The following pages detail the Statement of Accounts for Kingston upon Hull City Council for the financial year ended 31 March 2026. It shows the financial position of the Council and the cost of the services it provided in the year. A list of the accounts together with a brief explanation of the purposes of each account is shown below:-

(i) ***Movement in Reserves***

This statement shows the movement in the year on the different reserves held by the Council, analysed into 'usable reserves' (ie. those that can be applied to fund expenditure or reduce local taxation) and other reserves.

(ii) ***Comprehensive Income and Expenditure Statement***

This account summarises the resources that have been generated or consumed in providing services and managing the Council during the last year. It includes all day-to-day expenses and related income on an accruals basis, as well as transactions measuring the value of non-current assets consumed and the real projected value of retirement benefits earned by employees in the year.

(iii) ***The Balance Sheet***

This statement sets out the financial position of the Council at 31 March 2026. It shows a summary of non-current assets held, the current assets employed, the balances and reserves available to the Council and the Council's long term indebtedness.

(iv) ***Cash Flow Statement***

This statement summarises the Council's inflows and outflows of cash arising from transactions with third parties for revenue and capital purposes.

(v) ***The Housing Revenue Account Income and Expenditure Statement***

The HRA Income and Expenditure Statement shows the economic cost in the year of providing housing services in accordance with generally accepted accounting practices, rather than the amount to be funded from rents and government grants. Authorities charge rents to cover expenditure in accordance with regulations; this may be different from the accounting cost. The increase or decrease in the year, on the basis of which rents are raised, is shown in the Movement on the HRA Statement.

(vi) **The Collection Fund**

All the money collected from council taxpayers and national non-domestic ratepayers is paid into this account. The precept, being the money required by the City Council, the Police Authority and the Fire Authority to meet net spending on services provided, is paid out of the account.

10. Housing Revenue Account (HRA)

The Council is required to keep a separate account in respect of Council Housing. The HRA will show major elements of expenditure (maintenance, management and capital financing) and income (rents and charges). The balance at 31 March 2026, on the Housing Revenue Account is £25.402m though most of this is earmarked for future costs arising from the Modern Homes Programme.

11. Balance Sheet

The Council's Balance Sheet demonstrates a sound financial platform for the Council to respond to the financial challenges ahead. The significant movements in the year are detailed below:

	2024/25 £'000	2025/26 £'000	Explanation
Long Term Debtors	10,870	17,355	Reflects the loans provided to the Hull District Heating Company in line with the approved Business Plan to support the construction of the Heat Network.
Short Term Debtors	90,021	102,277	The year end position has increased across a number of areas including individual Council Tax ratepayers.
Cash and Cash Equivalents	17,835	30,127	Increase reflects a normal year end cash balance position as opposed to a lower than expected one in the previous year. This continues the approach of maintaining lower cash balances to avoid further long-term borrowing in light of higher interest rates.
Short Term Borrowing	(195,914)	(256,539)	The Council continues to manage a proportion of its debt portfolio as short in light of higher long-term interest rates. This includes £90m long term borrowing repayable in 2026/27.
Capital Grants Receipts in Advance	(30)	(3,087)	Additional carry forward of specific grants to support the ongoing delivery of new capital schemes.
Long Term Borrowing	(583,785)	(676,193)	The Council has taken some additional long-term borrowing up to 5 years to support the delivery of the increased Capital Programme in line with the Council's Borrowing Strategy, and in light of higher long term interest rates.
Other Long Term Liabilities	(82,966)	(33,917)	Pension fund Investment returns greater than expected has again resulted in a positive return on assets. However, as detailed in Note 43, the pension asset has been reduced by the Asset Ceiling Adjustment.

12. Group Accounts

The Council's 2025/26 Accounts are very similar in presentation to last years with no significant change in accounting regulations impacting this year.

13. Humber Bridge Debt

The four Humber area authorities are responsible for any operating deficit that the Bridge Board may incur after fully utilising all of its reserves. Any deficit would be shared equally between all authorities. The Bridge Board's current financial plans give no concern that any call will be made on the authorities in the foreseeable future. The Council will continue to monitor the financial plans and outturn of the Bridge Board.

Tracy Parker, ACMA, CGMA
Executive Director of Corporate Resources (Section 151 Officer)

STATEMENT OF RESPONSIBILITIES

1. ***The Council's Responsibilities***

The City Council is required:

- To make arrangements for the proper administration of its financial affairs and to ensure that one of its officers has the responsibility for the administration of those affairs. In Kingston upon Hull City Council, that officer is the Executive Director of Corporate Resources (Section 151 Officer).
- To manage its affairs to secure the economic, efficient and effective use of resources and safeguard its assets.
- To approve the statement of accounts.

2. ***The Responsibilities of the Executive Director of Corporate Resources (Section 151 Officer)***

- 2.1. The Executive Director of Corporate Resources (Section 151 Officer) is responsible for the preparation of the Council's Statement of Accounts in accordance with proper practices as set out in the Chartered Institute of Public Finance and Accountancy (CIPFA) and Local Authority (Scotland) Accounts Advisory Committee (LASAAC)
- 2.2. In preparing this Statement of Accounts, the Executive Director of Corporate Resources (Section 151 Officer) has:
 - Selected suitable accounting policies and applied them consistently;
 - Made judgements and estimates that were reasonable and prudent;
 - Complied with the Code of Practice on Local Authority Accounting;
 - Kept proper accounting records that were up to date;
 - Taken reasonable steps for the prevention and detection of fraud and other irregularities.

Certification of the Accounts

I certify that the Statement of Accounts gives a true and fair view of the position of Hull City Council as at 31 March 2026 and the income and expenditure for the year ended 31 March 2026.

This draft Statement of Accounts was certified and signed by Tracy Parker on 15 July 2026

Tracy Parker, ACMA, CGMA
Executive Director of Corporate Resources (Section 151 Officer)

MOVEMENT IN RESERVES STATEMENT

This statement shows the movement in the year on the different reserves held by the Council, analysed into 'usable reserves' (ie those that can be applied to fund expenditure or reduce local taxation) and other reserves.

To provide consistency with the council structure reported in the Outturn Report City Services and Resources line reported in the 2024/25 published Statement of Accounts has been split into Housing Communities and Corporate Resources.

THE BALANCE SHEET

The Balance Sheet summarises the financial position of the Council, including the Housing Revenue Account and the Collection Fund. It shows the value of the Council's assets and liabilities at the end of the financial year. It excludes Trust Funds and Pension Fund balances.

<u>At 31 March 2025</u>		<u>Note</u>	<u>At 31 March 2026</u>

6,816	Cash and cash equivalents at the beginning of the reporting period		17,835
17,835	Cash and cash equivalents at the end of the reporting period	21	30,127

NOTES TO THE MAIN FINANCIAL STATEMENTS

1. Accounting Policies

i. General Principles

The Statement of Accounts summarises the Council's transactions for the 2025/26 financial year and its position at the year-end of 31 March 2026. The Council is required to prepare an annual statement of accounts by the Accounts and Audit Regulations 2015, which those Regulations require to be prepared in accordance with proper accounting practices. These practices under Section 21 of the Local Government Act 2003 primarily comprise the Code of Practice on Local Authority Accounting in the United Kingdom 2025/26, supported by International Financial Reporting Standards (IFRS) and statutory guidance issued under Section 12 of the 2003 Act.

The accounting convention adopted in the statement of accounts is principally historical cost, modified by the revaluation of certain categories of non-current assets and financial instruments.

Going Concern - The accounts have been prepared on a going concern basis, that is that the accounts are prepared on the assumption that the functions of the Council will continue in operational existence for the foreseeable future. In particular that the revenue accounts and balance sheet assume no intention to curtail significantly the scale of operations.

The majority of figures in this document have been rounded to the nearest £1,000. This means that there may be very minor inconsistencies between tables and notes, due to rounding adjustments.

ii. Accruals of Income and Expenditure

Activity is accounted for in the year that it takes place, not simply when cash payments are made or received. There is a de-minimis for these adjustments of £10k. Examples include;

- Revenue from contracts with service recipients, whether for services or the provision of goods, is recognised when (or as) the goods or services are transferred to the service recipient in accordance with the performance obligations in the contract.
- Supplies are recorded as expenditure when they are consumed – where there is a gap between the date supplies are received and their consumption, they are carried as inventories on the Balance Sheet.
- Expenses in relation to services received (including services provided by employees) are recorded as expenditure when the services are received rather than when payments are made.
- Interest receivable on investments and payable on borrowings is accounted for respectively as income and expenditure on the basis of the effective interest rate for the relevant financial instrument rather than the cash flows fixed or determined by the contract.
- Where revenue and expenditure have been recognised but cash has not been received or paid, a debtor or creditor for the relevant amount is recorded in the Balance Sheet. Where debts may not be settled, the balance of debtors is written down and a charge made to revenue in financing and investment income and expenditure for the income that might not be collected.

iii. Acquisitions and Discontinued Operations

Acquired Operations

Acquired operations are the operations that the Council has acquired during the accounting period or the transfer of services acquired as a consequence of legislation. The Council did not acquire any operations during the financial reporting period.

Discontinued Operations

To qualify as discontinued operations activities must cease completely and, where applicable, these are presented separately on the face of the Comprehensive Income and Expenditure Statement. No operations were discontinued during the financial reporting period.

iv. Cash & Cash Equivalents

Cash includes all bank credit balances and overdrafts held by the Council as part of its normal cash management, including all deposit accounts accessible without notice.

Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of change in value. Cash equivalents include investments with a fixed maturity of less than three months from the date of acquisition and available for sale assets such as cash placed in money market funds.

In the Cash Flow Statement, cash and cash equivalents are shown net of bank overdrafts that are repayable on demand and form an integral part of the Council's cash management.

v. Exceptional Items

Where items of income and expense are material, their nature and amount are disclosed separately, either on the face of the Comprehensive Income and Expenditure Statement or in the notes to the accounts, depending on how significant the items are to an understanding of the Council's financial performance.

vi. Prior-period Adjustments, Changes in Accounting Policies and Estimates and Errors

Prior period adjustments may arise as a change in accounting policies or to correct a material error. Changes in accounting estimates are accounted for prospectively, i.e. in the current and future years affected by the change and do not give rise to a prior period adjustment.

Changes in Accounting Policies are only made when required by proper accounting practices or when the change provides more reliable or relevant information about the effect of transactions, other events and conditions on the Council's financial position or financial performance. Where a change is made, it is applied retrospectively (unless stated otherwise) by adjusting opening balances and comparative amounts for the prior period as if the new policy had always been applied.

There was one significant change in accounting policy during 2024/25, the implementation of IFRS16 Leases. This had a mandatory implementation date of 1st April 2024. This is detailed further at point xx and in Note 38.

Material errors discovered in prior period figures are corrected retrospectively by amending opening balances and comparative amounts for the prior period.

vii. Charges to Revenue for Non-Current Assets

Service revenue accounts, support services and trading accounts are debited with the following amounts to record the real cost of holding non-current assets during the year:

- depreciation attributable to the assets used by the relevant service
- revaluation and impairment losses on assets used by the service where there are no accumulated gains in the Revaluation Reserve against which they can be written off
- amortisation of intangible assets attributable to the service

The Council is not required to raise Council Tax to cover depreciation, revaluation and impairment losses or amortisations. However, it is required to make an annual provision from revenue to contribute towards the reduction in its overall borrowing requirement (equal to either an amount calculated on a prudent basis determined by the Council in accordance with statutory guidance). Depreciation, revaluation and impairment losses and amortisations are therefore replaced by

revenue provision in the General Fund Balance in the Statement of Movement in Reserves, by way of an adjusting transaction with the Capital Adjustment Account for the difference between the two.

viii. Council Tax and National Non-Domestic Rates

Billing authorities act as agents, collecting council tax and national non-domestic rates (NNDR) on behalf of the major preceptors (including government for NNDR) and, as principals, collecting council tax and NNDR for themselves. Billing authorities are required by statute to maintain a separate fund (ie the Collection Fund) for the collection and distribution of amounts due in respect of council tax and NNDR. Under the legislative framework for the Collection Fund, billing authorities, major preceptors and central government (for NNDR) share proportionately the risks and rewards that the amount of council tax and NNDR collected could be less or more than predicted.

Accounting for Council Tax and NNDR.

The council tax and NNDR income included in the Comprehensive Income and Expenditure Statement (CIES) is the Council's share of accrued income for the year. However, regulations determine the amount of council tax and NNDR that must be included in the Council's General Fund. Therefore, the difference between the income included in the CIES and the amount required by regulation to be credited to the General Fund is taken to the collection fund adjustment account and included as a reconciling item in the Movement in Reserves Statement.

The Balance Sheet includes the Council's share of the end of year balances in respect of council tax and NNDR relating to arrears, impairment allowances for bad debts, overpayments and prepayments and appeals.

Where debtor balances for the above are identified as impaired because of a likelihood arising from a past event that payments due under the statutory arrangements will not be made, the asset is written down and a charge made to the taxation and non-specific grant income and expenditure line in the CIES. The impairment loss is measured as the difference between the carrying amount and the revised future cash flows.

ix. Employee Benefits

Benefits Payable during Employment

Short-term employee benefits are those due to be settled wholly within 12 months of the year-end. They include such benefits as wages and salaries, paid annual leave and paid sick leave, bonuses and non-monetary benefits (eg cars) for current employees and are recognised as an expense for services in the year in which employees render service to the Council. An accrual is made for the cost of holiday entitlements (or any form of leave, eg time off in lieu) earned by employees but not taken before the year-end that employees can carry forward into the next financial year. The accrual is made at the wage and salary rates applicable in the following accounting year, being the period in which the employee takes the benefit. The accrual is charged to surplus or deficit on the provision of services, but then reversed out through the Movement in Reserves Statement to the accumulated absences account so that holiday entitlements are charged to revenue in the financial year in which the holiday absence occurs.

Termination Benefits

Termination benefits are amounts payable as a result of a decision by the Council to terminate an officer's employment before the normal retirement date or an officer's decision to accept voluntary redundancy in exchange for those benefits and are charged on an accruals basis to the appropriate service segment or, where applicable, to a corporate service segment at the earlier of when the Council can no longer withdraw the offer of those benefits or when the Council recognises costs for a restructuring.

Where termination benefits involve the enhancement of pensions, statutory provisions require the General Fund balance to be charged with the amount payable by the Council to the pension fund or pensioner in the year, not the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement, appropriations are required to and from the pensions reserve to remove the notional debits and credits for pension enhancement termination benefits

and replace them with debits for the cash paid to the pension fund and pensioners and any such amounts payable but unpaid at the year-end.

Benefits Payable after Employment

Employees of the Council are members of three separate pension schemes:

- The Teachers' Pension Scheme, administered by Capita Teachers' Pensions on behalf of the Department for Education.
- The NHS Pension Scheme, administered by NHS Pensions.
- The Local Government Pensions Scheme, administered by the East Riding of Yorkshire Council.

All schemes provide defined benefits to members (retirement lump sums and pensions), earned as employees work for the Council.

However, the arrangements for the teachers' and NHS schemes mean that liabilities for these benefits cannot be identified to the Council. The schemes are therefore accounted for as if it were a defined contributions scheme – no liability for future payments of benefits is recognised in the Balance Sheet and the service revenue accounts are charged with the employer's contributions payable to teachers' and NHS pensions in the year.

The Local Government Pension Scheme

The Local Government Scheme is accounted for as a defined benefits scheme. The Draft Accounts will be based on the Estimate Report provided by the Actuary. The final figures will be reflected in the Final Accounts.

- The liabilities of the East Riding Pension Scheme attributable to the Council and Group Companies are included in the Balance Sheet on an actuarial basis using the projected unit method – i.e. an assessment of the future payments that will be made in relation to retirement benefits earned to date by employees, based on assumptions about mortality rates, employee turnover rates, etc, and projections of projected earnings for current employees. The value of the liabilities is heavily dependent on the assumptions underpinning the calculations. Assumptions used in calculating the liabilities are as follows:
 - Liabilities are discounted to their value at current prices, using a discount rate based on the indicative rate of return on a basket of high quality corporate bonds [Iboxx Sterling Corporate AA over 15 years Index]
 - The inflation and pension increase rate is assumed to be equivalent to breakeven inflation
 - Salary growth is assumed to continue in line with real salary increases as reflected in the most recent formal funding valuation
 - The expected return on assets is derived from a proprietary asset model, which has parameters that are calibrated to market conditions on a monthly basis
 - Pensioner mortality is based on the 92-series of mortality tables of the Continuous Mortality Investigation Bureau (CMIB) of experience of life insurance company pensioners, adjusted to tailor them to Local Government Pension Scheme mortality patterns
 - Commutation assumptions are that Local Government Pension Scheme members exchange 30% of their pension for additional cash at retirement, which is based on data gathered since this option became available
 - Other demographic assumptions, e.g. withdrawal assumption, ill-health early retirements, are derived from specific past experience of Local Government Pension Scheme funds.

- The assets of the East Riding Pension Fund attributable to the Council and Group Companies are included in the Balance Sheet at their fair value:
 - quoted securities – current bid price
 - unquoted securities – professional estimate
 - unitised securities – current bid price
 - property – market value
- The change in the net pensions liability is analysed into the following components:
 - Service cost comprising:
 - current service cost – the increase in liabilities as result of years of service earned this year – allocated in the Comprehensive Income and Expenditure Statement to the revenue accounts of services for which the employees worked
 - past service cost – the increase in liabilities as a result of a scheme amendment or curtailment whose effect relates to years of service earned in earlier years – debited to the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement as part of Corporate Costs
 - net interest on the net defined benefit liability (asset), i.e. Net interest expense for the Council – the change during the period in the net defined benefit liability (asset) that arises from the passage of time charged to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement – this is calculated by applying the discount rate used to measure the defined obligation at the beginning of the period to the net defined benefit liability (asset) at the beginning of the period – taking into account any changes in the net defined benefit liability (asset) during the period as a result of contribution and benefit payments
 - Re-measurements comprising:
 - The return on plan assets – excluding amounts included in net interest on the net defined benefit liability (asset) – charged to the Pension Reserve as Other Comprehensive Income and Expenditure
 - actuarial gains and losses – changes in the net pensions liability that arise because events have not coincided with assumptions made at the last actuarial valuation or because the actuaries have updated their assumptions – charged to the Pension Reserve as Other Comprehensive Income and Expenditure
 - Contributions paid to the East Riding Pension Fund – cash paid as employer's contributions to the pension fund in settlement of liabilities; not accounted for as an expense.

In relation to retirement benefits, statutory provisions require the General Fund balance to be charged with the amount payable by the Council to the Pension Fund in the year or directly to pensioners in the year, not the amount calculated according to the relevant accounting standards. In the Movement of Reserves Statement this means that there are transfers to and from the Pensions Reserve to remove the notional debits and credits for retirement benefits and replace them with debits for the cash paid to the pension fund and pensioners and any such amounts payable to the fund but unpaid at the year-end. The negative balance that arises on the Pensions Reserve thereby measures the beneficial impact to the General Fund of being required to account for retirement benefits on the basis of cash flows rather than as benefits are earned by employees.

Pooled Pension Fund

The Council under a pooling arrangement guarantees and in turn underwrites the pension liabilities of Hull Culture and Leisure Limited and Kingstown Works Limited, and a number of smaller entities, in respect of all company's participation in the East Riding of Yorkshire Pension Fund. The Council indemnifies the East Riding of Yorkshire Council and the Administering Authority (East Riding of Yorkshire Council) if the companies are unable to meet such liabilities.

As these formal guarantees are in place the Council has therefore consolidated all pension assets and liabilities into its sole accounting statements and accompanying disclosure notes, as opposed to purely consolidating into the Council's Group Accounts in previous years.

The consolidation of pension assets and liabilities does not change the basis of membership in the scheme for the companies but merely simplifies the presentation and removes any impact on fund balances from the individual company accounts and improves transparency of the trading position of the Companies. Note 25d (Pension Reserve) and Note 43 (Defined Benefit Pension Scheme) refer.

Discretionary Benefits

The Council also has restricted powers to make discretionary awards of retirement benefits in the event of early retirements. Any liabilities estimated to arise as a result of an award to any member of staff (including teachers and NHS staff) are accrued in the year of the decision to make the award and accounted for using the same policies as are applied to the Local Government Pension Scheme.

x. Events after the Balance Sheet Date

Where an event occurs after the Balance Sheet reporting period, both favourable and unfavourable, that occur between the Balance Sheet date and the date when the Statement of Accounts is authorised for issue. Two types of events can be identified:

- Those that provide evidence of conditions that existed at the end of the reporting period – the Statement of Accounts is adjusted to reflect such events.
- Those that are indicative of conditions that arose after the reporting period - the Statement of Accounts is not adjusted to reflect such events, but where such a category of event would have material effect, disclosure is made in the notes of the nature of the events and their estimated financial effect.

Events taking place after the date of authorisation for issue are not reflected in the Statement of Accounts.

xi. Financial Instruments

Financial Liabilities

Financial liabilities are recognised on the Balance Sheet when the Council becomes a party to the contractual provisions of a financial instrument and are initially measured at fair value and are carried at their amortised cost. Annual charges to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement (CIES) for interest payable are based on the carrying amount of the liability, multiplied by the effective rate of interest for the instrument. The effective interest rate is the rate that exactly discounts estimated future cash payments over the life of the instrument to the amount at which it was originally recognised.

For most of the borrowings that the Council has, this means that the amount presented in the Balance Sheet is the outstanding principal repayable (plus accrued interest); and interest charged to the CIES is the amount payable for the year according to the loan agreement.

Where premiums and discounts have been charged to the CIES, regulations allow the impact on the General Fund Balance to be spread over future years. The Council has a policy of spreading the gain or loss over the term that was remaining on the loan against which the premium was payable or discount receivable when it was repaid. The reconciliation of amounts charged to the

CIES to the net charge required against the General Fund Balance is managed by a transfer to or from the Financial Instruments Adjustment Account in the Movement in Reserves Statement.

Financial Assets

Financial assets are classified based on a classification and measurement approach that reflects the business model for holding the financial assets and their cashflow characteristics. There are three main classes of financial assets measured at:

- Amortised cost
- Fair value through profit or loss (FVPL), and
- Fair value through other comprehensive income (FVOCI)

The Council's business model is to hold investments to collect contractual cash flows. Financial assets are therefore classified as amortised cost, except for those whose contractual payments are not solely payment of principal and interest (ie where the cash flows do not take the form of a basic debt instrument).

Financial Assets Measured at Amortised Cost

Financial assets measured at amortised cost are recognised on the Balance Sheet when the Council becomes a party to the contractual provisions of a financial instrument and are initially measured at fair value. They are subsequently measured at their amortised cost. Annual credits to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement (CIES) for interest receivable are based on the carrying amount of the asset multiplied by the effective rate of interest for the instrument. For most of the financial assets held by the Council, this means that the amount presented in the Balance Sheet is the outstanding principal receivable (plus accrued interest) and interest credited to the CIES is the amount receivable for the year in the loan agreement.

If the Council makes a loan to a voluntary organisation at less than market rates, this is known as a soft loan. When soft loans are made, a loss is recorded in the CIES (debited to the appropriate service) for the present value of the interest that will be foregone over the life of the instrument, resulting in a lower amortised cost than the outstanding principal.

Interest is credited to the Financing and Investment Income and Expenditure line in the CIES at a marginally higher effective rate of interest than the rate receivable from the voluntary organisations, with the difference serving to increase the amortised cost of the loan in the Balance Sheet. Statutory provisions require that the impact of soft loans on the General Fund Balance is the interest receivable for the financial year – the reconciliation of amounts debited and credited to the CIES to the net gain required against the General Fund Balance is managed by a transfer to or from the Financial Instruments Adjustment Account in the Movement in Reserves Statement.

Any gains and losses that arise on the derecognition of an asset are credited or debited to the Financing and Investment Income and Expenditure line in the CIES.

Expected Credit Loss Model

The Council recognises expected credit losses on all of its financial assets held at amortised cost, either on a 12-month or lifetime basis. The expected credit loss model also applies to lease receivables and contract assets. Only lifetime losses are recognised for trade receivables (debtors) held by the Council.

Impairment losses are calculated to reflect the expectation that the future cash flows might not take place because the borrower could default on their obligations. Credit risk plays a crucial part in assessing losses. Where risk has increased significantly since an instrument was initially recognised, losses are assessed on a lifetime basis. Where risk has not increased significantly or remains low, losses are assessed on the basis of 12-month expected losses.

Financial Assets Measured at Fair Value through Profit or Loss

Financial assets that are measured at FVPL are recognised on the Balance Sheet when the Council becomes a party to the contractual provisions of a financial instrument and are initially measured and carried at fair value. Fair value gains and losses are recognised as they arrive in the Surplus or Deficit on the Provision of Services.

The fair value measurements of the financial assets are based on the following techniques:

- Instruments with quoted market prices – the market price
- Other instruments with fixed and determinable payments – discounted cash flow analysis.

The inputs to the measurement techniques are categorised in accordance with the following three levels:

- Level 1 inputs – quoted prices (unadjusted) in active markets for identical assets that the Council can access at the measurement date.
- Level 2 inputs – inputs other than quoted prices included within Level 1 that are observable for the asset, either directly or indirectly.
- Level 3 inputs – unobservable inputs for the asset.

Any gains and losses that arise on the derecognition of the asset are credited or debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement.

xii. Government Grants and Contributions

Whether paid on account, by instalments or in arrears, government grants and third party contributions and donations are recognised as due to the Council when there is reasonable assurance that:

- The Council will comply with the conditions attached to the payments, and
- The Grants or contributions will be received.

Amounts recognised as due to the Council are not credited to the Comprehensive Income and Expenditure Statement until conditions attached to the grant have been satisfied. Conditions are stipulations that specify that the future economic benefits or service potential embodied in the asset acquired using the grant or contribution must be consumed by the recipient as specified.

Monies advanced as grants and contributions for which conditions have not been satisfied are carried in the Balance Sheet as receipts in advance. When conditions are satisfied, the grant or contribution is credited to the relevant service line (ie revenue grants and contributions which are attributable to a specific service) or Taxation and Non-Specific Grant Income (non-ring fenced revenue grants and all capital grants which are not attributable to specific services) in the Comprehensive Income and Expenditure Statement.

Where capital grants are credited to the Comprehensive Income and Expenditure Statement, they are reversed out of the General Fund Balance in the Movement in Reserves Statement. Where the grant has yet to be used to finance capital expenditure, it is posted to the Capital Grants Unapplied reserve. Where it has been applied, it is posted to the Capital Adjustment Account. Amounts in the Capital Grants Unapplied reserve are transferred to the Capital Adjustment Account once they have been applied to fund capital expenditure.

xiii. Community Infrastructure Levy

The Council has elected to charge a community infrastructure levy (CIL). The levy will be charged on new builds with appropriate planning consent. The Council charges for and collects the levy, which is a planning charge. The income from the levy will be used to fund infrastructure projects to support development of the area.

The CIL is received without outstanding conditions; it is therefore recognised at the commencement date of the chargeable development in the Comprehensive Income and Expenditure Statement in accordance with the accounting policy for government grants and conditions. CIL charges will be largely used to fund capital expenditure, however, a proportion of the charges may be used to fund revenue expenditure.

xiv. Heritage Assets

The Council's Heritage assets portfolio is comprised of assets held in the Council's museums, galleries and historic buildings and equipment held principally for their contribution to knowledge or culture, including monuments and statues. Heritage assets are assets with historical, artistic, scientific, technological, geographical or environmental qualities that are held and maintained principally for their contribution to knowledge and culture. Heritage assets are recognised and measured (including the treatment of revaluation gains and losses) in accordance with the Council's accounting policies on property, plant and equipment.

However, some of the measurement rules are relaxed in relation to specific heritage assets as described below. The accounting policies in relation to heritage assets which include elements of intangible heritage asset are included in the details below.

- **Museum exhibits**

The collection of museum exhibits includes paintings, vehicles, furniture, silver, and objects relating to the archaeology and history of Hull and the local area. No reliable market value exists for such items. Therefore, the assets are carried at historical cost (less any accumulated depreciation, amortisation and impairment losses). The assets are deemed to have indeterminate lives and a high residual value. Therefore, the Council does not consider it appropriate to charge depreciation.

The collection is relatively static and acquisitions and donations are rare, but the Council continues to collect. Where they do occur, acquisitions are initially recognised at cost and donations are recognised at valuation ascertained by the museum's curators in accordance with the Council's policy on valuation of assets.

- **Art Collection**

The art collection includes paintings reported in the Balance Sheet at historical cost. Items in the collection are not valued by an external valuer. The assets within the art collection are deemed to have indeterminate lives and a high residual value; hence the Council does not consider it appropriate to charge depreciation.

Acquisitions are made by purchase or donation. Acquisitions are initially recognised at cost, and donations are recognised at valuation with valuations provided by the external valuers and with reference to appropriate commercial markets for the paintings using the most relevant and recent information from sales at auctions.

- **Monuments and statues**

Monuments and statues are reported in the Balance Sheet at historical cost. The assets are deemed to have indeterminate lives and a high residual value; hence the Council does not consider it appropriate to charge depreciation.

- **Historic buildings and equipment held principally for their contribution to knowledge and culture**

Historic buildings and equipment are reported in the Balance Sheet at historical cost. Historic buildings are deemed to have determinate lives and low residual values; hence the Council charges depreciation in accordance with the Council's accounting policies on property, plant and equipment.

Heritage Assets – General

The carrying amounts of heritage assets are reviewed where there is evidence of impairment for heritage assets, e.g. where an item has suffered physical deterioration or breakage or where doubts arise as to its authenticity. Any impairment is recognised and measured in accordance with

the Council's general policies on impairment see Accounting Policy note xxii. There is a strong presumption against disposal of heritage assets. Disposal is controlled by the Acquisitions and Disposal Policy, which outlines national museum guidelines, and conforms to national accreditation standards. The sale of objects that have been through the disposal policy process can only be undertaken with approval from the Arts Council, and any revenue generated from such a sale must go back into the care of the museum collections. The proceeds of such items are accounted for in accordance with the Council's general provisions relating to the disposal of property, plant and equipment. Disposal proceeds are disclosed separately in the notes to the financial statements and are accounted for in accordance with statutory accounting requirements relating to capital expenditure and capital receipts (see Accounting Policy notes xxvi and xxii).

xv. *Intangible Assets*

Expenditure on assets that do not have physical substance but are identifiable and controlled by the Council (e.g. software licences) is capitalised when it is expected that future economic benefits will flow from the intangible asset.

The Council does not have any intangible assets that meet the strict criteria for internally generated intangible assets to be recognised.

Intangible assets are measured initially at cost. A de minimis level for recognition has been set at £10,000. Assets are only re-valued where the fair value of the assets can be determined by reference to an active market. In practice, no intangible assets held by the Council meet this criterion and they are therefore carried at amortised cost.

The balance of the intangible asset is amortised over its useful life to the relevant service in the Comprehensive Income and Expenditure Statement. An asset is tested for impairment whenever there is an indication that the asset might be impaired – any losses recognised are posted to the relevant service lines in the Comprehensive Income and Expenditure Statement. Any gain or loss arising on the disposal of an intangible asset is posted to Other Operating Expenditure in the Comprehensive Income and Expenditure Statement. Gains and losses are reversed out of the General Fund Balance in the Movement in Reserves Statement and posted to the Capital Adjustment Account and (for any sale proceeds greater than £10,000) the Capital Receipts Reserve.

xvi. *Interests in Companies and Other Entities*

If the Council has material interests in companies and other entities that have the nature of subsidiaries, associates or joint ventures, it is required to prepare group accounts. The Council has material interests in companies, specifically Kingstown Works Ltd, Hull Culture and Leisure Ltd and Hull District Heating Ltd, and has therefore completed Group Accounts.

In the Council's own single-entity accounts, the interests in companies and other entities are recorded as financial assets, i.e. at cost, less any provision for losses.

xvii. *Inventories and Long Term Contracts*

Inventories are included in the Balance Sheet at the lower of cost and net realisable value.

Long Term contracts are accounted for on the basis of charging the Surplus or Deficit on the Provision of Services with the value of works and services received under the contract during the financial year.

xviii. *Investment Property*

Investment properties are those that are used solely to earn rentals and/or for capital appreciation. The definition is not met if the property is used in any way to facilitate the delivery of services or production of goods or is held for sale.

Investment properties are measured initially at cost and subsequently at fair value, being the price that would be received to sell such an asset in an orderly transaction between market participants at the measurement date. As a non-financial asset, investment properties are measured at highest

and best use. (See xxviii Fair Value Measurement). A de minimis level for recognition has been set at £10,000.

Properties are not depreciated but are re-valued annually according to market conditions at the year end. Gains and losses on revaluation are posted to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement. The same treatment is applied to gains and losses on disposal.

Rentals received in relation to investment properties are credited to the Financing and Investment Income line and result in a gain for the General Fund Balance. However, revaluation and disposal gains and losses are not permitted by statutory arrangements to have an impact on the General Fund Balance. The gains and losses are therefore reversed out of the General Fund Balance in the Movement in Reserves Statement and posted to the Capital Adjustment Account (for any sale proceeds greater than £10,000) and the Capital Receipts Reserve.

xix. Joint Arrangements

Joint Arrangements are arrangements by which two or more parties have joint control bound by contract. The Council does not recognise on its balance sheet any assets or liabilities in regard to joint arrangements. A Joint Arrangement can be classed as

- A Joint Venture
- A Joint Operation

Joint Venture

A Joint Venture is an arrangement under which two or more parties have contractually agreed to share control, such that decisions about the activities of the arrangement are given unanimous consent from all parties.

Joint Operation

A Joint Operation is an arrangement by which the parties that have joint control of the arrangement have the rights to the assets and obligations for the liabilities relating to the arrangement. All parties have joint control with decisions of the activities of the arrangement requiring unanimous consent from all parties.

xx. Leases

With effect from 1 April 2024 IFRS 16 Leases was adopted.

The Council as a Lessee

The Council classifies contracts as leases based on their substance. Contracts and parts of contracts, including those described as contracts for services, are analysed to determine whether they convey the right to control the use of an identified asset for a period of time in exchange for consideration.

Initial Measurement

Leases are recognised as right-of-use assets with a corresponding liability at the date from which the leased asset is available for use (or the IFRS 16 transition date, if later). The leases are typically for fixed periods in excess of one year but may have extension options.

The Council initially recognises lease liabilities measured at the present value of lease payments, discounting by applying the interest rate implicit in the lease, wherever this is not available the PWLB Rate for the term of the lease at the date the lease was adopted and liability added to the balance sheet will be used. Lease payments included in the measurement of the lease liability include:

- fixed payments, including in-substance fixed payments

- variable lease payments that depend on an index or rate, initially measured using the prevailing index or rate as at the adoption date
- amounts expected to be payable under a residual value guarantee
- the exercise price under a purchase option that the Council is reasonably certain to exercise
- lease payments in an optional renewal period if the Council is reasonably certain to exercise an extension period
- penalties for early termination of a lease, unless the Council is reasonably certain not to terminate early.

The right-of-use asset is measured at cost per the Code on initial recognition, adjusted for any prepayments made, plus any direct costs incurred to dismantle and remove the underlying asset or restore the underlying asset on the site on which it is located, less any lease incentives received. The Code expands the scope of IFRS 16 Leases to include arrangements with nil consideration, peppercorn or nominal payments. However, for peppercorn, nominal payments or nil consideration leases, the asset is measured at fair value.

Where a lease covers both land and buildings, the land and buildings elements are considered separately for classification.

Arrangements that do not have the legal status of a lease but convey a right to use an asset in return for payment are accounted for under this policy where fulfilment of the arrangement is dependent on the use of specific assets.

Subsequent Measurement

The right-of-use asset is measured at current value, the Council considers the cost model to be a reasonable proxy except for:

- assets held under non-commercial leases
- leases where rent reviews do not necessarily reflect market conditions
- leases with terms of more than five years that do not have any provision for rent reviews
- leases where rent reviews will be at periods of more than five years.

For these leases, the asset is carried at a revalued amount. In these financial statements, right-of-use assets held under peppercorn or nil consideration leases have been valued using market prices or rentals for equivalent land and properties.

The right-of-use asset is depreciated straight-line over the shorter period of remaining lease term and useful life of the underlying asset as at the date of adoption.

The liability is remeasured when:

- there is a change in future lease payments arising from a change in index or rate
- there is a change in the group's estimate of the amount expected to be payable under a residual value guarantee
- the Council changes its assessment of whether it will exercise a purchase, extension or termination option
- there is a revised in-substance fixed lease payment.

When such a remeasurement occurs, a corresponding adjustment is made to the carrying amount of the right-of-use asset, with any further adjustment required from remeasurement being recorded in the income statement.

Low value and short lease exemption

As permitted by the Code, the Council excludes leases:

- for low-value items that cost less than £10,000 when new, provided they are not highly dependent on or integrated with other items
- with a term shorter than 12 months (comprising the non-cancellable period plus any extension options that the Council is reasonably certain to exercise and any termination options that the Council is reasonably certain not to exercise)

Lease expenditure

Expenditure in the Comprehensive Income and Expenditure Statement includes interest, straight-line depreciation, any asset impairments and changes in variable lease payments not included in the measurement of the liability during the period in which the triggering event occurred. Lease payments are debited against the liability. Rentals for leases of low-value items or shorter than 12 months are expensed.

Depreciation and impairments are not charges against council tax, as the cost of non-current assets is fully provided for under separate arrangements for capital financing. Amounts are therefore appropriated to the Capital Adjustment Account from the General Fund balance in the Movement in Reserves Statement.

The Council acting as a Lessor

Finance Leases:

Where the Council grants a finance lease over a property or an item of plant or equipment, the relevant asset is written out of the Balance Sheet as a disposal. Where the Council acts as a lessor of an asset under a finance lease, a long term debtor is established with the amount receivable equal to the net investment in the lease. The lease payment receivable is treated as a capital receipt for the repayment of principal, reducing the debtor outstanding and the finance income is credited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement, calculated to produce a constant periodic rate of return on the net investment.

Rentals payable are apportioned between:

- a charge for the acquisition of the interest in the property, plant or equipment – applied to write down the lease debtor (together with any premiums received), and
- Finance charge (credited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement).

The gain credited to the Comprehensive Income and Expenditure Statement on disposal is not permitted by statute to increase the General Fund Balance and is required to be treated as a capital receipt. Where a premium has been received, this is posted out of the General Fund Balance to the Capital Receipts Reserve in the Movement in Reserves Statement. Where the amount due in relation to the lease asset is to be settled by the payment of rentals in future years, this is posted out of the General Fund Balance to the Deferred Capital Receipts Reserve in the Movement of Reserves Statement. When future rentals are received, the element for the capital receipt for the disposal of the asset is used to write down the lease debtor. At this point, the deferred capital receipts are transferred to the Capital Receipts Reserve.

The written-off value of disposals is not a charge against council tax, as the cost of non-current assets is fully provided for under separate arrangements for capital financing. Amounts are therefore appropriated to the Capital Adjustment Account from the General Fund Balance in the Movement in Reserves.

Operating Leases

Where the Council grants an operating lease over a property or an item of plant or equipment, the asset is retained in the Balance Sheet. Credits are made on a straight-line basis over the life of the lease. Initial direct costs incurred in negotiating and arranging the lease are added to the carrying amount of the relevant asset and charged as an expense over the lease term on the same basis as rental income.

xxi. Overheads and Support Services

The costs of overheads and support services are charged to service segments in accordance with the Council's arrangements for accountability and financial performance.

xxii. Property, Plant and Equipment

Assets that have physical substance and are held for use in the provision of services or for administrative purposes and are expected to be used during more than one financial year are classified as Property, Plant and Equipment.

Recognition: expenditure on the acquisition, creation or enhancement of non-current assets is capitalised on an accruals basis, provided that it is probable that future economic benefits or service potential associated with the item will flow to the Council and the cost of the item can be measured reliably. Expenditure that secures but does not extend the previously assessed standards of performance of asset (e.g. repairs and maintenance) is charged to revenue as it is incurred.

Measurement: assets are initially measured at cost subject to a de minimis level of £10,000, comprising:

- the purchase price
- any costs attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management
- the initial estimate of the costs of dismantling and removing the item and restoring the site on which it was located

Assets are then carried in the Balance Sheet using the following measurement bases:

- infrastructure assets, community assets and assets under construction – depreciated historical cost
- dwellings – determined using the basis of existing use value for social housing (EUV-SH)
- council offices – current value, determined as the amount that would be paid for the asset in existing use (existing use value – EUV)
- school buildings – current value, but because of their specialist nature, are measured at depreciated replacement cost which is used as an estimate of current value
- surplus assets – the current value measurement base is fair value, estimated at highest and best use from a market participant's perspective (see xxviii Fair Value Measurement)
- all other assets – current value, determined as the amount that would be paid for the asset in existing use (existing use value – EUV)

Where there is no market-based evidence of current value because of the specialist nature of an asset, depreciated replacement cost (DRC) is used as an estimate of current value.

Where there are non-property assets that have short useful lives or low values (or both), depreciated historical cost basis is used as a proxy for current value.

Assets included in the Balance Sheet at current value are re-valued sufficiently regularly to ensure that their carrying amount is not materially different from their current value at the year end, but as a minimum every five years. Increases in valuations are matched by credits to the Revaluation Reserve to recognise unrealised gains. Exceptionally, gains might be credited to the Comprehensive Income and Expenditure Statement where they arise from the reversal of an impairment loss previously charged to a service revenue account.

Where decreases in value are identified, they are accounted for as follows:

- where there is a balance of revaluation gains for the asset in the revaluation reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains)
- where there is no balance in the revaluation reserve or an insufficient balance, the carrying amount of the asset is written down against the relevant service line(s) in the Comprehensive Income and Expenditure Statement

The Revaluation Reserve contains revaluation gains recognised since 1 April 2007 only, the date of its formal implementation. Gains arising before that date have been consolidated into the Capital Adjustment Account.

Impairment: assets are assessed at each year-end as to whether there is any indication that an asset may be impaired. Where indications exist and any possible differences are estimated to be material, the recoverable amount of the asset is estimated and, where this is less than the carrying amount of the asset, an impairment loss is recognised for the shortfall.

Where impairment losses are recognised, they are accounted for by:

- where there is a balance of revaluation gains for the asset in the Revaluation Reserve the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains)
- where there is no balance in the Revaluation Reserve or an insufficient balance, the carrying amount of the asset is written down against the relevant service line(s) in the Comprehensive Income and Expenditure Statement

Where an impairment loss is reversed, the reverse is credited to the relevant service line(s) in the Comprehensive Income and Expenditure Statement up to the amount of the original loss, adjusted for depreciation that would have been charged if the loss had not been recognised.

Depreciation: depreciation is provided for on all Property, Plant and Equipment assets by the systematic allocation of their depreciable amounts over their useful lives. An exception is made for assets without a determinable finite useful life (i.e. freehold land and certain community assets), assets that are not yet available for use (i.e. assets under construction) and assets held for sale.

Depreciation is charged for a full year, based on the final asset balances reflected as at the end of the previous financial year.

Depreciation is calculated on the following basis:

- dwellings and other buildings – straight-line allocation over the useful life of the property as estimated by the valuer
- vehicles, plant, furniture and equipment – a percentage of the value of each class of assets in the Balance Sheet as advised by a suitably qualified officer
- infrastructure – reducing balance over 20 years

Where confirmation is provided at the end of the reporting period (i.e. 31 March 2026) that schools have converted to academy status within the first month in the following year, depreciation is accelerated to account for the shorter economic life of the asset while under control of the Local Authority.

Component Accounting: material assets are recognised as a series of components for depreciation purposes when the component is of significant cost compared to the total cost of the item and has a materially different useful life to the main asset. The number of components is limited to five components per property. Enhancement expenditure requires the component to be de-recognised where replaced or refurbished, and the new component reflected in the carrying amount, even where parts of an asset have not previously been recognised as a separate component. Non-current assets (excluding Council housing stock) with a property value of £5 million or more is considered to be material.

Council housing stock is grouped together into beacons. A beacon is a collection of properties of the same type i.e. flat, bungalow, two bedroom house, etc. Component accounting will apply to each beacon in full.

Gains are also depreciated, with an amount equal to the difference between current value depreciation charged on assets and the depreciation that would have been chargeable based on their historical cost being transferred each year from the Revaluation Reserve to the Capital Adjustment Account.

Disposals and Non-current Assets Held for Sale: when it becomes probable that the carrying amount of an asset will be recovered principally through a sale transaction rather than through its continuing use, it is reclassified as an Asset Held for Sale. The asset is re-valued immediately before reclassification and then carried at the lower of this amount and fair value less costs to sell. Where there is a subsequent decrease to fair value less costs to sell, the loss is posted to Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement. Gains in fair value are recognised only up to the amount of any losses previously recognised in the Surplus or Deficit on provision of services. Depreciation is not charged on Assets Held for Sale.

If assets no longer meet the requirements to be classified as Assets Held for Sale, they are reclassified back to non-current assets and valued at lower of their carrying amount before they were classified as held for sale (adjusted for depreciation, amortisation or revaluations that would have been recognised had they not been classified as held for sale) and their recoverable amount at the date of the decision not to sell.

Assets that are to be abandoned or scrapped are not reclassified as Assets Held for Sale.

When an asset is disposed of or decommissioned, the value of the asset in the Balance Sheet (whether property, plant and equipment or Assets Held for Sale) is written off to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal. Receipts from disposals (if any) are credited to the Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal (i.e. netted off against the carrying value of the asset at the time of disposal). Any revaluation gains in the Revaluation Reserve are transferred to the Capital Adjustment Account.

Amounts in excess of £10,000 are categorised as capital receipts. A proportion of receipts relating to housing disposals are payable to the Government. The balance of receipts is required to be credited to the Usable Capital Receipts Reserve and can then only be used for new capital investment or set aside to reduce the Council's underlying need to borrow (the capital financing requirement). Receipts are appropriated to the General Fund Reserve in the Movement in Reserves Statement.

The written-off value of disposals is not a charge against council tax, as the cost of non-current assets is fully provided for under separate arrangements for capital financing. Amounts are appropriated to the Capital Adjustment Account from the General Fund in the Movement of Reserves Statement.

xxiii. Private Finance Initiatives

Private Finance Initiative (PFI) arrangements are accounted for in accordance with International Financial Reporting Interpretations Committee 12 (IFRIC 12) Service Concession Arrangements. This involves a private sector entity (the operator) constructing or enhancing infrastructure used in the provision of a public service and operating and maintaining that infrastructure for a specified period of time.

The Council's PFI schemes have been accounted for in accordance with IFRIC 12, with the property, plant and equipment constructed and enhanced as part of the arrangement recognised on the Council's Balance Sheet because the contractual service arrangement conveys the right to control the use of the infrastructure. The property, plant and equipment recognised under this arrangement are accounted for under the accounting policies applied to all other property, plant and equipment of that type.

A corresponding liability (equal to the initial fair value of assets created/enhanced under the arrangement) is recognised for the requirement to pay the PFI limited companies for the construction work they undertook. The unitary payments made to the contractors are analysed into four elements:

into four elements:

- fair value of the services received during the year – debited to the relevant service in the Comprehensive Income and Expenditure Statement
- finance cost – an interest charge of an agreed percentage on the outstanding Balance Sheet liability, debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement
- payment towards liability – applied to write down the Balance Sheet liability towards the PFI operator (the profile of write-downs is calculated using the same principles as for a finance lease)
- lifecycle replacement costs – proportion of the amounts payable is posted to the Balance Sheet as a prepayment and then recognised as additions to Property, Plant and Equipment when the relevant works are eventually carried out

PFI contracts are considered with the new requirements implemented from IFRS 16 Leases. Where unitary charge payments are subject to indexation, the carrying value of the liability is re-measured in accordance with IFRS 16. No contingent rentals occur within this scheme following these changes.

Where PFI schools are transferred to academy status during the year, the school building is disposed of as at 31 March with the corresponding liability remaining on balance sheet.

xxiv. Provisions, Contingent Liabilities and Contingent Assets

Provisions are made where an event has taken place that gives the Council an obligation that probably requires settlement by a transfer of economic benefits, but where the timing of the transfer is uncertain. For instance, the Council may be involved in a court case that could eventually result in the making of a settlement or the payment of compensation.

Provisions are charged to the appropriate service line in the Comprehensive Income and Expenditure Statement in the year that the Council becomes aware of the obligation, based on the best estimate of the likely settlement. When payments are eventually made, they are charged to the provision set up in the Balance Sheet. Estimated settlements are reviewed at the end of each financial year – where it becomes more likely than not that a transfer of economic benefits will not now be required (or a lower settlement than anticipated is made), the provision is reversed and credited back to the relevant service revenue account.

Where some or all of the payment required to settle a provision is expected to be met by another party (e.g. from an insurance claim), this is only recognised as income in the relevant service revenue account if it is virtually certain that reimbursement will be received if the obligation is settled.

Contingent Liabilities

A contingent liability arises where an event has taken place that gives the Council a possible obligation, the existence of which will only be confirmed by the occurrence of uncertain future events not wholly within the control of the Council. Contingent liabilities also arise in circumstances

where a provision would otherwise be made but it is not probable that an outflow of resources will be required or the amount of the obligation cannot be measured reliably.

Contingent liabilities are not recognised in the Balance Sheet but disclosed in a note to the accounts.

Contingent Assets

A contingent asset arises where an event has taken place that gives the Council a possible asset, the existence of which will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the Council.

Contingent assets are not recognised in the Balance Sheet but disclosed in a note to the accounts where it is probable that there will be an inflow of economic benefits or service potential.

xxv. Reserves

The Council sets aside specific amounts as earmarked reserves for future policy purposes or to cover contingencies. Reserves are created by appropriating amounts out of the General Fund Balance in the Movement in Reserves Statement. When expenditure to be financed from a reserve is incurred, it is charged to the appropriate service in that year to score against the Surplus or Deficit on the Provision of Services, in the Comprehensive Income and Expenditure Statement. The reserve is then appropriated back into the General Fund Balance in the Movement in Reserves Statement so that there is no net charge against council tax for the expenditure.

Certain reserves are kept to manage the accounting processes for non-current assets, financial instruments, and retirement and employee benefits and do not represent usable resources for the Council – these reserves are explained in the relevant policies.

xxvi. Revenue Expenditure Funded from Capital under Statute

Expenditure incurred during the year that may be capitalised under statutory provisions but does not result in the creation of non-current assets has been charged as expenditure to the relevant service in the Comprehensive Income and Expenditure Statement in the year. Where the Council has determined to meet the cost of this expenditure from existing capital resources or by borrowing, a transfer to the Capital Adjustment Account then reverses out the amounts charged to the General Fund Balance in the Movement in Reserves Statement so there is no impact on the level of Council Tax.

xxvii. VAT

Income and expenditure excludes any amounts related to Value Added Tax (VAT), as all VAT collected is payable to HM Revenue & Customs and all VAT paid is recoverable from it.

xxviii. Fair Value Measurement

The Council has categories of assets and liabilities which are measured at fair value at the end of each reporting period. These include non-financial assets such as surplus assets, investment properties and assets held for sale plus some financial assets and liabilities.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When measuring the fair value of a non-financial asset, the Council takes into account a market participant's ability to generate economic benefits by using the assets in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

Fair value measurements are categorised in their entirety based on the lowest level input that is significant to the entire measurement. The level into which a fair value measurement is categorised in its entirety is determined with reference to a hierarchy that reflects the significance of the observable market inputs in calculating those fair values. The three levels of the fair value are:

- Level 1 – Valuation using quoted market prices

Assets and liabilities are classified as Level 1 if their value is observable in an active market. Such instruments are valued by reference to unadjusted quoted prices for identical assets or liabilities in active markets where the quoted price is readily available, and the price reflects actual and regularly occurring market transactions on an arm's length basis. An active market is one in which transactions occur with sufficient volume and frequency to provide pricing information on an ongoing basis.

- Level 2 – Valuation technique using observable inputs

Assets and liabilities classified as Level 2 are valued using inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (ie. as prices) or indirectly (ie. derived from prices).

- Level 3 – Valuation technique using significant unobservable inputs

Assets and liabilities are classified as Level 3 if their valuation incorporates significant inputs that are not based on observable market data (unobservable inputs). A valuation input is considered observable if it can be directly observed from transactions in an active market, or if there is compelling external evidence demonstrating an executable exit price. An input is significant if it is shown to contribute more than 10% to the valuation of an asset or liability. Unobservable input levels are generally determined based on observable inputs of a similar nature, historical observations or other analytical techniques.

xxix. Borrowing Costs

The Council shall account for borrowing costs in accordance with IAS 23 which requires borrowing costs in respect of qualifying assets to be capitalised. Borrowing costs are interest and other costs that the Council incurs in connection with the borrowing of funds. A qualifying asset is an asset that necessarily takes a substantial period of time to get ready for its intended use or sale. Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset form part of the cost of that asset.

The Council will begin capitalising borrowing costs as part of the cost of a qualifying asset on the commencement date. The commencement date for capitalisation is the date when the Council first meets all of the following conditions:

- It incurs expenditures for the asset
- It incurs borrowing costs, and
- It undertakes activities that are necessary to prepare the asset for its intended use or sale

The Council will cease capitalising borrowing costs when substantially all the activities necessary to prepare the qualifying asset for its intended use or sale are complete.

xxx. Schools

The Code confirms that the balances of control for local authority maintained schools (i.e. those categories of school identified in the School Standards and Framework Act 1998, as amended) lies with the local authority. The Code also stipulates that those schools' assets, liabilities, reserves and cash flows are recognised in the local authority financial statements. Therefore, schools' transactions, cash flows and balances are recognised in each of the financial statements of the Council as if they were the transactions, cash flows and balances of the Council.

xxxi. Transition to Workday – Replacement of Council's ERP System

The Council is transferring over to a new ERP System from 1st April 2026. The 2025/26 financial statements will be finalised in the current Oracle ERP System. All control accounts including Accounts Receivable, Accounts Payable and Bank Holding Accounts will be reconciled within 2025/26 and therefore no unreconciled balances will be brought forward into Workday. Key controls over the cut off regarding 2025/26 transactions and transition to Workday for 2026/27 will be in place to ensure they are accounted for in the correct year.

2. Accounting Standards issued but not yet adopted

The Code of Practice on Local Authority Accounting in the United Kingdom (the Code) requires the disclosure of information relating to the expected impact of an accounting change that will be required by a new standard which has been issued but is yet to be adopted by the 2025/26 Code.

The Code also requires that changes in accounting policy are to be applied retrospectively unless transitional arrangements are specified, this would result in an impact on disclosures spanning two financial years.

Accounting changes that are introduced by the 2026/27 code are:

- Amendments to FRS 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland (Amendments to Heritage assets) issued in March 2024
- Amendments to the Classification and Measurement of Financial Instruments (Amendments to IFRS 9 and IFRS 7) issued in May 2024
- Annual improvements to IFRS accounting standards – Volume 11 issued in July 2024
- Contracts Referencing Nature-dependent Electricity (Amendments to IFRS 9 and IFRS 7) issued in December 2024

The changes are not expected to have a material impact on the Council's single entity statements or group statements.

3. Critical Judgements in applying Accounting Policies

New contracts and property arrangements are reviewed each year to assess IFRS 16 implications. Details are given in the respective notes to the accounts.

The Council completed an exercise to establish whether the production of Group Accounts is required. (See Accounting Policy xvi – Interest in Companies and Other Entities and Note 36 – Related Parties). Balances and transactions for companies controlled or influenced by the Council were assessed and judged to be material therefore Group Accounts have been completed. Group Accounts include Hull City Council, Hull Culture and Leisure Limited, Kingstown Works Limited and Hull District Heating Limited.

There is a requirement for the Council to exercise judgement about which school types should be included in the balance sheet, given there are different degrees of autonomy with the school types. By virtue of legal ownership or the control exerted over school governing bodies, the Council recognises on its balance sheet at current value, interests in all schools where ownership is vested either in the Council or a school governing body. There is 1 maintained school held on the balance sheet as at 31st March 2026.

4. Assumptions made about the future and other major sources of estimation uncertainty

The statement of Accounts contains estimated figures that are based on assumptions made by the Authority about the future or that are otherwise uncertain. The main areas where this has arisen are in the valuation of intangible and tangible non-current assets; including estimated economic lives, component accounting and depreciation (notes 14, 15, 16, 17 and 39), debtors (note 20), creditors (note 22) and provisions (note 23).

Estimates are made taking into account historical experience, current trends and other relevant factors. However, because balances cannot be determined with certainty, actual results could be materially different from the assumptions and estimates.

In preparing these financial statements, significant judgements and estimates have been used.

The items in the Council's Balance Sheet at 31 March 2026 for which there is a significant risk of material adjustment in the forthcoming financial year are as follows:

Item	Uncertainties	Effect if actual results differ from assumptions
Property, Plant and Equipment	Assets are depreciated over useful lives that are dependent on assumptions about the level of repairs and maintenance that will be incurred in relation to individual assets. The current economic climate makes it uncertain that the Authority will be able to sustain its current spending on repairs and maintenance, bringing into doubt the useful lives assigned to assets.	If the useful life of assets is reduced, depreciation increases and the carrying amount of the assets falls. It is estimated that the annual depreciation charge for buildings (excluding Council dwellings) would increase by £0.908m for every year that useful lives had to be reduced. The gross carrying amount for PPE as at 31 March 2026 is £1.839m
Property, Plant and Equipment (with the exception of Infrastructure, Community Assets, Assets under Construction and small value items of Vehicles land and equipment)	The Council carries out a rolling programme that ensures that all Property, Plant and Equipment required to be measured at current value is revalued at least every five years. Assets are tested annually for indicators of impairment. Judgements are required to make an assessment as to whether there is an indication of impairment. Advice has been provided by our in-house valuers.	If the actual results differ from the assumptions the value of PPE will be over or under stated. This would be adjusted when the assets were next valued. Should all assets be revalued, a 1% change in asset valuation (not including infrastructure) would equate to £18.4m change in gross carrying Value.
Pension Liability	Estimation of the net liability to pay pensions depends on a number of complex judgements relating to the discount rate used, the rate at which salaries are projected to increase, changes in retirement ages, mortality rates and expected returns on pension fund assets. A firm of consulting actuaries is engaged to provide the Council with expert advice about the assumptions to be applied.	The effects on the net pension's liability of changes in individual assumptions can be measured. For instance, a 0.1% decrease in the discount rate assumption would result in an increase in the pension liability of £21m. Further sensitive changes are reported in Note 43 Defined Benefit Pension Schemes under 'Basis for Estimating Assets and Liabilities'. The pension Liability as at 31st March 2026 is £33.2m

5. **Exceptional and Material Items of Income and Expense**

No items of income and expense considered exceptional and material were included in the Comprehensive Income and Expenditure Statement.

6. **Events after the Balance Sheet Date**

The Statement of Accounts was authorised for issue by the Executive Director of Corporate Resources (Section 151 Officer) on 15 July 2026. Events taking place after this date are not reflected in the financial statements or notes. Where events taking place before this date provided information about conditions existing at 31 March 2026, the figures in the financial statements and notes have been adjusted in all material respects to reflect the impact of this information. The Council has not identified any post Balance Sheet events as at 15 July 2026.

Other differences

- Net Cost of Services – this includes adjustments made to and from Reserves plus accrued compensated absences earned but not taken in the year.
- Other Income and Expenditure – this includes adjustments made to and from Reserves plus other adjustments to Revenue such as Council Tax and PFI interest costs.

A. Note to the Expenditure and Funding Analysis**Adjustments between Funding and Accounting Basis 2025/26**

Adjustments from General Fund to arrive at the Comprehensive Income and Expenditure Statement amounts	Adjustments for Capital Purposes	Net Change for the Pensions Adjustments	Other Differences	Total Adjustments
	£'000	£'000	£'000	£'000
Public Health and Adults	(3,440)	(250)	-	(3,690)
Regeneration	74,588	(811)	(1,768)	72,009
Housing and Communities	5,051	(269)	-	4,782

8. Expenditure and Income Analysed by Nature

The Council's expenditure and income is analysed as follows:

2024/25 Restated £'000	Expenditure / Income	2025/26 £'000
	Expenditure	
227,054	Employee benefits expenses	251,435
598,386	Other services expenses	612,285
131,875	Depreciation, amortisation, impairment	150,877
33,644	Interest payments	36,053
474	Precepts and levies	496
-	Payments to Housing Capital Receipts Pool	-
(2,665)	(Gain) / loss on the disposal of assets	18,364
988,768	Total Expenditure	1,069,510
	Income	
(279,020)	Fees, charges and other service income	(281,961)
(3,824)	Interest and investment income	(5,705)
(186,300)	Income from council tax, non-domestic rates, district rate income	(196,402)
(417,870)	Grants and contributions	(435,394)
(887,014)	Total Income	(919,462)
101,754	Surplus or Deficit on the Provision of Services	150,048

Segmental Income

Fees, charges and other service income analysed by service area:

2024/25 £'000		2025/26 £'000
(116,910)	Public Health and Adults	(117,221)
(22,241)	Regeneration	(24,557)
(4,239)	Housing and Communities	(4,171)
(11,896)	Corporate Resources	(13,367)
(2,898)	Children's Services	(2,805)
(8,168)	School Services	(282)
(111,540)	Local Authority Housing	(114,288)
(1,128)	Corporate Costs	(5,270)
(279,020)		(281,961)

9. Adjustments between Accounting Basis and Funding Basis under Regulations

This note details the adjustments that are made to the total comprehensive income and expenditure recognised by the Council in the year in accordance with proper accounting practice to the resources that are specified by statutory and voluntary provisions as being available to the Council to meet future capital and revenue expenditure.

2025/26

	General Fund Balance	Earmarked GF Reserves	Usable Reserves				Capital Receipts Reserve	Capital Grant Unapplied Reserve	Movement in Unusable Reserves
			Earmarked HRA Reserves	Housing Revenue Account	Major Repairs Reserve

Business Rates Reserve

This reserve is primarily held to support the smoothing out of potential variations in Business Rate income and appeals.

Insurance Reserve

This reserve contains an estimate of anticipated insurance claims which the Council may have to meet. Some risks are 'self-insured' whilst others are covered through the payment of premiums to external insurance companies with the Council having to meet any excess. The Council also holds an insurance provision which covers claims received for which there is some certainty that they will be paid.

Litigation Reserve

This reserve has been established to meet potential claims arising from litigation against the Council.

Flood Reserve

This reserve is to offset costs of future flooding events.

Miscellaneous Reserves

These minor reserves exist to meet various expected costs.

Capital Financing Reserves

These reserves will be required in future years to finance the Council's planned capital investment strategy.

Schools' Financial Reserves

The Authority's Scheme for Financing Schools, which is based on the legislative provisions of the School Standards and Framework Act 1998, provides for any balances or deficits on schools' budgets to be carried forward from one financial year to the next.

Dedicated Schools Grant Reserve

This reserve holds any in-year surpluses on the Dedicated Schools Grant. The cumulative deficit on the Dedicated Schools grant is held separately in the Dedicated Schools Grant Adjustment Account (an unusable reserve) in accordance with legislation. See further details in Note 25(g) Unusable Reserves.

Carry Forwards to support Future Budgets

The carry forwards of underspends from 2025/26 to the new financial year are to meet anticipated expenditure commitments.

The Council adopted IFRS16 from 1st April 2024. Opening balance adjustments have been made for leases requiring the recognition of a Right-of-Use Asset and equivalent liability. The Council has recognised changes to the accounts as at the date of application therefore comparative information has not retrospectively been restated.

Infrastructure Assets

In accordance with the temporary relief offered by the update to the Code on infrastructure assets [Local Government Circular 09/2022] this note does not include disclosure of gross cost and accumulated depreciation for infrastructure assets because historical reporting practices and resultant information deficits mean that this would not faithfully represent the asset position to the users of the financial statements

The Council has chosen not to disclose this information as the previously reported practices and resultant information deficits mean that gross cost and accumulated depreciation are not measured accurately and would not provide the basis for the users of the financial statements to take economic or other decisions relating to infrastructure assets.

<u>2024/25</u> £'000		<u>2025/26</u> £'000
	Net book value (modified historical cost)

(9,608)	Depreciation	(9,864)
-	Impairment	(228)
-	Other movements in cost	-
190,122	Net book value at 31 March	202,782

<u>2024/25</u> £'000		<u>2025/26</u> £'000
190,122	Infrastructure assets	202,782
1,648,657	Other PPE assets	1,636,648
1,838,779	Total PPE assets	1,839,430

The Council has determined in accordance with Regulation (30M England) of the Local Authorities (Capital Finance and Accounting) (England) (Amendment) Regulations 2022 that the carrying amounts to be derecognised for infrastructure assets when there is replacement expenditure is nil.

Surplus Assets

The Council's surplus assets are valued at fair value. When measuring fair value of a non-financial asset, the council takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

Surplus assets have been valued based on Level 2 observable market inputs. Specifically, this includes the latest sale prices of the nearest equivalent or similar sites, adjusted for factors such as location, size, and site specific characteristics,

Assets categorised as 'Surplus Assets' are measured annually at each reporting date. All valuations are carried out internally, in accordance with the methodologies and bases for estimation set out in the professional standards of the Royal Institution of Chartered Surveyors. The Council's valuation experts work closely with finance officers reporting directly to the Head of Accountancy on a regular basis regarding all valuation issues.

Depreciation

Economic useful lives of property, plant and equipment are regularly reviewed and, where appropriate, revised to reflect changing circumstances and changing economic conditions.

The following useful lives have been used in the calculation of depreciation:

- Council Dwellings – 5-40 years
- Other Land and Buildings – 2-120 years (general buildings up to 60 years, building substructures up to 120 years)
- Vehicles, Plant, Furniture & Equipment – 2-50 years (vehicles up to 10 years and a small number of equipment assets from 3-50 years)
- Infrastructure – 20 years

Depreciation is charged for a full year, based on the final asset balances reflected as at the end of the previous financial year.

Capital Commitments

At 31 March 2026, the Council has plans in place for a number of capital schemes relating to the construction or enhancement of Property, Plant and Equipment budgeted to cost £699m over the next three years. A first formal review of the 3 year programme, in light of 2025/26 Outturn, is due to be considered by the Council's Cabinet Committee in July 2026. Similar commitments at 31 March 2025 were £878m over the next four years. The Council has entered into contracts for the construction or enhancement of property, plant and equipment in 2026-27 and future years. The major commitments at 31 March 2026 are as follows:

2024/25		2025/26
£'000		£'000
	Capital Scheme	
2,461	Roads and Infrastructure	13,416
-	Carbon Reduction	26,874
4,075	Efficiency and Value for Money	6,923
51,435	Improving Local Areas	42,365
57,971	Total Commitments	89,578

Revaluations

The Council carries out a rolling programme that ensures that all Property, Plant and Equipment required to be measured at current value is revalued at least every five years. Valuations of land and buildings were carried out by our in-house property team in accordance with the methodologies and bases for estimation set out in the professional standards of the Royal Institution of Chartered Surveyors. The effective date for revaluations is the last day of the financial year.

Trust, Voluntary Aided, Voluntary Controlled and Academy Schools

Trust Schools

The local authority funds and manages the Trust School admissions policy and forms part of the Council's capital spending plan. Therefore, non-current assets (land and buildings) have been recognised in the Council's balance sheet for 2025/26.

Voluntary Aided Schools

Voluntary aided schools are endowed by a trust, often religious in character. The Schools Standards Framework Act determines that the trustees own the school buildings and the governing bodies are responsible for the provision of premises and all capital work to school buildings. However, the Council is statutorily responsible for the land. Consequently, values for the buildings have not been recognised in the Council's balance sheet, but values for the playing fields have been included as non-current assets.

Voluntary Controlled

Voluntary controlled schools are owned by a charity, but the local authority runs the schools and employs the staff. The Council is normally the freeholder of the non-current assets and accordingly the school premises have been recognised as property, plant and equipment in the balance sheet.

Academies

The number of academies remained at ninety three as at 31 March 2026. However, there were a number of movements – one school transferred to academy status, one school was taken over by an existing academy and two existing academies merged to form one new academy. The schools are owned and managed completely independently of the local authority and therefore the non-current assets have been excluded from this balance sheet. Schools transferring to academy status are disposed of at the end of the financial year and charged a full year's depreciation.

All heritage assets shown in the above table are tangible assets. There are no intangible assets.

Historical Buildings

The only historical building identified as meeting the required definitions of a Heritage Asset is the Wilberforce House Museum, as it is principally held for the purposes of knowledge and culture.

Historical Vessels

The Council has two historical vessels; Spurn Lightship and the Arctic Corsair. These are valued at current value within the asset portfolio.

Statues and Monuments

The Council has a number of statues and monuments located across the city. These assets are held at historic cost.

City Hall Organ

Given the value and nature of this asset, its individual disclosure in the above note was deemed to be appropriate. This asset is valued at historical cost.

Art Collections

The art collections are summarised as those held within the Council's corporate buildings and are held at historical cost.

Civic Regalia

The collection incorporates items of silver and insignia relating to the corporate and local history of Hull, and is valued at historic cost.

See note 47 for further details on heritage assets.

16. Investment Properties

The following items of income and expense have been accounted for in the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement.

2024/25		2025/26
£'000		£'000
(4,700)	Rental income from investment property	(4,683)
3,074	Operating expenses arising from investment property	1,597
(1,626)	Net (gain) / loss	(3,086)

There are no restrictions on the Council's ability to realise the value inherent in its investment property or on the Council's right to remittance of income and the proceeds of disposal. The Council has an obligation to repair and maintain properties in its investment portfolio.

The following table summarises the movement in the fair value of investment properties over the year:

2024/25		2025/26
£'000		£'000
63,284	Balance at start of year	56,966
	Additions:	
-	Acquisitions	-
-	Enhancements	201
(286)	Disposals	(83)
(2,357)	Net gains/losses from fair value adjustments	(2,980)
	Transfers:	
-	to/from Assets held for Sale	-
(3,675)	to/from Property, Plant and Equipment	-
-	Other Changes	-
56,966	Balance at end of year	54,104

The closing Balance of Right of Use Assets as at 31 March 2026 is £6.298m. (2024/25 £6.596m).

Fair Value Hierarchy

Details of the Council's investment properties and information about the fair value hierarchy as at 31 March are as follows:

2025/26	Quoted prices in active markets for identical assets (Level 1)	Other significant observable inputs (Level 2)	Significant unobservable inputs (Level 3)	Fair value as at 31 March 2026
	£'000	£'000	£'000	£'000
<i>Recurring fair value measurements using:</i>				
Agriculture	-	1,643	-	1,643
Commercial	-	22,956	-	22,956
Industrial	-	19,651	-	19,651
Offices	-	4,908	-	4,908
Other	-	4,946	-	4,946
Total	-	54,104	-	54,104

2024/25	Quoted prices in active markets for identical assets (Level 1)	Other significant observable inputs (Level 2)	Significant unobservable inputs (Level 3)	Fair value as at 31 March 2025
	£'000	£'000	£'000	£'000
<i>Recurring fair value measurements using:</i>				
Agriculture	-	2,292	-	2,292
Commercial	-	25,745	-	25,745
Industrial	-	19,189	-	19,189
Offices	-	4,923	-	4,923
Other	-	4,817	-	4,817
Total	-	56,966	-	56,966

Transfers between Levels of the Fair Value Hierarchy

There were no transfers between Levels during the year.

Valuation Techniques used to determine Level 2 Fair Values for Investment Properties**Significant Observable Inputs – Level 2**

Investment properties' fair value is calculated using the term & reversion approach. The term income reflects the current rent passing under the existing lease agreements. The reversionary income represents the market rent (the full rental value) derived from observable market transactions as at the date of valuation as defined in the RICS Valuation Professional Standards January 2014 (VOPS 4.1.3.1).

Highest and Best Use of Investment Properties

In estimating the fair value of the Council's investment properties, the highest and best use of the properties is the current use.

Valuation Techniques

There has been no change in the valuation techniques used during the year for investment properties.

Valuation Process for Investment Properties

The fair value of the Council's investment property is measured annually at each reporting date. All valuations are carried out internally, in accordance with the methodologies and bases for estimation set out in the professional standards of the Royal Institution of Chartered Surveyors. The Council's valuation experts work closely with finance officers reporting directly to the Assistant City Treasurer (Corporate Finance) on a regular basis regarding all valuation matters.

17. Intangible Assets

The Council accounts for its software as intangible assets, to the extent that the software is not an integral part of a particular IT system and accounted for as part of the hardware item of Property, Plant and Equipment. The intangible assets relate to purchased software licences.

All software is given a finite useful life, based on assessments of the period that the software is expected to be of use to the Council. The useful life assigned to the major software suite, Oracle IT software licence is 5 years.

The carrying amount of intangible assets is amortised on a straight line basis. The majority of amortisation of £3m charged to revenue in 2025/26 was charged to the IT administration cost centre and then absorbed as an overhead across all the service headings in the Net Expenditure of Services.

The movement of Intangible Asset balances during the year is as follows:

2024/25		2025/26
£'000		£'000
	Balance at start of year:	
29,654	Gross carrying amounts	31,915
(20,171)	Accumulated amortisation	(23,474)
<u>9,483</u>	Net carrying amount at start of year	<u>8,441</u>
	Additions:	
3,045	Purchases	3,600
(3,303)	Amortisation for the period	(3,439)
(784)	Other changes	(339)
<u>8,441</u>	Net carrying amount at end of year	<u>8,263</u>
	Comprising:	
31,915	Gross carrying amounts	35,176
(23,474)	Accumulated amortisation	(26,913)
<u>8,441</u>		<u>8,263</u>

No individual capitalised items of software are individually material to the financial statements.

18. Financial Instruments**Categories of Financial Instruments**

The following categories of financial instruments are carried in the Balance Sheet at Amortised Cost:

	Long-term		Current	
	31 March	31 March	31 March	31 March
	2026	2025	2026	2025
	£'000	£'000	£'000	£'000
Investments				
Investments (principal amount)	60	10	-	-
Investments (accrued interest)	-	-	-	-
Cash and cash equivalents (principal amount)	-	-	30,083	17,726
Cash and cash equivalents (accrued interest)	-	-	44	109
Total Investments	60	10	30,127	17,835
Debtors				
Loans and receivables	17,355	10,870	62,335	56,164
Other Short Term Assets	-	-	567	567
Total Debtors	17,355	10,870	62,902	56,731
Borrowings				
Financial liabilities (principal amount)	676,193	583,785	247,836	190,907
Financial liabilities (accrued interest)	-	-	8,703	5,007
Financial liabilities at amortised cost	676,193	583,785	256,539	195,914
Financial liabilities at fair value through profit and loss	-	-	-	-
Total Borrowings	676,193	583,785	256,539	195,914
Creditors				
Financial liabilities at amortised costs	1,302	1,416	65,779	67,742
Total Creditors	1,302	1,416	65,779	67,742

Loans and receivables and creditor elements only include contracted debt/liabilities and therefore exclude statutory debt/liabilities such as Council Tax / NNDR.

Reclassifications

There has been no reclassification of financial assets during 2025/26.

Soft Loans

The Council holds no material soft loans as at 31 March 2026 or 31 March 2025.

Employee Car Loans

The total of Employee Car Loans held at 31 March 2026 was £0.024m, this had reduced from £0.038m at 31 March 2025.

Income, Expense, Gains and Losses

The gains and losses recognised in the Comprehensive Income and Expenditure Statement in relation to financial instruments are made up as follows:

This note shows the effect of reclassification of financial assets and liabilities following the adoption of IFRS 9 Financial Instruments by the Code of Practice on Local Authority Accounting.

	2025/26		2024/25	
	Surplus or Deficit on the Provision of Services £'000	Other Comprehensive Income and Expenditure £'000	Surplus or Deficit on the Provision of Services £'000	Other Comprehensive Income and Expenditure £'000
Interest Revenue				
Financial assets measured at amortised cost	5,705	-	3,421	-
Total Interest Revenue	5,705	-	3,421	-
Fee Expense				
Financial assets or liabilities that are not at fair value through profit and loss	(501)	-	(426)	-
Trust and other fiduciary activities	-	-	-	-
Total Fee Expense	(501)	-	(426)	-
Interest Expense	(35,552)	-	(33,218)	-

Fair Values of Assets and Liabilities

Financial liabilities, financial assets represented by loans and receivables and long-term debtors and creditors are carried in the Balance Sheet at amortised cost. When measuring the fair value of a financial instrument, the council takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use. Disclosure of fair value is not required where the carrying amount is thought to be a reasonable approximation of fair value, such as when the interest rate remains the same for the life of the instrument. This applies to all of the Council's other financial instruments.

The Council's Treasury Management Advisors, MUFG Corporate Markets, provide the required fair value calculations of the Council's financial assets and liabilities.

Valuation Techniques – Methodology and Assumptions

The 2025/26 Code of Practice sets out the fair value valuation hierarchy that authorities are required to follow to increase consistency and comparability in fair value measurements and related disclosures.

The valuation basis adopted uses Level 2 Inputs – ie. inputs other than quoted prices that are observable for the financial asset/liability.

Except for financial assets and financial liabilities carried in the Balance Sheet at fair value, all other financial assets and financial liabilities are carried in the Balance Sheet at amortised cost. Fair value can be assessed by calculating the net present value of cash flows that are expected to take place over the remaining life of the instruments. This is a widely accepted valuation technique commonly used in the private sector.

MUFG Corporate Markets have applied the following valuation bases:

Valuation of fixed term deposits (long term only)

Valuation is made by comparison of the fixed term investment with a comparable investment with the same/similar lender for the remaining period of the deposit.

Valuation of loans receivable

For loans receivable prevailing benchmark market rates have been used to provide fair value.

Valuation of PWLB Loans

For loans from the PWLB, MUFG Corporate Markets have provided fair value estimates using the new market loan discount rates.

Valuation of non-PWLB Loans

For non-PWLB loans, MUFG Corporate Markets have provided fair values using borrowing rates. In the absence of a substantial active market for new long term market loans, the rates used for new borrowing are based on discussions with possible market participants for new lending. These rates provide a reasonable proxy for rates that market participants appear to have used for early redemption costs for market loans. For loans from a local authority to another local authority, an appropriate margin above the applicable gilt has been applied based on market evidence on the 31 March.

Inclusion of accrued interest

The purpose of the fair value disclosure is primarily to provide a comparison with the carrying value in the Balance Sheet. Since this will include accrued interest as at the Balance Sheet date, MUFG Corporate Markets have also included accrued interest in the fair value calculation. This figure will be calculated up to and including the valuation date.

Discount rates used in NPV calculation

The rates quoted in this valuation were obtained by MUFG Corporate Markets from the market on 31 March 2026, using bid prices where applicable.

Assumptions:

It is noted that the following assumptions do not have a material effect on the fair value of the instrument:

- Interest is calculated using the most common market convention, Actual/365, a day-count formula.
- Interest is not paid/received on the start date of an instrument but is paid/received on the maturity date.

The following categories of financial instruments are carried in the Balance Sheet at Amortised Cost. The carrying amounts and fair values calculated are as follows:

Financial Instruments as at 31 March 2026

	Carrying amount	N/A	Fair Value			Total
	£'000	£'000	Level 1 £'000	Level 2 £'000	Level 3 £'000	£'000
Financial assets measured at fair value						
Short term investments	-	-	-	-	-	-
Long term investments	60	60	-	-	-	60
	60	60	-	-	-	60

Financial assets not measured at fair value

Cash and cash equivalents	30,127	-	30,127	-	-	30,127
Short term debtors	62,335	62,335	-	-	-	62,335
Long term debtors	17,355	17,355	-	-	-	17,355
Other Short Term Assets	567	567	-	-	-	567
	110,384	80,257	30,127	-	-	110,384

Financial liabilities held at amortised cost

PWLB debt	633,977	-	-	394,531	-	394,531
Non-PWLB debt	298,693	-	-	300,053	-	300,053
Other short term borrowing	62	62	-	-	-	62
	932,732	62	-	694,584	-	694,646

Financial liabilities not measured at fair value

Short term creditors	65,779	65,779	-	-	-	65,779
PFI	132,776	132,776	-	-	-	132,776
Right of Use Leases	31,776	31,776	-	-	-	31,776
Long term creditors	1,302	1,302	-	-	-	1,302
	231,633	231,633	-	-	-	231,633

The fair value of liabilities is lower than the carrying amount because the Council's portfolio of loans includes a number of fixed rate loans where the interest rate payable is lower than the prevailing rates at the Balance Sheet date. This shows a notional future gain (based on economic conditions as at 31 March 2026) arising from a commitment to pay interest to lenders below current market rates.

The fair value of assets is on par with the carrying amount as the Council's portfolio of investments is of a short term nature and the interest rate receivable is comparable to rates available for similar loans at the Balance Sheet date.

Short term debtors and creditors are carried at cost as this is a fair approximation of their value.

The following categories of financial instruments are carried in the Balance Sheet at Amortised Cost. The carrying amounts and fair values calculated are as follows:

Financial Instruments as at 31 March 2025

	Carrying amount	N/A	Level 1	Fair Value Level 2	Level 3	Total
	£'000	£'000	£'000	£'000	£'000	£'000
Financial assets measured at fair value						
Short term investments	-	-	-	-	-	-
Long term investments	10	10	-	-	-	10
	10	10	-	-	-	10

Financial assets not measured at fair value

Cash and cash equivalents	17,835	-	17,835	-	-	17,835
Short term debtors	56,164	56,164	-	-	-	56,164
Long term debtors	10,870	10,870	-	-	-	10,870
Other Short Term Assets	567	567	-	-	-	567
	85,436	67,601	17,835	-	-	85,436

Financial liabilities held at amortised cost

PWLB debt	566,036	-	-	336,351	-	336,351
Non-PWLB debt	213,601	-	-	214,106	-	214,106
Other short term borrowing	62	62	-	-	-	62
	779,699	62	-	550,457	-	550,519

Financial liabilities not measured at fair value

Short term creditors	67,742	67,742	-	-	-	67,742
PFI	140,923	140,923	-	-	-	140,923
Right of Use Leases	38,270	38,270	-	-	-	38,270
Long term creditors	1,416	1,416	-	-	-	1,416
	248,351	248,351	-	-	-	248,351

19. Inventories

Inventories are valued at the lower of cost and realisable value.

2024/25		2025/26
£'000		£'000
438	Balance outstanding at start of year	445
2,232	Purchases	2,075
(2,201)	Recognised as an expense in the year	(1,978)
(24)	Written off balances	(29)
445	Balance outstanding at year-end	513

20. Short Term Debtors

31 March 2025		31 March 2026	
£'000		£'000	
24,963	Central government bodies	26,280	
1,650	Other local authorities	2,558	
2,920	NHS bodies	6,566	
87,613	Other entities and individuals	95,199	
(27,125)	Less: Impairment allowance	(28,326)	
90,021		102,277	

Where income which relates to the reporting year is expected to be received after the financial year end, an estimate is made of the amount to be accrued. Other Entities and individuals include Council Tax and NNDR Ratepayers, housing Rents and Housing Benefit Debtors.

Impairment Allowance for Debtors

31 March 2025		31 March 2026	
£'000		£'000	
(5,538)	Accounts Receivable	(5,177)	
(2,208)	Housing Revenue Account	(2,425)	
(2,997)	Housing Benefit Overpayments	(2,581)	
(662)	Commercial Rents	(437)	
(15,720)	Collection Fund	(17,706)	
(27,125)		(28,326)	

The past due but not impaired amount for local taxation (council tax and national non-domestic rates) can be analysed as follows:

31 March 2025		31 March 2026	
£'000		£'000	
9,160	Less than 1 year	10,769	
8,837	1 - 2 years	10,128	
5,194	2 - 6 years	6,415	
134	More than 6 years	166	
23,325		27,478	

The above analysis only shows those balances where assessment has indicated that, by exception, no impairment is required.

21. Cash and Cash Equivalents

The balance of Cash and Cash Equivalents is made up of the following elements:

31 March 2025		31 March 2026	
£'000		£'000	
213	Cash held by the Authority	91	
(9,833)	Bank current accounts	8,337	
27,455	Short-term deposits with banks/building societies	21,699	
17,835	Total Cash and Cash Equivalents	30,127	

22. Short Term Creditors

An analysis of the Council's creditors for amounts falling due within one year is shown below.

31 March 2025		31 March 2026	
£'000		£'000	
18,727	Central government bodies	17,329	
6,414	Other local authorities	2,658	
2,003	NHS bodies	1,342	
44,807	Other entities and individuals	51,522	
71,951		72,851	

Where expenditure has been incurred but not invoiced, an estimate is made of the amount to be accrued. Other Entities and individuals include Council Tax, NNDR, superannuation.

23. Provisions

	Balance at 1 April 2025	Additional provisions made in 2025/26	Amounts used in 2025/26	Unused amounts reversed in 2025/26	Balance at 31 March 2026
	£'000	£'000	£'000	£'000	£'000
Insurance Provision	(1,780)	-	-	-	(1,780)
Litigation Claims	(245)	(190)	144	-	(291)
Disrepair Provision	(2,104)	-	69	-	(2,035)
Collection Fund Appeals	(2,403)	(2,177)	2,623	-	(1,957)
Total Provisions per Balance Sheet	(6,532)	(2,367)	2,836	-	(6,063)

Insurance Provision

The Council holds insurance provisions to cover the amount of claims lodged against the Council which have been assessed as being likely to be successful. The claims are for employers and public liability and while catastrophic cover is externally insured, self-insurance is used for the majority of these claims. The insurance provisions are created from internal premiums charged to service revenue accounts. Claims are met directly from these provisions. The provisions cover future liabilities where there is some likelihood it will arise but for which the exact amount and timing is not known.

Litigation Claims

The Council is currently dealing with litigation claims where it is now anticipated that costs will be incurred.

Disrepair Provision

The Council has made a provision for the costs of outstanding Housing Disrepair claims reflecting the number of claims received by 31 March 2026.

Collection Fund Appeals

The Council has made a provision for NNDR Appeals based upon its best estimates of the actual liability as at the year-end in known appeals.

24. Usable Reserves

2024/25		2025/26
£'000		£'000
20,968	General Fund Balance	20,968
14,173	Earmarked General Fund Reserves	10,265
3,750	Housing Revenue Account	3,750
22,998	Earmarked Housing Revenue Account Reserves	21,652
-	Major Repairs Reserve	-
40,774	Capital Receipt Reserves	40,497
35,550	Capital Grants Unapplied	17,968
138,213		115,100

Movements in the Council's usable reserves are detailed in the Movement in Reserves Statement, supported by the detailed movements in note 9 – Adjustments between Accounting Basis and Funding Basis under Regulations.

25. Unusable Reserves

2024/25		2025/26
£'000		£'000
752,056	Revaluation Reserve	779,227
110,123	Capital Adjustment Account	9,446
(2,158)	Financial Instruments Adjustment Account	(2,036)
(82,302)	Pension Reserve	(33,249)
175	Collection Fund Adjustment Account	161
(1,994)	Accumulated Absences Account	(1,896)
(8,454)	Dedicated Schools Grant Adjustment Account	(24,419)
767,446	Total Unusable Reserves	727,234

(a) Revaluation Reserve

The Revaluation Reserve contains the gains made by the Council arising from increases in the value of its Property, Plant and Equipment (and intangible assets). The balance is reduced when assets with accumulated gains are:

- Revalued downwards or impaired and the gains are lost,
- Used in the provision of services and the gains are consumed through depreciation, or
- Disposed of and the gains are realised.

The Reserve contains only revaluation gains accumulated since 1 April 2007, the date that the Reserve was created. Accumulated gains arising before that date are consolidated into the balance on the Capital Adjustment Account.

2024/25		2025/26
£'000		£'000
539,237	Balance at 1 April	752,056
331,049	Upward revaluation of assets	74,244
(105,338)	Downward revaluation of assets and impairment losses not charged to the Surplus/Deficit on the Provision of Services	(21,160)
764,948	Surplus or deficit on revaluation of non-current assets not posted to the Surplus or Deficit on the Provision of Services	805,140
(12,892)	Difference between fair value depreciation and historical cost depreciation	(15,737)
-	Accumulated gains on assets sold or scrapped	-
-	Other movements	(10,176)
(12,892)	Amount written off to the Capital Adjustment Account	(25,913)
752,056	Balance at 31 March	779,227

(b) Capital Adjustment Account

The Capital Adjustment Account absorbs the timing differences arising from the different arrangements for accounting for the consumption of non-current assets and for financing the acquisition, construction or enhancement of those assets under statutory provisions. The Account is debited with the cost of acquisition, construction or enhancement as depreciation, impairment losses and amortisations are charged to the Comprehensive Income and Expenditure Statement (with reconciling postings from the Revaluation Reserve to convert fair value figures to a historical cost basis). The Account is credited with the amounts set aside by the Council as finance for the costs of acquisition, construction and enhancement.

The Account contains accumulated gains and losses on Investment Properties and gains recognised on donated assets that have yet to be consumed by the Council. The Account also contains revaluation gains accumulated on Property, Plant and Equipment before 1 April 2007, the date that the Revaluation Reserve was created to hold such gains.

Note 9 provide details of the source of all the transactions posted to the Account, apart from those involving the Revaluation Reserve.

2024/25		2025/26	
£'000		£'000	£'000
181,297	Balance at 1 April		110,123
	Reversal of items relating to capital expenditure debited or credited to the Comprehensive Income and Expenditure Statement:		
(131,796)	Charges for depreciation and impairment of non-current assets	(147,438)	
(60,843)	Revaluation losses on Property, Plant and Equipment	(34,796)	
(3,303)	Amortisation of Intangible Assets	(3,439)	
(32,331)	Revenue expenditure funded from capital under statute	(54,517)	
(6,737)	Amounts of non-current assets written off on disposal or sale as part of the gain/loss on disposal to the Comprehensive Income and Expenditure Statement	(38,618)	
(235,010)			(278,808)
(260)	Repayment of long term debtors		(1,112)
12,892	Adjusting amounts written out of the Revaluation Reserve		25,913
(222,378)	Net written out amount of the cost of non-current assets consumed in the year		(254,007)
	Capital financing applied in the year:		
7,384	Use of the Capital Receipts Reserve to finance new capital expenditure	20,530	
36,387	Use of the Major Repairs Reserve to finance new capital expenditure	37,277	
52,090	Capital grants and contributions credited to the Comprehensive Income and Expenditure Statement that have been applied to capital financing	49,771	
37,784	Application of grants to capital financing from the Capital Grants Unapplied Account	25,769	
19,590	Statutory provision for the financing of capital investment charged against the General Fund and HRA balances	22,813	
326	Capital expenditure charged against the General Fund and HRA balances	150	
153,561			156,310
(2,357)	Movements in the fair value of Investment Properties debited or credited to the Comprehensive Income and Expenditure Statement		(2,980)
110,123	Balance at 31 March		9,446

(c) Financial Instrument Adjustment Account

The Financial Instrument Adjustment Account absorbs the timing differences arising from the different arrangements for accounting for income and expenses relating to certain financial instruments and for bearing losses or benefiting from gains per statutory provisions. The Council uses the Account to manage premiums paid on the early redemption of loans. Premiums are debited to the Comprehensive Income and Expenditure Statement when they are incurred, but reversed out of the General Fund Balance to the Account in the Movement in Reserves Statement. Over time, the expense is posted back to the General Fund Balance in accordance with statutory arrangements for spreading the burden on Council Tax. In the Council's case, this period is the unexpired term that was outstanding on the loans when they were redeemed. As a result, the balance on the Account at 31 March 2026 will be charged to the General Fund over the next 25 years.

2024/25		2025/26	
£'000		£'000	£'000
(2,280)	Balance at 1 April		(2,158)
-	Premiums incurred in the year and charged to the Comprehensive Income and Expenditure Statement	-	
122	Proportion of premiums incurred in previous financial years to be charged against the General Fund Balance in accordance with statutory requirements	122	
122	Amount by which finance costs charged to the Comprehensive Income and Expenditure Statement are different from finance costs chargeable in the year in accordance with statutory requirements		122
(2,158)	Balance at 31 March		(2,036)

(d) Pensions Reserve

The Pensions Reserve absorbs the timing differences arising from the different arrangements for accounting for post employment benefits and for funding benefits in accordance with statutory provisions. The Council accounts for post employment benefits in the Comprehensive Income and Expenditure Statement as the benefits are earned by employees accruing years of service, updating the liabilities recognised to reflect inflation, charging assumptions and investment returns on any resources set aside to meet the costs. However, statutory arrangements require benefits earned to be financed as the Council makes employers' contributions to pension funds or eventually pays any pensions for which it is directly responsible.

From 2022/23, the actuarial valuation has seen a significant movement from a deficit to a surplus position. Under the International Accounting Standard (IAS19) the Council must disclose the lower of the actuarial valuation or Asset Ceiling calculation. The Asset Ceiling calculation resulted in a lower valuation and has therefore been included within the accounts for 2025/26.

2024/25		2025/26	
£'000		£'000	£'000
(91,629)	Balance at 1 April		(82,302)
505,059	Actuarial gains or (losses) on pensions assets and liabilities		707,455
(32,894)	Reversal of items relating to retirement benefits debited or credited to the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement		(30,141)
36,301	Employer's pensions contributions and direct payments to pensioners payable in the year		44,443
(499,139)	Asset Ceiling Adjustment		(672,704)
(82,302)	Balance at 31 March		(33,249)

(e) Collection Fund Adjustment Account

The Collection Fund Adjustment Account manages the difference arising from the recognition of council tax income in the Comprehensive Income and Expenditure Statement as it falls due from council tax payers compared with the statutory arrangements for paying across amounts to the General Fund from the Collection Fund.

2024/25		2025/26	
£'000		£'000	
2,240	Balance at 1 April		175
(2,065)	Amount by which council tax income credited to the Comprehensive Income and Expenditure Statement is different from council tax income calculated for the year in accordance with statutory requirements		(14)
175	Balance at 31 March		161

(f) Accumulated Absences Account

The Accumulated Absences Account absorbs the difference that would otherwise arise on the General Fund Balance from accruing for compensated absences earned but not taken in the year, eg annual leave entitlement carried forward at 31 March. Statutory arrangements require that the impact on the General Fund Balance is neutralised by transfers to or from the account.

2024/25		2025/26	
£'000		£'000	£'000
(2,354)	Balance at 1 April		(1,994)
-	Settlement or cancellation of accrual made at the end of the preceding year	-	
360	Amounts accrued at the end of the current year	98	
360	Amount by which officer remuneration charged to the Comprehensive Income and Expenditure Statement on an accruals basis is different from remuneration chargeable in the year in accordance with statutory requirements		98
(1,994)	Balance at 31 March		(1,896)

(g) Dedicated Schools Grant Adjustment Account

The Dedicated Schools Grant Adjustment Account is a statutory ring-fenced account introduced for those authorities with a deficit on the schools budget, to allow separation of such deficits from the general fund. This is in response to the School and Early Years Finance (England) Regulations (2020) setting out that a schools budget deficit must be carried forward to be funded from future Dedicated Schools Grant income, unless permission is sought from the Secretary of State for Education to fund the deficit from general resources.

The instrument amends the 2003 Regulations by establishing new accounting practices in relation to the treatment of local authorities' schools budget deficits such that where the Council has a deficit on its schools budget, it must not charge the amount of that deficit to a revenue account. The Council must record any such deficit in a separate account established solely for the purpose of recording deficits relating to its school's budget. The accounting practice has the effect of separating schools budget deficits from the Councils' General Fund. It was initially set to cover three financial years to 2022/23 and has since been extended until March 2028.

This issue can only be fully resolved by closing the deficits. Therefore, the accounting treatment introduced by this regulation is limited to provide time for Government and the Council to look at budgetary and financial management strategies to reduce the deficit.

The Local Government Settlement confirmed that Council's will be required to fund 10% of deficits as at 31 March 2026 (with Government meeting 90% by way of a grant payable in autumn 2026). The Council's DSG deficit was £24.419m at March 2026 and therefore the Council's share equates to £2.442m.

The Department for Education have stated that the SEND reform will take time to fully embed and Local Authorities will need further support. For deficits that arise in 2026/27 and 2027/28 they will continue to take similarly appropriate and proportionate approach to such support, though it will not be unlimited.

2024/25		2025/26
£'000		£'000
(3,509)	Balance at 1 April	(8,454)
(4,945)	In Year DSG overspend	(15,965)

	£'000	£'000	£'000	£'000	£'000
Long Term Borrowings	514,633	69,152	-	-	583,785
Short Term Borrowings	193,975	1,939	-	-	195,914
Lease Liabilities	-	-	-	-	-
PFI Liabilities	137,161	3,762	-	-	140,923
Right of Use Lease Liability	-	38,270	-	-	38,270
Total Liabilities from Financing Activities	845,769	113,123	-	-	958,892

29. Agency Services

The Council carries out certain work on an agency basis, which is reimbursed. The principal areas of work are:

- As a highways agent for the Department of Transport

A summary of expenditure incurred in respect of the activity is as follows:

2024/25		2025/26
£'000		£'000
267	Highways agent for the Department of Transport	347
267	Total amount reimbursable	347

30. Pooled Budgets

Section 75 National Health Service Act 2006 enables the establishment of joint working arrangements between NHS bodies and local authorities and the pooling of funds to deliver specific local health issues. The Council has a pooled budget arrangement with the Humber Teaching NHS Foundation Trust for the delivery of the Yorkshire & Humber Integrated Care Record which is governed by a Section 75 Agreement.

Better Care Fund

The Better Care Fund was announced nationally in June 2013 to drive the transformation of local services to ensure that people receive better and more integrated care and support. The Council has entered into a pooled budget arrangement with NHS Humber & North Yorkshire Integrated Care Board (formerly Hull CCG) under a Section 75 Agreement to deliver Better Care. The Council's contribution to the pooled budget in 2025/26 - including monies made available to the Council by the Government through the Local Authority Better Care Grant and the Disabled Facilities Grant - was £30.37m (2024/25 £30.08m), which includes £3.8m for capital equipment. The amount allocated to the Council from the fund £40.08m, of which £39.2m was spent in the year. (The 2024/25 amount allocated to the Council was £39.2m of which £39.1m spent in year.) The unspent balance relates to an underspend on the non BCF grant funding where posts were not appointed to in year and an underspend on DFG which will be carried forward into 2026/27.

145		904

Hull CCG ceased to be operational with effect from 30 June 2022 and was replaced by the NHS Humber & North Yorkshire Integrated Care Board from 1 July 2022 as part of the reorganisation of the NHS nationally. The Section 75 agreement formerly operated by the Council with Hull CCG has continued in partnership with the ICB. The move towards joint commissioning continues to develop and is reflected in the agreement which incorporates the alignment of several budgets between the partners in addition to the Better Care Pooled Budget itself.

Yorkshire & Humber Integrated Care Record

In March 2018 NHS England (NHSE) and the Local Government Association invited proposals from NHS and local government partner organisations to participate in a programme of Local Health and Care Record Exemplars (LHCRE) across England. The Programme is designed to support the adoption of best practice in the collection, protection, and use of health and care data to promote greater efficiency and effectiveness in the handling of patient/client data across the health and social care continuum in any locality. In July 2018, 74 partner organizations across the Yorkshire & Humber region (the Yorkshire & Humber Collaborating Partners) were awarded £7.5 million in capital funding by NHSE for this purpose. The Collaborating Partners subsequently agreed that the programme would be delivered through the Yorkshire & Humber Digital Care Board, and that the Humber Teaching NHS Foundation Trust (HTFT) would act as lead commissioner on behalf of the Yorkshire & Humber LHCRE. It was further agreed that the balance of funding held by HTFT at the close of 2020/21 (£4.1 million) would be used to create a pooled budget between HTFT and Hull City Council (also a member of the Y&H Collaborating Partners) to further facilitate the application of the remaining funds.

Hull City Council acts as the host of the pooled fund and has defrayed £1.1m from the fund in 2025/26 to HTFT in line with approved decisions of the Board. No funding has been paid into the pooled fund by HTFT during the year to leave a closing balance of £4.916m. This will again be available for drawdown by HTFT in 2026/27 in line with Yorkshire & Humber Digital Care Board approvals.

Director of Public Health		135,742	-	-	-	-	135,742	-	135,742
Corporate Director Children & Family Services		135,742	-	-	-	-	135,742	27,013	162,755
Director of Finance & Transformation		135,742	-	-	-	-	135,742	26,364	162,106
Director of Legal Services and Partnerships		135,742	-	600	-	-	136,342	27,013	163,355
Statutory Director Adults Social Care (Non Exec)		131,479	-	-	-	-	131,479	26,164	157,643
		763,482	-	600	-	-	764,082	124,170	888,252

Note: The Director of Regeneration was in post from August 2025. The total annualised salary is £135,742

The number of exit packages with total cost per band and total cost of the compulsory and other redundancies are set out in the table below:

Exit package cost band (including special payments)	Number of compulsory redundancies		Number of other departures agreed		Total number of exit packages by cost band		Total cost of exit packages in each band	
	2025/26	2024/25	2025/26	2024/25	2025/26	2024/25	2025/26	2024/25
£1 - £40,000	-	-	3	6	3	6	70,835	126,260
£60,001 - £80,000	-	-	1	2	1	2	75,384	149,242
Total included in bandings	-	-	4	8	4	8	146,219	275,502
Add: Amounts provided for in CIES not included in bandings							-	-
Total cost included in CIES							146,219	275,502

The above cost of exit packages includes pension strain costs and compensation payments also relating to three school staff.

33. External Audit Costs

In 2025/26 the following costs were incurred in relation to external audit and inspection fees:

2024/25 £'000		2025/26 £'000
478	Fees payable to auditors appointed under the Local Audit and Accountability Act 2014 with regard to external audit services carried out by the appointed auditor for the year	491
28	Fees payable to auditors appointed under the Local Audit and Accountability Act 2014 for the certification of grant claims and returns for the year	-
-	Fees payable to auditors appointed under the Local Audit and Accountability Act 2014 in respect of other services provided during the year	-
506		491

Notes:

The fee payable for 2025/26 with regard to external audit services remains subject to confirmation by the PSAA.

34. Dedicated Schools Grant

The Council's expenditure on schools is funded primarily by grant monies provided by the Education and Skills Funding Agency, the Dedicated Schools Grant (DSG). DSG is ring fenced and can only be applied to meet expenditure properly included in the Schools Budget, as defined in the School Finance and Early Years (England) (No 2) Regulations 2018. The Schools Budget includes elements for a range of educational services provided on a council-wide basis and for the Individual Schools Budget, which is divided into a budget share for each maintained school.

Details of the deployment of DSG receivable for 2025/26 are as follows:

2024/25		2025/26		
Total		Central Expenditure	Individual Schools Budget	Total
£'000		£'000	£'000	£'000
322,803	Final DSG for 2025/26 before Academy and high needs recoupment			355,230
(241,647)	Academy and high needs figure recouped for 2025/26			(262,709)
81,156	Total DSG after Academy and high needs recoupment for 2025/26			92,521
2,175	Brought forward from 2024/25			-
-	Carry forward to 2025/26 agreed in advance			-
83,331	Agreed initial budgeted distribution in 2025/26	78,762	13,759	92,521
-	In year adjustments	(10)	(8)	(18)
83,331	Final budget distribution for 2025/26	78,752	13,751	92,503
(74,795)	Less Actual Central Expenditure	(94,709)	-	(94,709)
(13,481)	Less Actual ISB deployed by schools	-	(13,759)	(13,759)
-	Plus Local Authority contribution for 2025/26	-	-	-
(4,945)	In year carry forward to 2026/27	(15,957)	(8)	(15,965)
-	Plus: Carry-forward to 2026/27 agreed in advance			-
4,945	Transfer deficit to reserve			15,965
-	Carry forward to 2026/27			-
(3,509)	DSG unusable reserve at the end of 2024/25			(8,454)
(4,945)	Addition to DSG unusable reserve at the end of 2025/26			(15,965)
(8,454)	Total DSG unusable reserve at the end of 2025/26			(24,419)
(8,454)	Net DSG position at the end of 2025/26			(24,419)

The Council is working with the schools sector on a plan to bring spend in line with grant income and to address the deficit position.

35. Grant Income

The Council credited the following grants, contributions and donations to the Comprehensive Income and Expenditure Statement in 2025/26:

2024/25		2025/26
£'000		£'000
	Credited to Taxation and Non Specific Grant Income	
30,231	Revenue Support Grant	30,735
45,453	Business Rates	45,801
342	New Homes Bonus Scheme	63
8,161	Other	31,147
84,187		107,746
	Credited to Services	
83,254	Housing Benefit Rents	70,706
7,281	Skills Funding Agency, adult education and sixth form	4,358
81,176	Dedicated Schools Grant	92,053
3,321	Pupil Premium Grant	1,393
26,871	Public Health	28,422
27,969	Better Care Fund	31,822
35,661	Social Care Grant	42,462
5,658	Extra Care PFI	5,658
11,311	Partnership for Schools	11,311
1,713	16 to 19 Funding	1,604
722	Youth Justice Grant	725
-	Construction Products Border Programme	-
47,506	Other Grants	37,134
332,443		327,648

The Council has received a number of grants and contributions that have yet to be recognised as income as they have conditions attached to them that may require the monies or property to be returned to the giver. The balances at the year-end are as follows:

31 March 2025	Current Liabilities	31 March 2026
£'000		£'000
	Grants Receipts in Advance (Capital Grants)	
25	Devolved Formula Capital - Partnership for Schools	28
-	Other Grants	3,012
5	Other Contributions	47
30	Total	3,087
	Grants Receipts in Advance (Revenue Grants)	
849	Housing Benefit Rent	1,182
3,163	Other Grants	2,917
-	Section 31 Grant	-
4,012	Total	4,099

31 March 2025	Long-term Liabilities	31 March 2026
£'000		£'000
	Grants Receipts in Advance (Capital Grants)	
83	Devolved Formula Capital - Partnership for Schools	101
-	Other Grants	-
289	Other Contributions	293
372	Total	394

The Council does not have a donated assets account.

36. Related Parties

The Council is required to disclose material transactions with related parties – bodies or individuals that have the potential to control or influence the Council, or to be controlled or influenced by the Council. Disclosure of these transactions allows readers to assess the extent to which the Council might have been constrained in its ability to operate independently or might have secured the ability to limit another party's ability to bargain freely with the Council.

The aggregation option for individual transactions has been taken on the basis that the Council has satisfied itself that all the transactions entered into have been concluded in accordance with its proper procedures for preventing undue influence.

Central Government

Central Government has statutory oversight of the general operations of the Council – it is responsible for providing the statutory framework, within which the Council operates, provides the majority of its funding in the form of grants and prescribes the terms of many of the transactions that the Council has with other parties (eg Council Tax bills, housing benefits). Grant Income is detailed at note 35.

Members

Members of the Council have direct control over the Council's financial operating policies. The total of members' allowances paid in 2025/26 is shown in note 31.

In 2025/26, 57 elected members declared an interest in related parties (59 in 2024/25). The relevant members did not take part in any discussion or decision relating to the transactions. A full list of member's interests is available from the Guildhall, Alfred Gelder Street, Hull, HU1 2AA. It is also available to view on the Council's website, www.hullcc.gov.uk.

Officers

The Council officers' interests are listed below:

Hull & Goole Port Health Authority

David Bell, the Executive Director of Corporate Resources (Section 151 Officer), was Treasurer to the Authority during 2025/26 (and 2024/25).

Ian Anderson, the Council's Director of Legal Services and Partnerships, was the Clerk to the Authority until December 2025 (and during 2024/25).

Lisa Dixon the Council's Assistant Director of Legal Services and Governance was the Clerk to the Authority from January 2026.

Hull Maritime Foundation

David Bell was a Trustee until July 2025 (and during 2024/25).

Hull Esteem Consortium LEP Limited

Tracy Harsley was a Director during 2025/26 (and 2024/25).

Ian Anderson was a Director until December 2025 (and during 2024/25).

Information in respect of material transactions with member and officer related parties not disclosed in this Statement of Accounts, is presented below:

17	Other	9
11,929		15,762

Of those that returned the declaration form, no other Council members, Chief Officers, nor their close relations or members of the same household have undertaken any declarable related party transactions with the Council.

Other Public Bodies

Pension Fund – see notes 42 and 43 for details of pension fund transactions during the 2025/26 financial year for the Teachers Pension Scheme, the NHS Pension Scheme and the Local Government Pension Scheme.

Entities Controlled or Significantly Influenced by the Council

Hull & East Yorkshire Local Enterprise Partnership Limited

The Hull & East Yorkshire LEP Limited (“the LEP”) is a wholly owned Council company, formed to act as the legal entity for the Local Enterprise Partnership. The company itself is dormant. The Council acted as Accountable body for the LEP (as it did for its predecessor the Humber LEP), and then for the BGSH, however the LEP ceased operations at 31st March 2024 when the functions transferred to the Hull & East Yorkshire Business Growth & Skills Hub on 1st April 2024 and to the Hull & East Yorkshire Mayoral Combined Authority on 1st April 2025.

The Hull & East Yorkshire Mayoral Combined Authority incurred expenditure of £1.911m in 2025/26 compared to £1.725m in 2024/25 and income of £1.785m in 2025/26 compared to £2.004m in 2024/25. Unused funding will be carried forward to future years and/or passed over to the Combined Authority.

Freedom Festival Arts Trust

The Freedom Festival Arts Trust was incorporated on 15 May 2013 as a not-for-profit organisation and Charity to deliver the Freedom Festival and an all-year programme of work.

The company has traded during the period ended 31 March 2026 with transactions totalling £0.26m, compared to £0.206m in 2024/25.

37. Capital Expenditure and Financing

The total amount of capital expenditure incurred in the year is shown in the table below (including the value of assets acquired under leases and PFI/PPP contracts), together with the resources that have been used to finance it. Where capital expenditure is to be financed in future years by charges to revenue as assets are used by the Council, the expenditure results in an increase in the Capital Financing Requirement (CFR), a measure of the capital expenditure incurred historically by the Council that has yet to be financed. The CFR is analysed in the second part of this note.

2024/25		2025/26
£'000		£'000
976,998	<i>Opening Capital Financing Requirement</i>	1,057,868

80,870	<i>Increase/(decrease) in Capital Financing Requirement</i>	88,716

*Opening Balance Adjustment is the IFRS 16 Leases implementation Right of Use Assets and PFI remeasurement opening balances.

38. Leases

The Council as Lessee

The Council examines its contracts database and property portfolio on an annual basis, to identify changes in the lease arrangements, this includes new, terminated and amendments in lease terms.

At the commencement of a lease, a liability is recognised for the obligation to make future payments (discounted to their present value using the interest rate implicit in the lease or (where this is not readily determinable) the Council's incremental borrowing rate. The right acquired under

the lease to use the leased item is recognised as an asset, measured on the commencement date at cost based on the lease liability plus any payments made before that date.

Initial direct costs of the Council are added to the carrying amount of the asset. Liabilities are recalculated where rents change as a result of a change in an index or rate used to determine future payments. Adjustments to liabilities are matched with adjustments to the cost of the right-of-use asset. Lease payments are apportioned between a charge for the acquisition of the right to use the property, plant or equipment which is applied to write down the lease liability, and a finance charge which is debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement.

Right-of-use assets recognised under leases are accounted for using the policies applied generally to Property, Plant and Equipment assets, subject to depreciation being charged over the lease term if this is shorter than the asset's estimated useful life.

The Council is not required to use council tax to cover depreciation or revaluation and impairment losses arising on leased assets. Therefore, the Minimum Revenue Provision arrangements also apply to leased assets. Where leases are for items of low value, or the lease term is less than 12 months from commencement, amounts paid under the lease are charged to the Comprehensive Income and Expenditure Statement as an expense of the services benefitting from use of the leased item. For this purpose, the Council has determined that items with a value of less than £10k when new are low value.

Charges are made on a straight line basis over the life of the lease, even if this does not match the pattern of payments (e.g. there is a rent-free period at the commencement of the lease).

Right-of-Use Asset

2025/26	Land and Buildings	Vehicles, Plant and Equipment	Investment Properties	Total
	£'000	£'000	£'000	£'000
Balance at 1 April 2025	24,039	21,696	6,596	52,331
Additions	-	3,987	-	3,987
Revaluations	(1,093)	(482)	(298)	(1,873)
Depreciation and amortisation	(2,601)	(4,898)	-	(7,499)
Disposals	(557)	(1,617)	-	(2,174)
Balance at 31 March 2026	19,788	18,686	6,298	44,772

2024/25	Land and Buildings	Vehicles, Plant and Equipment	Investment Properties	Total
Restated	£'000	£'000	£'000	£'000
Balance at 1 April 2024				
Opening Balance Adjustment	27,670	21,466	6,596	55,732
Additions	-	4,185	-	4,185
Revaluations	(309)	-	-	(309)
Depreciation and amortisation	(3,322)	(3,955)	-	(7,277)
Disposals	-	-	-	-
Balance at 31 March 2025	24,039	21,696	6,596	52,331

Right of Use Assets are included within the Property Plant and Equipment values on the balance sheet. Principal repayments of £5.381m (2024/25 £5.760m) were incurred in year in relation to Right-of-Use Assets.

Transactions under Leases

The Council incurred the following expenses and cash flows in relation to leases:

31 March 2025		31 March 2026
£'000		£'000
Comprehensive Income and Expenditure Statement		
2,207	Interest expenses on Lease Liabilities	1,982
-	Expenses related to Short Term Leases	-
366	Expense related to exempt lease of low value items	295
-	Variable lease payments not included in the measure of lease liabilities	-
216	Income from Subletting right-of-use assets	216
-	Gains or losses from Sale and Leaseback transactions	-
Cash Flow Statement		
7,971	Minimum Lease payments	7,363

Maturity Analysis of Lease Liabilities

The lease liabilities are due to be settled over the following time bands (measured at the undiscounted amounts of expected cash payments):

31 March 2025		31 March 2026
£'000		£'000
7,971	Less than one year	7,363
27,635	One to five years	28,224
11,036	More than five years	9,625
46,642	Total Undiscounted Liabilities	45,212

As at 31 March 2026 there are £31.776m liabilities relating to leases held on the balance sheet compared to £38.271m as at 31 March 2025.

The Council as Lessor

The Council leases out property under operating leases for the following purposes:

- For the provision of community services, such as sports facilities, charitable organisations and community centres.
- For economic development purposes to provide suitable affordable accommodation for local businesses.

The future minimum lease payments receivable under non-cancellable leases in future years, up to 75 years, are:

31 March 2025		31 March 2026	
£'000		£'000	
2,147	Not later than one year	3,426	
6,074	Later than one year and not later than five years	7,643	
56,456	Later than five years	54,949	
64,677		66,018	

The minimum lease payments do not include rents that are contingent on events taking place after the lease was entered into, such as adjustments following rent reviews. In 2025/26, no contingent rents were receivable by the Council (2024/25 - £nil).

39. Private Finance Arrangements and Similar Contracts

Under IFRIC 12 – Service Concession Arrangements, property used within a PFI arrangement should be recognised as an asset or assets of the local authority. PFI contracts are considered with the new requirements implemented from IFRS 16 Leases. Where unitary charge payments are subject to indexation, the carrying value of the liability is re-measured in accordance with IFRS 16. No contingent rentals occur within this scheme following these changes.

BSF Schools

General

The Council has entered into a 25 year contract with the Hull Esteem Group to design, build, finance and operate five new schools in Hull:

- Winifred Holtby / Tweendykes School – The school building includes two schools; Winifred Holtby (secondary school) and Tweendykes (special needs school). The schools opened in September 2011. Therefore, the asset and corresponding long term liability were brought onto the balance sheet during 2011/12. The Winifred Holtby / Tweendykes arrangement is included as one PFI scheme.
- Two secondary schools (Andrew Marvell Business and Enterprise College and Kingswood College of Arts) and a special needs school (Oakfield) were opened in January 2013. Asset values and corresponding long term liabilities were brought onto balance sheet during 2012/13.
- Winifred Holtby, Tweendykes and Kingswood College of Arts converted to academy status in 2013/14. Andrew Marvell Business and Enterprise College transferred to academy status in 2016/17. Assets were removed from the balance sheet in 2013/14 and 2016/17 respectively, but the liability remains on the balance sheet.
- No new schools have been built during this financial year under a PFI arrangement.

Significant Contractual Information

Significant terms of the arrangement

Monitor performance of the Project Agreement through a significant number of performance standards to ensure the Services are being provided in accordance with the Contract's Payment Mechanism.

Market testing exercises must be completed every five years by an independent third party on behalf of the Hull Esteem Group. Should the service costs change by 5% or more, the unitary charge must be adjusted accordingly. Market testing will assess grounds maintenance, pest control, cleaning and waste management.

Should the Hull Esteem Group opt to refinance its debts and has obtained the Council's consent, the Council is entitled to a 50% share of any gains.

Rights to use specified assets

The Council has full rights to use the schools for the provision of educational services. Each school is made available for use in the following priority order: i) provision of education services, ii) community use, iii) and third party use. The contractor may enter into arrangements for third party use, subject to satisfying criteria laid out in the contract, and may be entitled to charge for such use.

Rights to receive specified assets at the end of the concession period

The schools are under the operational control of the Hull Esteem Group during the contract period, with the legal title of the land remaining with the Council throughout the contract. At the end of the contract period, the buildings will revert to the Council for nil consideration.

Renewal and termination options

The contract does not include an option to extend or renew beyond the contractual expiry date. The significant risks that the Council is exposed to under a PFI contract are changes in inflation and changes in demand for the services.

There is provision within the agreement for the termination of the contracts, under certain conditions, by either the Council or by the contractor on Council default, or termination by the Council on contractor default. Compensation payments are payable upon termination and the calculation of these is determined in the contracts.

Other rights and obligations

It is anticipated that any staff employed by Hull Esteem Group or its subcontractors running the schools will have the legal right to transfer over to the Council at the end of the contract.

Orchard Park Neighbourhood Integrated Service Centre

General

The Council entered a 25 year contract in December 2009 with the Sewell Group to provide a health centre on the Orchard Park Estate. The facility is jointly occupied with the local ICB. The asset and corresponding long term liability were brought onto the Balance Sheet in 2009/10, with effect from the commencement of the contract.

Significant Contractual Information

Significant terms of the arrangement

Monitor performance of the Project Agreement through a significant number of performance standards to ensure the Services are being provided in accordance with the Contract's Payment Mechanism.

Should the Citycare opt to refinance its debts and has obtained the Council's consent, the Council and CHP are entitled to a 50% share of any gains to be split 50/50 between them.

Soft FM costs are not included, and CHP manage these, passing on an appropriate share of the costs to the Council.

Rights to use specified assets

The Authority has the full right of access to the Demise specified within the lease including areas shared with CHP. The Authority has the right to sublet areas of this demise within the terms of the Lease.

Rights to receive specified assets at the end of the concession period

The Lease is with Citycare. The Council is the secondary tenant of the building, Community Health Partnerships (CHP) are the Primary Tenant. The Council has no right to purchase at the termination of the contract.

Renewal and termination options

The contract does not include an option to extend or renew beyond the contractual expiry date. The significant risks that the Council is exposed to under a PFI contract are changes in inflation and changes in demand for the services.

There is provision within the agreement for the termination of the contracts, under certain conditions, by either the Council or by the contractor on Council default, or termination by the Council on contractor default. Compensation payments are payable upon termination and the calculation of these is determined in the contracts.

Extra Care Housing

General

The Council completed the first stage of a 25 year contract in March 2017 with Riverside Group to operate Extra Care Housing facilities at Hall Road in the City of Hull which included 65 new apartments.

In July 2017, the Council completed the second and final stage of the 25 year contract with the Riverside. The second stage introduced an additional 251 apartments.

Significant Contractual Information

Significant terms of the arrangement

Monitor performance of the Project Agreement through a significant number of performance standards to ensure the Services are being provided in accordance with the Contract's Payment Mechanism.

Managing change in relation to future provision of the Services through a Change Protocol as set out in the Contract.

Should Riverside opt to refinance its debts and has obtained the Council's consent, the Council shall be entitled to receive a share of any Refinancing Gain between 50-70% dependant on the value of any refinancing gain.

Rights to use specified assets

The Council may enter any of the schemes to inspect the construction, operation and maintenance of the facilities and to monitor compliance by the Contractor with its obligations. The Council and/or a representative of the Council may use any of the schemes for training or workshop facilities.

The Authority has 100% allocation rights to nominate persons to become Tenants or Occupiers in respect of all Apartments throughout the Contract Period. The Contractor may enter arrangements for third party use, subject to satisfying criteria laid out in the contract.

Rights to receive specified assets at the end of the concession period

At the end of the contract period, the buildings will revert to the Council for nil consideration.

Renewal and termination options

The contract does not include an option to extend or renew beyond the contractual expiry date. The significant risks that the Council is exposed to under a PFI contract are changes in inflation and changes in demand for the services.

There is provision within the agreement for the termination of the contracts, under certain conditions, by either the Council or by the contractor on Council default, or termination by the Council on contractor default. Compensation payments are payable upon termination and the calculation of these is determined in the contracts.

Other rights and obligations

It is anticipated that any staff employed by Riverside or its subcontractors running the schools will have the legal right to transfer over to the Council at the end of the contract.

Payments

The Council makes agreed unitary payments each year to the seven PFI schemes mentioned above for services provided. Where services are not provided or fall short of agreed standards, the Council can reduce the unitary payment by the value of the lost services. Unitary payments are calculated for future years based on an estimated inflation rate of 2.5% per annum. Payments remaining outstanding for the six schemes are as follows:

	Payment for Services	Repayment of Capital Expenditure	Lifetime Replacement Costs	Interest	Total
	£'000	£'000	£'000	£'000	£'000
Payable in 2026/27	6,496	7,084	4,525	6,819	24,924
Payable within two to five years	27,650	36,476	13,547	23,051	100,724
Payable within six to ten years	38,147	56,558	21,709	16,399	132,813
Payable within eleven to fifteen years	15,385	28,981	11,384	2,840	58,590
Payable within sixteen to twenty years	1,418	3,677	4,256	123	9,474
Payable within twenty-one to twenty-five years	-	-	-	-	-
	89,096	132,776	55,421	49,232	326,525

Although the payments made to the contractor are described as unitary payments, they have been calculated to compensate the contractor for the fair value of the services they provide, the capital expenditure incurred and interest payable whilst the capital expenditure remains to be reimbursed.

The liability outstanding to pay the contractor for capital expenditure incurred is as follows:

2024/25		2025/26
£'000		£'000
137,161	Balance outstanding at start of year	140,923
11,103	Opening Balance Adjustment	-
148,264	Adjusted Opening balance	140,923
(7,341)	Payments during the year	(8,084)
-	Capital expenditure incurred in the year	-
-	Remeasurement of liability	(63)
-	Other movements	-
140,923	Balance outstanding at year end	132,776

40. Impairment Losses and Other Revaluation Movements

Hull City Council Property Services led a review of assets subject to impairment due to consumption of economic benefit. A number of assets were identified for review, but no impairment was required except for Housing Regeneration assets and Council Dwellings.

The significant assets which were subject to a spend review and subsequently reduced in value and other revaluation movements are as follows:

2024/25		2025/26
£'000		£'000
72,006	Capital spend not adding value (HRA)	88,732
72,006	Total Revaluation movements	88,732

41. Capitalisation of Borrowing Costs

Borrowing costs are interest and other costs that the Council incurs in connection with the borrowing of funds. A qualifying asset is an asset that necessarily takes a substantial period of time to get ready for its intended use or sale. Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset form part of the cost of that asset.

The Council will begin capitalising borrowing costs as part of the cost of a qualifying asset on the commencement date. The commencement date for capitalisation is when the Council first meets all of the following conditions:

- It incurs expenditures for the asset
- It incurs borrowing costs, and
- It undertakes activities that are necessary to prepare the asset for its intended use or sale

The Council will cease capitalising borrowing costs when substantially all the activities necessary to prepare the qualifying asset for its intended use or sale are complete.

The Council has capitalised borrowing costs during the financial year. The amount of borrowing costs capitalised in 2025/26 is as follows;

	2019/20	2020/21	2021/22	2022/23	2023/24	2024/25	2025/26
2019/20

Amount (£'000)							1,369
Total	313	517	574	1,116	2,030	2,016	3,107

42. Pension Schemes Accounted for as Defined Contribution Schemes***Teachers' Pension Scheme***

Teachers employed by the Council are members of the Teachers' Pension Scheme. Administered by the Department for Education, it provides teachers with defined benefits upon their retirement and the Council contributes towards the costs by making contributions based on a percentage of members' pensionable salaries.

In 2025-26 the Council paid £2.246m in respect of teachers' pension costs representing a contribution rate of 23.68%. In 2024-25 the Council paid £2.264m representing a contribution rate of 23.68%. It is estimated in 2026/27 the council will pay £1.209m in contributions. In addition, the Council is responsible for the pension payments relating to added years' benefits previously awarded.

The scheme is a defined benefit scheme, but it is not possible for the Council to identify a share of the underlying liabilities in the scheme attributable to its own employees, therefore for the purposes of the Statement of Accounts it is accounted for on the same basis as a defined contribution scheme.

NHS Staff Pension Scheme

During 2013-14, NHS Staff transferred to the Council. These staff maintained their membership in the NHS Pension Scheme. The Scheme provides staff with specified benefits upon their retirement and the Council contributes towards the costs by making contributions based on a percentage of members' pensionable salaries.

The scheme is an unfunded defined benefit scheme. However, the Council is not able to identify its share of the underlying financial position and performance of the Scheme with sufficient reliability for accounting purposes. For the purposes of this Statement of Accounts, it is therefore accounted for on the same basis as a defined contribution scheme.

In 2025-26, the Council paid £0.025m to the NHS Pension Scheme in respect of former NHS staff retirement benefits, representing 14.38% of pensionable pay. In 2024-25, the Council paid £0.024m, representing 14.38% of pensionable pay. There were no contributions remaining payable at the year end. It is estimated in 2026/27 the council will pay £0.035m in contributions.

43. Defined Benefit Pension Schemes***Local Government Pension Scheme***

As part of the Council's terms and conditions of employment, retirement benefits are offered to its non-teaching employees through the East Riding of Yorkshire Council's pension scheme (the Local Government Pension Scheme) which provides members with defined benefits related to pay and service. This is a funded final salary scheme to which both the Council and its employees pay contributions calculated at a level intended to balance the pension liabilities with investment assets. The contribution rate is determined by the County Fund's Actuary based on triennial valuations, and under Pension Fund Regulations the contribution rates are set to meet 100% of the overall liabilities of the fund.

The latest triennial valuation was as at the 31 March 2025 and the Actuary indicated a net contribution rate of 14.5% of contributing members from 1 April 2026. This rate will apply until 2028/29.

The tables below reflect the combined positions of Hull City Council, Hull Culture and Leisure Limited and Kingstown Works Limited – see accounting policy ix – Employee Benefits – The Local Government Pension Scheme.

2024/25		2025/26

58,980	Benefits paid	67,129
-	Settlements	2,101
(1,256,537)	Closing balance at 31 March	(1,464,390)

* It is estimated in 2026/27 the council will pay £23.654m in contributions.

Pension Assets and Liabilities Recognised in the Balance Sheet

The amount included in the Balance Sheet arising from the Council's obligation in respect of its defined benefit scheme is as follows:

2024/25		2025/26
£'000		£'000
1,673,374	Fair value of employer assets	2,103,845
(1,220,399)	Present value of funded liabilities	(1,431,141)
(36,138)	Present value of unfunded liabilities	(33,249)
(499,139)	Asset Ceiling Adjustment	(672,704)
(82,302)	*	(33,249) *

* The Balance Sheet entry for Other Long Term Liabilities at 31 March 2026 includes £0.101m of outstanding mortgages and £0.567m in relation to Lease Liabilities. (2024/25 total of £82.966m includes £0.097m of outstanding mortgages and £0.567m in relation to Lease Liabilities).

Asset Ceiling

Following the pensions valuation by the Councils actuary, Hymans Robertson LLP, the Council determined that the fair value of its pension plan assets outweighed the present value of the plan obligations at 31 March 2026 resulting in a pension plan asset. IAS19 Employees Benefits requires that, where a pension plan asset exists, it is measured at the lower of:

- The surplus in the defined benefit plan; and
- The asset ceiling.

The asset ceiling is the present value of any economic benefits available in the form of refunds from the plan or reduction in future contributions to the plan. The Council's actuary calculated the asset ceiling as the net present value of future service costs less net present value of future contributions.

The Council has therefore limited the Pension asset recognised in its balance sheet to the asset ceiling. The adjustment has been recognised within other comprehensive income and expenditure of the CIES.

Asset Ceiling Adjustment Reconciliation

<u>2024/25</u>		<u>2025/26</u>
<u>£'000</u>		<u>£'000</u>
268,411	Opening Effect of Asset Ceiling	499,139
12,875	Interest on the effect of Asset Ceiling	28,930
217,853	Changes on the effect of Asset Ceiling	144,635
<u>499,139</u>	Effect of Asset Ceiling at 31 March	<u>672,704</u>

Actuarial Confirmation

In June 2023 the High Court ruled in the case of Virgin Media Limited v NTL Pension Trustees. The ruling was that certain pension scheme rule amendments were invalid if they were not accompanied by the correct actuarial confirmation. The High Court ruling has since been appealed. In a judgment delivered on 25 July 2024, the Court of Appeal unanimously upheld the decision of the High Court.

The actuarial confirmations for all local government pension scheme (LGPS) amendments have not yet been located. The update received from PwC in July 2024 included the following statement from GAD 'We believe a certificate will have been prepared in respect of the 2008 reforms, but the initial electronic search for this has meant paper files would now need to be retrieved from archive storage to try and locate this'.

On 5 June 2025, the Government announced that it will 'introduce legislation to give affected pension schemes the ability to retrospectively obtain written actuarial confirmation that historic benefit changes met the necessary standards.' Once the legislation has been passed, affected pension schemes will be able to obtain written confirmation from an actuary about the benefit changes that were previously made and apply that confirmation retrospectively without making the plan amendments void, if the changes met the necessary standards.

Given this announcement, it is unlikely that there will be an impact on the LGPS liabilities, however management will continue to monitor developments.

Basis for Estimating Assets and Liabilities

Liabilities have been assessed on an actuarial basis using the projected unit method, an estimate of the pensions that will be payable in future years dependent on assumptions about mortality rates, salary levels, etc. The pension fund liabilities have been assessed by Hymans Robertson LLP, an independent firm of actuaries, based on the latest full valuation of the scheme as at 31 March 2025.

Significant assumptions used by the actuary have been:

31 March 2025		31 March 2026
	Mortality assumptions (in years):	
	- Longevity at 65 for current pensioners:	
20.5	- Men	21.1
23.5	- Women	24
	- Longevity at 65 for future pensioners:	
21.2	- Men	21.9
25	- Women	25.4
	Rate of inflation	
2.80%	Rate of increase in salaries	3.00%
2.80%	Rate of increase in pensions	3.00%
5.80%	Rate for discounting scheme liabilities	6.20%

The estimation of the defined benefit obligations is sensitive to the actuarial assumptions set out in the table above. The sensitivity analyses below based on reasonably possible changes to the assumptions occurring at the end of the reporting period and assumes for each change that the assumption analysed changes while all the other assumptions remain constant. The assumptions in longevity, for example, assume that life expectancy increases or decreases for men and women. In practice this is unlikely to occur, and changes in some of the assumptions may be interrelated. The estimations in the sensitivity analysis have followed the accounting policies for the scheme, i.e. on an actuarial basis using the projected unit cost method. The methods and types of assumptions used in preparing the sensitivity analysis below did not change from those used in 2024/25.

	Approximate % Increase to Employer Liability	Approximate Monetary Amount (£000)
0.1% decrease in Real Discount Rate	2%	21,061
1 year increase in member life expectancy	4%	58,756
0.5% increase in the Salary Increase Rate	0%	988
0.5% increase in the Pension Increase Rate	2%	20,061

Impact on the Council's Cash Flows

The objectives of the scheme are to keep employers' contribution at a constant rate. The Council has agreed a strategy with the scheme's actuary to achieve a funding level of 100% over the next 20 years. Funding levels are monitored on an annual basis. The next triennial valuation is due to be completed on 31 March 2028. The scheme will need to take account of the national changes to the scheme under the Public Pensions Services Act 2013. Under the Act, the Local Government Pension Scheme in England and Wales and the other main existing public service schemes may not provide benefits in relation to service after 31 March 2014 (or service after 31 March 2015 for other main existing public service pension schemes in England and Wales). The Act provides for scheme regulations to be made within a common framework, to establish new career average revalued earnings schemes to pay pensions and other benefits to certain public services.

The weighted average duration of the defined benefit obligation for scheme members is 16 years.

44. Contingent Liabilities***Potential Grant Clawback Arising from the Council Role as Accountable Body***

The Council is acting as the accountable body in respect of a number of grant funded regeneration projects. In the event of any related grant clawback, the Council is therefore liable to fund any excess expenditure incurred. In addition, there are grants received directly by the Council for which there is the potential for grant clawback if grant conditions are not met.

In recent years no clawback has been payable and it is not possible to accurately quantify any future potential payments.

Municipal Mutual Insurance Company

Municipal Mutual Insurance Company (MMI), which provided insurance to the Council until 1992, is in liquidation. The solvency of MMI was largely dependent on the decision of the Supreme Court regarding the employer's liability trigger litigation. The judgement of the Supreme Court was handed down on 28 March 2012. The finding of the Court was that the insurer on risk at the time of negligent exposure to asbestos is liable to pay compensation to an employee who contracts mesothelioma as a result of the exposure.

Significant numbers of outstanding claims are in respect of mesothelioma and MMI's financial position will depend on the number of mesothelioma claims it faces and the cost of those claims in the future. Upon the triggering of the Scheme, the Scheme Administrator set an initial payment percentage of 85% and imposed an initial levy on Scheme Creditors of 15%. The payment percentage was reduced to 75% from 1 April 2016 and an additional 10% Levy was billed at that date. As at 30 June 2025, £220.5 million has been collected from Scheme Creditors via the Levy mechanism (2024: £216.5 million).

The Company reflects the requirement to repay this liability, to the extent that it would otherwise hold surplus reserves. This balance is reported as Other technical provisions, and the balance provided for as at 30 June 2025 was £24.9 million (2024: £24.5 million). The future levy recoverable element of claims outstanding at 30 June 2025, after discounting, is £43.1 million (2024: £46.8 million).

Taking account of historical and future levy/payment percentage deductions, less the provision to repay levy monies, the liabilities of the Company have consequently been reduced by £238.8 million (2024: £238.8 million). Part, or all of these liabilities could become payable to Scheme Creditors if the financial position of the Company improves, and the payment percentage is consequently increased.

The Company has no other material contingent liabilities at 30 June 2025 (2024: £nil).

45. Contingent Assets***Housing Market Renewal Schemes***

The council has an equity loan product that is available to assist our regeneration activities across the city. On redemption of individual loan agreements, a proportion of the principal and any capital gain realised may become repayable to the Council, subject to the fulfilment of liabilities in relation to administration fees due to Places for People Homes Ltd. Any subsequent expenditure from this receipt may be subject to approval of the Homes and Communities Agency.

Development Agreements

The Council has entered into development agreements with partners to develop various sites across the whole city as part of our Housing Growth and Regeneration programmes. In the event of any of the individual sites achieving overall profit an overage may become payable to the Council. On some subsequent expenditure on specific schemes from this receipt may be subject to approval of the Homes and Communities Agency.

It is currently not practical to assess or estimate the potential capital gains or clawback which may become due to the Council if circumstances change which result in cash inflows.

46. Nature and Extent of Risks Arising from Financial Instruments

Key risks

The Council's activities expose it to a variety of financial risks. These risks are:

- Credit risk – the possibility that other parties might fail to pay amounts due to the Council.
- Liquidity risk – the possibility that the Council might not have funds available to meet its commitments to make payments.
- Re-financing risk – the possibility that the Council might be requiring to renew a financial instrument on maturity at disadvantageous interest rates or terms.
- Market risk – the possibility that financial loss might arise for the Council as a result of changes in such measures as interest rates movements.

Overall procedures for managing risk

The Council's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the resources available to fund services. The procedures for risk management are set out through a legal framework based on the Local Government Act 2003 and associated regulations. These require the Council to comply with the CIPFA Prudential Code, the CIPFA Code of Practice on Treasury Management in the Public Services and investment guidance issued through the Act. Overall, these procedures require the Council to manage risk in the following ways:

- By formally adopting the requirements of the CIPFA Treasury Management Code of Practice;
- By the adoption of a Treasury Policy Statement and treasury management clauses within its financial regulations/standing orders/constitution;
- By approving annually in advance prudential and treasury indicators for the following three years limiting:
 - The Council's overall borrowing;
 - Its maximum and minimum exposures to fixed and variable rates;
 - Its maximum and minimum exposures to the maturity structure of its debt;
 - Its maximum annual exposures to investments maturing beyond a year.
- By approving an investment strategy for the forthcoming year setting out its criteria for both investing and selecting investment counterparties in compliance with Government guidance;

These are required to be reported and approved at or before the Council's annual Council Tax setting budget or before the start of the year to which they relate. These items are reported with the annual treasury management strategy which outlines the detailed approach to managing risk in relation to the Council's financial instrument exposure. Actual performance is also reported after each year, as is a mid-year update.

The annual treasury management strategy for 2025/26 which incorporates the prudential indicators was approved by Council on 27/02/25 and is available on the Council website. The key issues within the strategy were:

- The Authorised Limit for 2025/26 was set at £1,116m, revised to £1,223m as part of the mid-year review. This is the maximum limit of external borrowings or other long term liabilities.
- The Operational Boundary was expected to be £1,028m, revised to £1,131m as part of the mid-year review. This is the expected level of debt and other long term liabilities during the year.
- The maximum amounts of fixed and variable interest rate exposure were set based on the Council's net debt.
- The maximum and minimum exposures to the maturity structure of debt.

Risk Management is carried out by a central treasury team, under the policies approved by the Council in the annual treasury management strategy. The Council maintains written principles for overall risk management, as well as written policies (Treasury Management Practices – TMPs)

covering specific areas, such as interest rate risk, credit risk, and the investment of surplus cash. These TMPs are a requirement of the Code of Practice and are reviewed periodically.

Credit risk

Credit risk arises from deposits with banks and financial institutions, as well as credit exposures to the Council's customers.

This risk is minimised through the Annual Investment Strategy, which requires that deposits are not made with financial institutions unless they meet identified minimum credit criteria, in accordance with the Fitch, Moody's and Standard & Poors Credit Ratings Services. The Annual Investment Strategy also considers maximum amounts and time limits in respect of each financial institution. Deposits are not made with banks and financial institutions unless they meet the minimum requirements of the investment criteria outlined above. Additional selection criteria are also applied after this initial criteria is applied. Details of the Investment Strategy can be found on the Council's website.

The Council does not apply normal commercial principles to credit risk its customers but follows the following principles in regard to making deposits with banks and building societies. Customers for goods and services are assessed, taking into account their financial position, past experience and other factors, with individual credit limits being set in accordance with internal ratings with parameters set by the Council.

The Treasury Management Policy for 2025/26 was approved by Council on 27th February 2025. The following paragraphs are based on the approved Treasury Management Policy.

The primary principle governing the Council's investment criteria is the security of its investments, although the yield or return on the investment is also a key consideration. After this main principle the Council will ensure that.

- It maintains a policy covering both the categories of investment types it will invest in, criteria for choosing investment counterparties with adequate security, and monitoring their security. This is set out in the Specified and Non-Specified investment sections below; and
- It has sufficient liquidity in its investments. For this purpose, it will set out procedures for determining the maximum periods for which funds may prudently be committed. These procedures also apply to the Council's prudential indicators covering the maximum principal sums invested.

The Executive Director of Corporate Resources will maintain a counterparty list in compliance with the following criteria and will revise the criteria and submit them to Council for approval as necessary. These criteria are separate to that which determines which types of investment instrument are either Specified or Non-Specified as it provides an overall pool of counterparties considered high quality which the Council may use, rather than defining what types of investment instruments are to be used.

The rating criteria use the lowest common denominator method of selecting counterparties and applying limits. This means that the application of the Council's minimum criteria will apply to the lowest available rating for any institution. For instance, if an institution is rated by two agencies, one meets the Council's criteria, the other does not, the institution will fall outside the lending criteria. This is in compliance with a CIPFA Treasury Management Panel recommendation in March 2009 and the CIPFA Treasury Management Code of Practice.

Credit rating information is supplied by MUFG Corporate Markets Treasury Ltd, the Council's treasury consultants, on all active counterparties that comply with the criteria below. Any counterparty failing to meet the criteria would be omitted from the counterparty (dealing) list. Any rating changes, rating watches (notification of a likely change), rating outlooks (notification of a possible longer term change) are provided to officers almost immediately after they occur and this information is considered before dealing. For instance, a negative rating watch applying to a counterparty at the minimum Council criteria will be considered for suspension from use, with all others being reviewed in light of market conditions.

On occasions ratings may be downgraded when an investment has already been made. The criteria used are such that a minor downgrading should not affect the full receipt of the principal and interest.

The criteria for providing a pool of high quality investment counterparties (both specified and non-specified investments) is as follows:

- Banks 1 – a good credit quality – the Council will only use banks which:
 - are UK banks only,
 - and have, as a minimum, the following Fitch credit ratings:
 - Short term – F1
 - Long term – A-
- Banks 2 – part nationalised UK bank – Royal Bank of Scotland. This bank can be included if they continue to be part nationalised or they meet the rating in Banks 1 above.
- Banks 3 – The Council's own banker (Natwest Bank) for transactional purposes if the bank falls below the above criteria, although in this case balances will be minimised in both monetary size and time.
- Bank subsidiary and treasury operation – The Council will use these where the parent bank has provided an appropriate guarantee or has the necessary ratings outlined above.
- Building societies – The Council will use all societies which meet the ratings for banks as outlined above.
- Money Market Funds – AAA rating.
- UK Government (DMADF)
- Local authorities.

Due care will be taken will be taken to consider the group exposure of the Council's investments. In addition, limits in place above will apply to a group of companies.

Additional requirements under the Code require the Council to supplement credit rating information. Whilst the above criteria relies primarily on the application of credit ratings to provide a pool of appropriate counterparties for officers to use, additional operational market information will be applied before making any specific investment decision from the agreed pool of counterparties. This additional market information (for example Credit Default Swaps, negative rating watches/outlooks) will be applied to compare the relative security of differing investment counterparties.

The time and monetary limits for institutions on the Council's counterparty list are as follows (these will cover specified and non-specified investments):

- Only UK Banks
- Banks and building societies with a minimum rating of F1+ /AA- to have a limit of £30m (part nationalised banks £40m), with an investment period of up to 1 year
- Banks and building societies with a minimum rating of F1/A to have a limit of £20m (part nationalised banks £25m), with an investment period of up to 1 year
- Banks and building societies with a minimum rating of F1/A- to have a limit of £10m (part nationalised banks £15m), with an investment period of up to 1 year
- Council's own banker (if not meeting the above criteria) to have a limit of £5m, with an investment limit of 1 day
- UK Government (DMADF) to have an unlimited limit, with an investment period of up to 6 months
- Local Authorities to have a limit of £15m per authority, with an investment period of up to 1 year
- Money Market Funds to have a limit of £15m per fund, with an investment period of up to 1 year (liquid funds).

Given the overriding objective of maintaining the security of the Council's cash it is currently not considered feasible or advantageous to invest in alternative non-bank deposits i.e. government gilts, treasury bonds, given the nature and volatility of these tradeable investments, and given the previous poor performance of external fund managers.

The Council applies the creditworthiness service provided by MUFG. This service employs a sophisticated modelling approach utilising credit ratings from the three main credit rating agencies - Fitch, Moodys and Standard and Poors. The credit ratings of counterparties are supplemented with the following overlays:

- Credit watches and credit outlooks from credit rating agencies;
- Credit Default Swap (CDS) spreads to give early warning of likely changes in credit ratings
- Sovereign ratings to select counterparties from only the most creditworthy countries.

Credit Default Swap (CDS) is a contract between two counterparties, which basically gives protection, or insurance, in case of credit default. The payments involved in the contract are based on a spread currently traded in the market. The spread of CDS indicates the market perception of the likelihood of a credit event or default occurring. The higher the spread the more likely the market considers an event of default will occur.

This modelling approach combines credit ratings, credit watches and credit outlooks in a weighted scoring system which is then combined with an overlay of CDS spreads for which the end product is a series of colour coded bands which indicate the relative creditworthiness of counterparties. These colour codes are used by the Council to determine the duration for investments. The Council will therefore use counterparties within the following durational bands:

- | | |
|-------------|---|
| • Blue | 1 year (only applies to nationalised or semi-nationalised UK banks) |
| • Orange | 1 year |
| • Red | 6 months |
| • Green | 100 days |
| • No colour | Not to be used |

MUFG creditworthiness service uses a wider array of information than just primary ratings and by using a risk weighted scoring system, does not give undue preponderance to just one agency's ratings. The Council is satisfied that this service now gives a much improved level of security for its investments. It is also a service which the Council would not be able to replicate using in house resources.

Typically, the minimum credit ratings criteria the Council use will be a short term rating (Fitch or equivalents) of short term rating F1, long term rating A-. There may be occasions when the counterparty ratings from one rating agency are marginally lower than these ratings but may still be used. In these instances, consideration will be given to the whole range of ratings available, or other topical market information, to support their use.

All credit ratings will be monitored on a weekly basis. The Council is alerted to changes to ratings of all three agencies through its use of the Capita creditworthiness service.

- If a downgrade results in the counterparty / investment scheme no longer meeting the Council's minimum criteria, its further use as a new investment will be withdrawn immediately.
-
- In addition to the use of credit ratings the Council will be advised of information in movements in Credit Default Swap against the iTraxx benchmark and other market data on a weekly basis. Extreme market movements may result in downgrade of an institution or removal from the Council's lending list.

Sole reliance will not be placed on the use of this external service. In addition, this Council will also use market data and market information, information on government support for banks and the credit ratings of that supporting government.

If financial institutions are upgraded in rating and therefore meet the Council's criteria as defined, then committee approval will be sought prior to inclusion on the counterparty list.

The Council's maximum exposure to credit risk in relation to its investments in banks and building societies cannot be assessed generally as the risk of any institution failing to make interest payments or repay the principal sum will be specific to each individual institution. Recent experience has shown that it is rare for such entities to be unable to meet their commitments. A risk of irrecoverability applies to all of the Council's deposits, but there was no evidence as at the 31 March 2026 that this was likely to crystallise.

The following analysis summarises the Council's potential maximum exposure to credit risk on other financial assets, based on experience of default and adjusted to reflect current market conditions. The amounts have not been subject to impairment in 2025/26, however, the Council has made provision to reflect the potential non-collection of some of the customer related debt. The amounts relating to customer debt have been adjusted to reflect the provision made.

Amount		Amount
31 March 2025		31 March 2026
£'000		£'000
	Deposits rated	
26,909	AAA	15,043
-	AA	14,735
(9,074)	A	-
-	BBB	-
-	N/A	349
23,883	Customers *	30,309
41,718	Total	60,436

* Note – excludes statutory debtors such as Council Tax / NNDR

No breaches of the Council's counterparty criteria occurred during the reporting period and the Council does not expect any losses from non-performance by any of its counterparties in relation to deposits and bonds.

The Council does not generally allow credit for customers.

Collateral – During the reporting period the Council held no collateral as security.

Liquidity risk

The Council manages its liquidity position through the risk management procedures above (the setting and approval of prudential indicators and the approval of the treasury and investment strategy reports), as well as through a comprehensive cash flow management system, as required by the CIPFA Code of Practice. This seeks to ensure that cash is available when needed.

The Council has ready access to borrowings from the money markets to cover any day to day cash flow need, and the PWLB and money markets for access to longer term funds. The Council is also required to provide a balanced budget through the Local Government Finance Act 1992, which ensures sufficient monies are raised to cover annual expenditure. There is therefore no significant risk that it will be unable to raise finance to meet its commitments under financial instruments. The maturity analysis of financial assets is as follows:

Maturity analysis of financial assets, excluding sums due from customers

31 March 2025		31 March 2026
£'000		£'000
17,835	Less than one year	30,127
-	Between one and two years	-
-	Between two and three years	-
-	More than three years	-
17,835	Total	30,127

Refinancing and Maturity Risk

The Council maintains a significant debt and investment portfolio. Whilst the cash flow procedures above are considered against the refinancing risk procedures, longer-term risk to the Council relates to managing the exposure to replacing financial instruments as they mature. This risk relates to both the maturing of longer term financial liabilities and longer term financial assets.

The approved treasury indicator limits for the maturity structure of debt and the limits placed on investments placed for greater than one year in duration are the key parameters used to address this risk. The Council approved treasury and investment strategies address the main risks and the central treasury team address the operational risks within the approved parameters. This includes:

- Monitoring the maturity profile of financial liabilities and amending the profile through either new borrowing or the rescheduling of the existing debt; and
- Monitoring the maturity profile of investments to ensure sufficient liquidity is available for the Council's day to day cash flow needs, and the spread of longer term investments provide stability of maturities and returns in relation to the longer term cash flow needs.

The maturity analysis of financial liabilities is as follows:

Maturity analysis of financial liabilities

31 March 2025		31 March 2026	
£'000		£'000	
204,002	Less than one year	268,623	
69,774	Between one and two years	97,064	
105,559	Between two and five years	186,454	
96,925	Between five and ten years	80,547	
46,111	Between ten and fifteen years	38,622	
398,251	More than fifteen years	394,198	
920,622	Total	1,065,508	

* Note – The above maturity analysis is adjusted to reflect the callable dates of market debt, as required by the Treasury Management Code of Practice.

Market Risk

Interest rate risk

The Council is exposed to risk in terms of its exposure to interest rate movements on its borrowings and investments. Movements in interest rates have a complex impact on the Council, depending on how variable and fixed interest rates move across differing financial instrument periods. For instance, a rise in variable and fixed interest rates would have the following effects.

- Borrowings at variable rates – the interest expense charged to the Comprehensive Income and Expenditure Account will rise.
- Borrowings at fixed rates – the fair value of the liabilities borrowing will fall (no impact on revenue balances).
- Investments at variable rates – the interest income credited to the Comprehensive Income and Expenditure Account will rise.
- Investments at fixed rates – the fair value of the assets will fall (no impact on revenue balances).

Borrowings are not carried at fair value on the balance sheet, so nominal gains and losses on fixed rate borrowings would not impact on the Surplus or Deficit on the Provision of Services or Other Comprehensive Income and Expenditure. However, changes in interest payable and receivable on variable rate borrowings and investments will be posted to the Surplus or Deficit on the Provision of Services and affect the General Fund Balance, subject to influences from Government grants (i.e. HRA). Movements in the fair value of fixed rate investments that have a quoted market price will be reflected in the Other Comprehensive Income and Expenditure Statement.

The Council has a number of strategies for managing interest rate risk. The Annual Treasury Management Strategy draws together Council's prudential and treasury indicators and its expected treasury operations, including an expectation of interest rate movements. From this Strategy a treasury indicator is set which provides maximum limits for fixed and variable interest rate exposure. The central treasury team will monitor market and forecast interest rates within the year to adjust exposures appropriately. For instance, during periods of falling interest rates, and where economic circumstances make it favourable, fixed rate investments may be taken for longer periods to secure better long term returns, similarly the drawing of longer term fixed rates borrowing would be postponed.

According to this assessment strategy, at 31 March 2026, if interest rates had been 1% higher with all other variables held constant, the financial effect would be:

<u>31 March 2025</u>		<u>31 March 2026</u>
£'000		£'000
1,394	Increase in interest payable on variable rate borrowings	1,882
(540)	Increase in interest receivable variable rate investments	(759)
-	Increase in government grant receivable for financing costs	-
<u>854</u>	Impact on Surplus or Deficit on the Provision of Services	<u>1,123</u>
-	Decrease in fair value of fixed rate investment assets	-
<u>-</u>	Impact on Other Comprehensive Income and Expenditure	<u>-</u>
<u>32,857</u>	Decrease in fair value of fixed rate borrowings liabilities (no impact on the Surplus or Deficit on the Provision of Services or Other Comprehensive Income and Expenditure)	<u>32,273</u>

Price Risk

The Council does not invest in equity shares or marketable bonds and thus has no exposure to losses arising from movements in the prices of shares.

Foreign Exchange Risk

The Council has no financial assets or liabilities denominated in foreign currencies and thus has no exposure to loss arising from movements in exchange rates.

47. Heritage Assets: Further information on the Museum's Collections

Hull Museums

Large parts of the collections at Hull Museums are of national and even global significance. Some are of such importance that they have been granted National Designated status, meaning they are recognised by the Government as being of very high cultural and historic importance when compared with other museum collections across the country. These include the prehistoric objects at Hull & East Riding Museum, slavery, maritime and early vehicle collections. Overall, they are outstanding for a local authority museum service and as such, reflect the status of Hull's Museum service in the UK.

The value of the museum collections is closely linked with the standards of collections management across the service. It is essential that there are enough qualified staff and resources to provide adequate care for the objects in the long-term. Items can quickly deteriorate through poor environment, unsuitable storage conditions, inadequate security or unsuitable display methods. The documentation of the collections is on-going and is slowly improving the information kept about each object. The value of an item is often associated with its provenance (artist/connection to a historical event/previous owner) and we are uncovering these links as we document, meaning objects where previously no provenance had been identified, have increased in value through research.

The values are held at historical cost. The museum service does not have the resources to be able to value the collections in any detail, as this is an enormous undertaking with 173,902 items on the database and still with a large number to document.

Hull and East Riding Museum

The Archaeology Collections of Hull Museums are regarded as one of the foremost in the country. The founder collection is that of the 19th century archaeologist, J. R. Mortimer, encompassing Neolithic, Bronze Age and Anglo-Saxon grave-goods, derived from 360 barrows on the Yorkshire Wolds. The finds are accompanied by Mortimer's detailed site records.

The prehistory of the region is also represented by the world-famous objects including the Roos Carr figures, the group of early Bronze Age boats from North Ferriby and the Iron Age Hasholme Boat. Material from the 'Arras Culture' cemetery, and settlement at Garton/Wetwang, are in constant demand by researchers from around the world.

From the Roman period come the stunning mosaics from Rudston and Brantingham, together with archives from recent large-scale projects such as the roadside settlements at Shiptonthorpe and Hayton. Nationally important collections from the medieval period include the Anglo-Saxon cremation cemetery at Sancton and archives from urban excavations in Hull and Beverley.

There is a large collection of natural history specimens, including mounted birds and animals, insects, shells and geology.

Collection covers:

Archaeology:

- Palaeolithic, Mesolithic, Neolithic, Bronze Age and Iron Age
- Roman
- Anglo-Saxon
- Medieval and Post-Medieval
- Eastern Mediterranean
- Numismatics

Natural History:

- Coleoptera
- Lepidoptera
- Birds – mounted and non-mounted
- Birds eggs
- Mammals – mounted and un-mounted
- Mammals – heads (mounted)
- Herbaria
- Conchology
- Fishes – mounted

Geology:

- Palaeontology
- Petrology
- Mineralogy
- Hull University Collection – mixed

Hands on History Museum

Housed in the Old Grammar School which dates back to 1583, this collection comes under the heading of both social history and archaeology. There is a large general collection of social history items mainly dating from the 20th century, with some 19th century additions. These items are used to tell the story of Hull people and as a visual resource for school groups. The replica furniture from the tomb of Tutankhamun made in 1922 after the discovery of the tomb in Egypt is unique and can be seen displayed on the first floor.

There is a large costume, doll and textile collection stored at the Museum, many of national importance, such as the Madam Clapham items which were made in Hull, and William Wilberforce's clothes. Many are 19th century, some 20th century and a few very early examples.

Collection covers:

- Social History
- Dolls
- Costume and textiles
- Egyptology

Maritime Museum

Based in the city's Victorian Dock Offices, Hull's Maritime Museum houses collections relating to both Hull's and the country's maritime history. Its key collection is its internationally significant whaling collection, which includes natural history specimens, a North Atlantic Whale Skeleton, whaling tools, log books and what is believed to be the largest collection of scrimshaw outside the U.S.

Other key collections include: maritime art, including work by artists of national significance such as John Ward, Henry Redmore and Harry Hudson Rodmell, (who painted scenes for famous shipping posters); ship models; items linked to the Wilson Line; collections relating to Hull's Trinity House; items linked to Hull's docks and merchant shipping; items linked to Hull's fishing industry; Inuit material from the 18th and 19th centuries; early navigation equipment; and an extensive photographic collection including the Cartlidge collection.

Collection covers:

- Whaling
- Fishing
- Merchant Shipping
- Maritime History
- Maritime Community History
- Maritime Art

The Maritime Museum is currently closed while it is undergoing a major refurbishment as part of the investment in museums scheme, it is scheduled to reopen in summer 2026.

Streetlife Museum

The Streetlife Museum of Transport tells a unique story of two hundred years of transport history and its social impact. The collection can be traced back to 1923 and the vision of Hull's first curator, Thomas Sheppard. Respected widely, he was instrumental in founding what is considered to be the first publicly-owned transport collection in the country. The early years of the collection included acquisition of ten veteran cars from the private Motor Museum in Knightsbridge and a selection of horse-drawn carriages from families and businesses in East Yorkshire.

The collection includes a State Coach from 1860 owned by the Duke of Yarborough, an 1820 Britzschka, used on the Grand Tour, an 1895 Wagonette-Brake and a rare three-wheeled Hansom cab, reportedly used by King Edward VII. There are examples from the earliest days of motoring with cars propelled by steam, electricity and petrol. Also included are an 1899 English Daimler, previously owned by George Cadbury, and a very rare 1898 Panhard et Levassor Motor Wagonette; an example of the first car model to be built as a car, rather than a converted horse-drawn carriage. There are extensive collections of public transport, including three trams and three buses.

Collection covers:

- Bicycles
- Horse-drawn carriages
- Motorcycles

- Motor cars
- Public transport
- Railways
- Equine material
- Aviation
- Street furniture

Guildhall Collection

The collection reflects the corporate and local history of Hull, of particular significance is its collection of silver, with key pieces dating from the 17th century through to the modern day.

Collection covers:

- Paintings
- Sculpture
- Prints
- Ceramics
- Glass
- Silver
- Furniture
- Photographs
- Hull Tapestry
- Associated ephemera

Historical Buildings

Wilberforce House Museum

During its history, the house has been a private home, a bank and a commercial office for a seed and cake merchant. Bought by Hull Corporation in 1903, the museum reflects the lasting legacy of its most famous resident, William Wilberforce, the slave-trade abolitionist. Wilberforce was born in the house on 24 August 1759.

Highlights of the collection include the personal diary of William Wilberforce, written between the years 1814 – 1823, two hundred letters written by William Wilberforce, Wilberforce's personal library, the Brookes ship model used by Wilberforce during the Parliamentary committees in the late eighteenth century, items relating to the East Yorkshire Regiment, and a large collection of drawings by the important local artist F. S. Smith showing early twentieth century scenes of Hull and the surrounding area.

Collection covers:

- Wilberforce archives, collections and library
- Anti-slavery collections
- Ethnography
- Black, minority, ethnic and community history
- Ceramics
- Fine art
- Hull and East Riding clock collection
- Hull furniture
- Hull silver

Historical Vessels

Spurn Lightship

The Spurn Lightship (LV No. 12) is a light vessel (ie. a ship used as a lighthouse) currently anchored in Hull Marina. The ship was built in 1927 and served for 48 years as a navigation aid in the approaches of the Humber Estuary, where it was stationed 4½ miles east of Spurn Point. The light ship was decommissioned in 1975 and bought and restored by Hull City Council in 1983

before being moved to Hull Marina as a museum in 1987. Following a 14-month restoration, the Spurn Lightship returned to Hull Marina on 9 March 2023, and moved to its new, permanent berth on Hull Marina on Tuesday 27 February 2024.

Collection covers:

- Objects and archives relating to the Spurn Lightship No. 12
- Personal histories of people relating to the Spurn Lightship
- Display items which enhance the historic context of the ship

Arctic Corsair

The Arctic Corsair is the last survivor of Hull's massive 'Sidewinder' trawling fleet. Built in Beverley by Cook, Welton and Gemmell in 1960 for the Boyd Line, in 1973 the Arctic Corsair broke the world record for the landing of Cod and Haddock from the White Sea. The extension of Iceland's fishing limits to 200 miles in 1975 saw the Arctic Corsair involved in the cod wars, during which she was rammed by an Icelandic gun boat. The Arctic Corsair was converted to Pelagic fishing in 1978 before being laid up in Hull's St. Andrews Dock in 1981. In 1985 she was converted back to conventional fishing and made a record breaking return to trawling. However, by 1988 she was again laid up in dock. Her registration was closed and she was renamed the Arctic Cavalier.

After lying idle in Hull for 5 more years the ship was purchased by Hull City Council in 1993 and renamed the Arctic Corsair once more. The Arctic Corsair moved from its original location for the first time in 20 years on Sunday 4 August 2019 to allow for flood prevention works along the River Hull. It is currently being restored by Dunston's Ship Repairs in Hull and expected to open to visitors at the North End Shipyard in 2026.

North End Shipyard

The North End Shipyard is currently undergoing major refurbishment, and a new bespoke visitor centre will be situated alongside the dock. Offering increased access to the Arctic Corsair, the Passivhaus building will be one of the most energy efficient in the cultural sector. It will contain classroom and specialist exhibition space and celebrate the history and significance of the area in the maritime story of Hull's Old Town. It is expected to open in 2026.

Statues and Monuments

The Council has a number of statues and monuments located across the city.

City Hall Organ

The City Hall organ was built by the Hull firm of Foster and Andrews in March 1911.

Further information on assets held within the Museums Collections and how to access these collections can be obtained from the Council's website, www.hulcc.gov.uk/museumcollections.

48. Trust Funds

The Council acts as trustee for various bequests and charitable funds as summarised below. The assets belong to the trustees, are held in trust and do not belong to the Council. As such, they are not included in the principal statements of the Council.

Funds for which Kingston Upon Hull City Council acts as sole trustee:

2025/26	Income	Expenditure	Assets	Liabilities
	£'000	£'000	£'000	£'000
The Ferens Art Gallery	47	285	118,995	7
Set up in 1919 for the exhibition of works of art in perpetuity				
The Ferens Endowment Fund	339	138	10,415	45
A proportion of its income contributes towards the upkeep of the Ferens Art Gallery building, whilst the balance of the income is used to purchase exhibits.				
Other	9	7	10,652	-
The other trusts are mainly for the wellbeing of the inhabitants of the City of Kingston upon Hull.				
Total as at 31 March 2026	395	430	140,062	52

2024/25

	Income	Expenditure	Assets	Liabilities
	£'000	£'000	£'000	£'000
The Ferens Art Gallery	84	312	115,973	5
The Ferens Endowment Fund	242	169	9,398	42
Other	8	5	10,479	-
Total as at 31 March 2025	334	486	135,850	47

Other funds which the Council has an interest:

2024/25		2025/26
£'000		£'000
	Capital Value of the Fund

HRA INCOME AND EXPENDITURE STATEMENT

The HRA Income and Expenditure Statement shows the economic cost in the year of providing housing services in accordance with generally accepted accounting practices, rather than the amount to be funded from rents and government grants. Authorities charge rents to cover expenditure in accordance with the legislative framework and this may be different from the accounting cost. The increase or decrease in the year, on the basis upon which rents are raised, is shown in the Movement on the Housing Revenue Account Statement.

2024/25		Note	2025/26
£'000			£'000

Additions	72,601	-	245	-	-	-	72,846
Transfers	-	-	-	-	-	-	-
At 31 March 2025	846,370	1,239	416	1,370	669	63	850,127

For dwelling depreciation, the Council uses calculated charges based on componentised elements of the housing stock in line with the requirements of the Code of Practice.

Other revaluation movements of £88.732m (2024/25 £72.006m) have been charged to the HRA for the loss in value to the housing stock for those dwellings earmarked for demolition during the year and Capital expenditure not adding value.

2. Vacant Possession Values

The valuation of Council dwellings reflects their status as social housing and as a consequence, the Council recognises Council dwellings at a value of £847.056m (2024/25 £846.370m) on the Balance Sheet.

At vacant possession the same dwellings would have a value of £1,628.811m (2024/25 £2,059.178m), therefore recognising an economic cost to the government of providing Council Housing at less than open market rents of £958.946m (2024/25 £1,212.808m).

3. Capital Expenditure and Financing Analysis

2024/25	Expenditure funded by;	2025/26

£'000		£'000
5,334	Arrears at 31 March	5,685
2,208	Provision	2,425

6. Note to the Movement on the HRA Statement

2024/25		2025/26
£'000		£'000
	Items included in the HRA Income and Expenditure Account but excluded from the movement on HRA Balance for the year	
19,955	Difference between any other item of Income and Expenditure determined in accordance with the Code and determined in accordance with statutory HRA requirements	3,575
(86,460)	Transfer to/from Capital Adjustment Account *	(103,762)
(914)	Gain or (loss) on sale of HRA non-current assets	1,216
(3,133)	Net charges for retirement benefits in accordance with IAS19	(3,030)
<u>(70,552)</u>		<u>(102,001)</u>
	Items not included in the HRA Income and Expenditure Account but included in the movement on HRA Balance for the year	
36,387	Transfer to/(from) Major Repairs Reserve	37,277
2,583	Employer's contributions payable to the LGPS Pension Fund	2,915
8,016	Voluntary set aside for debt repayment	11,411
<u>46,986</u>		<u>51,603</u>
<u>(23,566)</u>	Net additional amount required by statute to be debited or (credited) to the HRA Balance for the year	<u>(50,398)</u>

* The transfer to/from Capital Adjustment account line shows the total of all adjustments previously shown separately in previous years accounts. The adjustments include, but are not limited to, charges for depreciation, revaluation losses and impairment charges.

7. Housing Stock

The Council dwelling stock was as follows:

At 31 March 2025		At 31 March 2026
	Analysed by type:-	
17,331	Houses and Bungalows	17,121
2,791	Low rise flats and maisonettes	2,976
2,761	Medium and high rise flats	2,543
-	Other	-
<u>22,883</u>		<u>22,640</u>

8. Contribution to Pension Reserve

The requirements of IAS19 are to show the cost of pensions earned in the year in the cost of service lines, an adjustment to or from the pensions reserve is then required to bring the bottom line charge against rents back to the amount of the employer's contribution to the pension fund in the year. The pension liability for the year is £3.031m (2024/25 £3.133m).

2024/25		2025/26
£'000		£'000
2,729	Current service cost	2,612
-	Past Service Cost	-
2,729		2,612
	Pensions Interest Cost and expected return on assets	
7,798	Interest on Liabilities	9,990
(7,394)	Expected return on assets	(9,572)
3,133	Transfer to pensions reserve	3,030

9. HRA Reserves

As there is a statutory requirement to account for the HRA separately from the remainder of Hull City Council, the accumulated HRA reserve is also recognised separately:

Movements in 2025/26

	General Reserve	Major Repairs Reserve (MRR)	* Future Capital Expenditure	Total
	£'000	£'000	£'000	£'000
At 1 April 2025	3,750	-	22,998	26,748
Transfer of Depreciation to MRR	-	14,234	-	14,234
Contribution to finance capital expenditure for the year	-	23,043	-	23,043
Use of MRR to finance capital expenditure for the year	-	(37,277)	-	(37,277)
Transfer to / (from) reserves to support the HRA revenue programme	-	-	(1,346)	(1,346)
At 31 March 2026	3,750	-	21,652	25,402

Movements in 2024/25

	General Reserve	Major Repairs Reserve (MRR)	* Future Capital Expenditure	Total
	£'000	£'000	£'000	£'000
At 1 April 2024	3,750	-	19,858	23,608
Transfer of Depreciation to MRR	-	14,384	-	14,384
Contribution to finance capital expenditure for the year	-	22,003	-	22,003
Use of MRR to finance capital expenditure for the year	-	(36,387)	-	(36,387)
Transfer to / (from) reserves to support the HRA revenue programme	-	-	3,140	3,140
At 31 March 2025	3,750	-	22,998	26,748

* Reserves set-aside to support the total capital programme for maintaining properties.

COLLECTION FUND STATEMENT

The Collection Fund is an agent's statement that reflects the statutory obligation for billing authorities to maintain a separate Collection Fund. The statement shows the transactions of the billing authority in relation to the collection from taxpayers and distribution to local authorities and the Government of the Council Tax and National Non-Domestic Rates.

In 2013/14 Local Government Finance regime was revised with the introduction of the Retained Business Rates Scheme. The main aim of the scheme is to give Local Authorities greater incentives to grow businesses in the area, as the scheme allows Councils to retain a proportion of the total Business Rates collected. It does, however, also increase the financial risk due to non-collection and the volatility of the NNDR tax base.

The following Statement reflects these changes.

2024/25		2025/26		
Total		Council Tax	Business Rates	Total
£'000		£'000	£'000	£'000
Income				
140,389	Income from Council Tax	148,995	-	148,995

56	Provision for Appeals	-	(634)	(634)
-	- Other Transfers to General Fund (disregarded amounts)	-	-	-
	Distribution of previous year's estimated Collection Fund surplus			
2,452	- Central Government	-	(1,809)	(1,809)
2,033	- Hull City Council	1,629	(1,773)	(144)
(58)	- Police and Crime Commissioner for Humberside	273	-	273
16	- Humberside Fire Authority	95	(36)	59
227,705		150,669	85,166	235,835
(6,308)	Movement on fund balance	(1,674)	2,756	1,082
4,872	Balance brought forward at 1 April 2025	2,715	(4,151)	(1,436)
(1,436)	Balance carried forward at 31 March 2026	1,041	(1,395)	(354)

Note: The total business rates deficit balance (£1.395m) carried forward as at 31 March 2026 relates to the business rates scheme as a whole. Hull City Council's share is 49% which is £0.684m. The remaining share is split between Central Government (50%) and Humberside Fire Authority (1%).

NOTES TO THE COLLECTION FUND STATEMENT

1. Council Tax

Council Tax income derives from charges raised according to the value of residential properties, which have been classified into 9 valuation bands for this specific purpose. Individual charges are calculated by estimating the amount of income required to be taken from the Collection Fund by the Police and Crime Commissioner for Humberside, the Humberside Fire Authority and the Council for the forthcoming year and dividing this by "the council tax base" – the total number of properties in each band adjusted by a proportion to convert the number to a band D equivalent and for discounts.

The Council Tax base for 2025/26 was 66,511 (65,966 in 2024/25) calculated as follows:

Total Number of properties in band	125,714
Impact of changes to Council Tax re: discount/exemptions and empty property	(15,462)
Reduction in Tax Base for Reduction Scheme	(17,745)
Total equivalent number of dwellings	<u>92,507</u>

Band	Chargeable Dwellings	Ratio	Band D Equivalents
Disability A	177	5/9	99
A	55,814	6/9	37,210
B	19,900	7/9	15,478
C	10,244	8/9	9,106
D	4,659	9/9	4,659
E	1,322	11/9	1,615
F	324	13/9	468
G	50	15/9	83
H	17	18/9	34
Total	<u>92,507</u>		<u>68,752</u>
Less allowance for non-collection			(2,241)
Tax Base for the calculation of Council Tax			<u>66,511</u>

The Council's basic amount of Council Tax for a Band D property of £1,784.42 (£1,699.61 for 2024/25) is multiplied by the proportion specified for the particular band to give an individual amount due. Therefore, the total precept and demand used to set the Council Tax for 2025/26 was £118.684m (66,511 dwellings multiplied by £1,784.42). This, plus the agreed distribution of the previous year's surplus of £1.629m gives a total distribution from the Collection Fund to preceptors of £120.313m, compared to income from Council Taxpayers of £148.995m.

2. National Non-Domestic Rates (NNDR)

NNDR is organised on a national basis. As of 1 April 2005, the Government introduced a new category of multiplier for small businesses. Local businesses now pay rates calculated by multiplying their rateable value by their appropriate rate subject to the effects of transitional arrangements.

For 2025/26 these rates are:

National Non-Domestic rating multiplier 55.5p (2024/25 54.6p)
Small Business National Non-Domestic rating multiplier 49.9p (2024/25 49.9p)

The total national non-domestic rateable value at 31 March 2026 increased from £233.852m at 31 March 2025 to £236.978m, of which £82.776m relates to small businesses. The 2023 list of revaluations was introduced on the 1 April 2023. Applying the correspondent rating multipliers gives a gross collectable figure at 31 March 2026 of £126.887m.

The collectable amount is different to the actual income from business ratepayers as per the Collection Fund Statement (£95.417m).

This is because the collectable amount is subject to rateable value changes and refunds over the period and also to several mandatory and discretionary reliefs, such as those applied to premises occupied by charities or those that are empty.

GROUP ACCOUNTS INTRODUCTION

The 2025/26 Code of Practice on Local Authority Accounting in the United Kingdom sets out comprehensive requirements for group accounts. These require Local Authorities to consider all their interests in subsidiaries, associates or joint ventures.

The Council has a relationship with other companies and organisations whose assets and liabilities are not included in the Council's single entity accounts (see Note 36 Related Parties). In the cases where the Council's interest does not extend to a relationship that could be classed as a subsidiary, associate or joint venture, those entities have not been included in the Group Accounts. Where Council interests in other companies do extend to such a relationship but consolidation into Group Accounts would not be materially different to the Council's single entity position, those entities have not been included in the Group Accounts.

Three wholly-owned subsidiaries have been included in the Group Accounts, all companies have a financial year end of 31 March:

1. Hull Culture and Leisure Limited (HCAL).

HCAL was incorporated during the 2014/15 financial year and commenced trading on 1 April 2015. The company's objectives are specifically to provide the following:

- i) Provision of facilities for recreation or other leisure time occupation for the public at large in the interests of social welfare with the object of improving their condition of life;
- ii) Provision of or assistance in the provision of facilities in the interest of social welfare or recreation or other leisure time occupation of individuals who have need of such facilities by reason of their youth, age, infirmity or disability, financial hardship or social circumstances with the object of improving their condition of life;
- iii) Advancement of the education of the public in all subject areas including literature, the marine environment and seafaring, history, heritage of the city and region, natural sciences, decorative and fine arts, antiquities, sculpture, painting and handicrafts and other associated arts.

2. Kingstown Works Limited (KWL).

KWL was incorporated during the 2006/07 financial year and commenced trading on 1 April 2007. The original purpose of the company was to undertake building services repairs and improvements. In September 2012 the Council transferred its Fleet and Street Lighting services to KWL.

The core business is the provision of property services to approximately 26,000 homes in the Hull area including the servicing and maintenance of domestic gas appliances in over 22,000 properties. The business also supplies and maintains over 600 vehicles for the Council. In addition, KWL services and repairs 35,000 + streetlights in Hull.

3. Hull District Heating Limited.

Hull District Heating Limited was incorporated on 3 December 2024 and will provide low-carbon heat and hot water to public and private sector buildings within the city centre of Hull. It is set to drive economic growth, create job opportunities, provide energy security and build climate-resilient neighbourhoods.

Delivered by Vital Energi in partnership with Hull City Council and backed by investment from the Green Heat Network Fund, Levelling Up Partnership, and the National Wealth Fund, this innovative project will transform the heating supply to 38 buildings during phase 1 of the project.

The network will deliver an estimated 110,000 tonnes of CO2 savings over 40 years – the equivalent of 55,000 cars off the road – whilst providing connected buildings with a more reliable and resilient source of heat and hot water.

The network is currently in construction phase with anticipated supply due to begin from late 2027.

GROUP MOVEMENT IN RESERVES STATEMENT

This statement shows the movement in the year on the different reserves held by the Group, analysed into 'usable reserves' (i.e. those that can be applied to fund expenditure or reduce local taxation) and other reserves.

GROUP COMPREHENSIVE INCOME AND EXPENDITURE STATEMENT

This account summarises the resources that have been generated or consumed in providing services and managing the Group during the last year. It includes all day-to-day expenses and related income on an accruals basis, as well as transactions measuring the value of non-current assets actually consumed and the real projected value of retirement benefits earned by employees in the year.

16,763	Cash and cash equivalents at the beginning of the reporting period		26,469
26,469	Cash and cash equivalents at the end of the reporting period		40,555

NOTES TO THE GROUP FINANCIAL STATEMENTS

1 **Accounting Policies**

The group accounting policies are specified within the Council only statement. However, there are some slight divergences from these policies within the group as well as issues applicable to the subsidiary companies only. These are detailed below:

i. Deferred Tax

Deferred tax is recognised in respect of an obligation to pay more tax in the future or a right to pay less tax in the future as at the Balance Sheet date. This represents differences between the company's taxable profits and its results as stated in the financial statement.

Deferred tax is measured at the average tax rates that are expected to apply in the periods in which timing differences are expected to be resolved, based on tax rates and laws that have been enacted or substantially enacted by the Balance Sheet date. Deferred tax is measured on a non-discounted basis.

ii. Pensions

The treatment of group pension costs is in accordance with the requirements of IAS19 Employee Benefits. The Council recognises the cost of post-employment benefits in the reported cost of services when they are earned by employees, rather than when the benefits are eventually paid as pensions. However, the charge the Council is required to make against council tax is based on the cash payable in the year, so the real cost of post-employment is reversed out of the General Fund via the Movement in Reserves Statement and is presented within the Council's Unusable Reserves.

The subsidiary companies within the group do not raise Council Tax receipts and therefore the costs of post-employment are not transferred to Unusable Reserves, but are reflected in the Pension Reserve (Subsidiaries). Pension Reserve (Subsidiaries) is included in the Group's Useable Reserves, as this is treated as a real cost to the Subsidiaries Profit and Loss position.

iii. Group Transactions

The Council both commissions services from and provides support services to the subsidiary companies. All transactions between members of the Group have been treated as arm's length.

iv. Consolidation of Subsidiaries

Subsidiaries have been consolidated using the acquisition accounting basis. This is a full, line by line consolidation of the financial transactions and balances of the Council and its subsidiaries. To avoid overstating the figures within the group financial statements, all transactions and balances between members of the group (the Council and its subsidiaries) have been eliminated.

v. Capital Expenditure

The de-minimus level for capital expenditure for the subsidiary companies is £10,000.

vi. Accounting Standards

The accounts for the subsidiary companies have been prepared in accordance with UKGAAP, which is the overall body of regulation applicable to company accounts.

- FRS102 requires an accrual to be made in subsidiary accounts for employee benefits which is also required under IFRS.
- Operating leases held by subsidiaries are also classified as operating leases under IFRS

2 Group Financing and Investment Income and Expenditure

At 31 March 2025	(86,293)	13,709	(53,253)	2	515	(178)	(125,498)	(24)	(19)
Net Book Value									
at 31 March 2025	846,370	734,361	23,537	111	19,842	18,246	1,642,467	96,828	102,940
at 31 March 2024	669,863	722,374	21,032	-	20,169	2,407	1,435,845	87,058	103,210

A review of fully depreciated assets held on the balance sheet as at 31 March 2023 determined a number of Vehicles Plant, Furniture and Equipment were no longer in use. These assets have been written out therefore reducing the opening balance of both cost or valuation amount and accumulated Depreciation and impairment by £42.873m. This amendment does not impact on the net book value or the Balance Sheet.

The Accumulated depreciation written out line within the Cost or valuation section has been deleted and included within the revaluation figures. This amendment does not impact on the net book value or the Balance Sheet.

Infrastructure Assets

2024/25		2025/26
£'000		£'000
Net book value (modified historical cost)		
185,604	at 1 April	190,122
14,126	Additions	22,752
-	Derecognition	-
(9,608)	Depreciation	(9,864)
-	Impairment	(228)
-	Other movements in cost	-
190,122	Net book value at 31 March	202,782

2024/25		2025/26
£'000		£'000
190,122	Infrastructure assets	202,782
1,642,467	Other PPE assets	1,653,480
1,832,589	Total PPE assets	1,856,262

4 Group Short Term Debtors

2024/25		2025/26
£'000		£'000
24,965	Central government bodies	26,280
1,650	Other local authorities	2,558
2,920	NHS bodies	6,566
82,176	Other entities and individuals	87,970
(27,126)	Less: Impairment allowance	(28,326)
84,585		95,048

Where income which relates to the reporting year is expected to be received after the financial year end, an estimate is made of the amount to be accrued. Other Entities and individuals include Council Tax and NNDR Ratepayers, housing Rents and Housing Benefit Debtors

5 Group Cash and Cash Equivalents

The balance of Cash and Cash Equivalents is made up of the following elements:

2024/25		2025/26
£'000		£'000
213	Cash held by the Group	91
(9,833)	Bank current accounts	8,337
36,089	Short-term deposits with banks/building societies	32,127
26,469	Total Cash and Cash Equivalents	40,555

6 Group Short Term Creditors

An analysis of the Group's creditors for amounts falling due within one year is shown below.

2024/25		2025/26
£'000		£'000
18,727	Central government bodies	17,329
6,414	Other local authorities	2,658
2,003	NHS bodies	1,342
44,716	Other entities and individuals	52,797
71,860		74,126

Where expenditure has been incurred but not invoiced, an estimate is made of the amount to be accrued.

7 Group Usable Reserves

2024/25		2025/26
£'000		£'000
20,968	General Fund Balance	20,968
21,741	Profit and Loss Reserve (Subsidiaries)	22,738
14,173	Earmarked General Fund Reserves	10,265
3,750	Housing Revenue Account	3,750
22,998	Earmarked Housing Revenue Account Reserves	21,652
-	Major Repairs Reserve	-
40,774	Capital Receipt Reserves	40,497
35,550	Capital Grants Unapplied	17,968
159,954		137,838

8 Group Cash Flow Statement – Operating Activities

Adjustments to net surplus or deficit on the provision of services for non-cash movements:

2024/25		2025/26
£'000		£'000
55,445	Depreciation and Impairment	61,394
132,715	Downward/(upward) valuations	124,730
3,303	Amortisation	3,439
(5,759)	Increase/(decrease) in Creditors	8,452
108	(Increase)/decrease in Debtors	(11,216)
(293)	(Increase)/decrease in Inventories	(2,862)
(5,305)	Movement in pension liability	(14,302)
6,883	Carry amount of non-current assets and non-current assets held for sale, sold or de-recognised	38,846
1,242	Other non-cash items charged to the net surplus or deficit on the provision of services	(13,066)
188,339		195,415

Adjustments for items included in the net surplus or deficit on the provision of services that are investing and financing activities:

2024/25		2025/26
£'000		£'000
-	Proceeds from short-term and long-term investments	-
(9,677)	Proceeds from the sale of PP&E, investment property and intangible assets	(20,612)
(52,099)	Any other items for which the cash effects are investing or financing cash flows	(49,771)
(61,776)		(70,383)

The cash flows for operating activities include the following items:

2024/25		2025/26
£'000		£'000
3,014	Interest received	3,749
(32,547)	Interest paid	(28,540)
-	Dividends received	-
(216)	Other Lease Income	(216)
366	Other Lease Payments	295
(29,383)		(24,712)

9 **Group Cash Flow Statement – Investing Activities**

2024/25		2025/26
£'000		£'000

(7,505)	Cash payments for the reduction of the outstanding liabilities relating to leases and on-balance sheet PFI contracts	(13,528)
(403,920)	Repayments of short and long term borrowing	(411,843)
(5,899)	Other payments for financing activities	(3,804)
57,676	Net cash flow from financing activities	153,092

11 *Group Local Government Pension Scheme*

The Kingston upon Hull City Council Pension Pool includes all entities in the Group Accounts, therefore the pension assets and liabilities have been consolidated into the Councils sole accounting statements and accompanying disclosure notes. Accounting Policy ix (Employee Benefits), Note 25d (Pension Reserve) and Note 43 (Defined Benefit Pension Scheme) refer.

12 *Group External Auditors Fee*

Forvis Mazars LLP has provided audit services to the Council in respect of the audit of the single entity and group financial statements, and other services, as disclosed in Note 33 of the single entity accounts.

Hull Culture and Leisure Limited

Forvis Mazars LLP provided audit services to Hull Culture and Leisure Limited during 2025/26 at an estimated cost of £25,000. (£22,000 in 2024/25)

RSM UK provide tax compliance services to Hull Culture and Leisure Limited during 2025/26 at an estimated cost of £10,000. (£9,500 in 2024/25)

Kingstown Works Limited

Smailes Goldie provided audit and tax services to Kingstown Works Limited during 2025/26 at an estimated cost of £24,500. Smailes Goldie provided audit and tax services to Kingstown Works Limited during 2024/25 at a cost of £24,000.

GLOSSARY OF TERMS

Accounting Policies

The principles, bases, conventions, rules and practices applied that specify how an organisation will reflect transactions within its accounts.

Accruals

Adjustments made to ensure that the accounts reflect the actual value of work done or goods and services received within the financial year, rather than cash payments made and received in the period.

Amortisation

The annual charge to revenue to write down the value of an intangible asset or associated grant in the way that depreciation writes down tangible assets.

Bad Debts

Debts owed to the Council which are considered not recoverable. When a debt is bad it should be 'written off'; that is we should recognise that we will not receive the income.

Balances

Revenue balances are the accumulated surplus of income over expenditure on any of the Councils funds.

Capital Adjustment Account

Records the consumption of the historic cost of non-current assets and revenue expenditure funded from capital under statute over the period that the Council benefits from the expenditure.

Capital Expenditure

This is expenditure on the acquisition of non-current assets which have a long term value to the Council (e.g. purchase of land, erection of buildings), or expenditure that adds to the value of these assets and not just maintains their existing value.

Capital Financing Charges

These are the annual charges arising from the financing of capital expenditure and include items such as loan interest and repayments, leasing charges and contributions from revenue.

Capital Grants Unapplied Reserve

A reserve holding grant funds for future use where conditions of expenditure have not been met.

Capital Receipts

These are proceeds, in excess of £10,000, from the sale of capital assets such as land or property. A proportion of these receipts can be used to fund the capital programme.

Capital Receipts Reserve

A reserve holding funds received from the sale of land or other capital assets, a proportion of which may be used to finance new capital expenditure, subject to the provisions contained within the Local Government Act 2003.

Capital Receipts Unapplied

These are capital receipts, which have yet to be used to repay outstanding external debt or to finance new capital expenditure.

Code of Practice on Local Authority Accounting

The document issued by CIPFA each year which specifies the accounting principles and practices to be followed when preparing the accounting statements.

Contingent Liabilities

This is a condition that exists at the balance sheet date where the outcome will be confirmed only on the occurrence or non-occurrence of one or more uncertain events.

Comprehensive Income and Expenditure Statement

The main account of the Council from which the cost of providing services is met, and precepts, grants and other income are credited.

Deferred Credits

Receipts recovered from the sale of assets, e.g. mortgages on the sale of Council houses.

Depreciation

Depreciation is the theoretical measure of the reduction in value of an asset due to age, wear and tear, or obsolescence.

Events after the Balance Sheet Date

Events which occur between the balance sheet date and the issue date of the Statement of Accounts.

Exceptional Items

Material items which derive from events or transactions that fall within the ordinary activities of the Council which need to be disclosed separately by virtue of their size or incidence to give a fair presentation of the accounts.

Extraordinary Items

Material items that are not within the Council's ordinary activities and are not expected to recur.

Finance Lease

This is a lease in which substantially transfers all of the risks and rewards of ownership of a non-current asset to the lessee.

General Fund

The Local Authority's accumulated revenue account.

Historic Cost

The original cost of acquisition, construction or purchase of a non-current asset.

Housing Revenue Account (HRA)

The account that includes all revenue expenditure and income that relates to the landlord function of managing and maintaining the Council Housing Stock. It is a statutory requirement to keep this account and it is separate (ring fenced) from the General Fund Services.

IFRS – International Financial Reporting Standards

The Accounting Standard under which the Council has compiled its Financial Statements.

Impairment

This is the reduction in the value of a non-current asset below its carrying value in the Balance Sheet.

International Accounting Standard 19 (IAS 19)

The requirement for local authorities to include the forecast cost of future pensions in the accounts on a notional basis, together with the level of assets in the fund and the level of any estimated surplus or deficit on the pension fund.

Minimum Revenue Provision (MRP)

Local authorities are required each year to set aside some of their revenues as provision for debt repayment. The provision (revenue charge) is in respect of capital expenditure financed by borrowing.

Net Book Value

This is the value which non-current assets are reflected in the Balance Sheet. This could be historic costs or current value less accumulated depreciation.

Non-operational Assets

Non-current assets held by the Council, but not used in the delivery of services or for its strategic objectives. Examples are investment properties, surplus assets pending sale, and assets under construction.

Operating Leases

An operating lease is where the risk and reward of ownership of the asset remains with the supplier or tenant and not with the Council.

Precepts

The amounts required by the City Council to meet its budget requirement.

Prior Period Adjustment

These are material adjustments which are applicable to prior reporting years due to changes in accounting policies or fundamental errors.

Private Finance Initiative (PFI)

PFI is a Government initiative in which private sector companies usually design, build and operate a public facility for a set period of time, often 25 years.

Provisions

Amounts set aside to meet liabilities or losses which are likely to be incurred or certain to be incurred but where the amounts or dates on which they will arise are uncertain.

Prudential Code

The Prudential Code is a professional Code of Practice developed by CIPFA whose objective is to ensure local authorities' capital investment plans are affordable, prudent and sustainable.

Reserves

Amounts set aside for purposes falling outside the definition of provisions. For each material reserve fund established there is a scheme governing its purpose, usage and the basis of transactions. Within reserves are the accumulated surpluses of income over expenditure on the HRA and Collection Fund and amounts transferred under the Schools' Standards and Framework Act 1998.

Revenue Expenditure

Expenditure on the day to day running cost of providing the Council's services, such as employee costs and the cost of supplies and services.

Revenue Expenditure funded from Capital under Statute

Capital expenditure where no tangible asset is created, e.g. improvement and other grants and contributions, and amounts outstanding on transferred services.

Revenue Support Grant

This is the grant paid by Central Government to help finance the cost of services provided by local authorities.

The Annual Governance Statement

This statement details the Council's internal control systems and arrangements for ensuring their effectiveness in the management of risk.

Useable Capital Receipts

The amount of the capital receipt that is available to fund capital expenditure after the statutory pool payments to Central Government has been made.

Work in Progress

The cost of work carried out up to the end of the financial year for which accounts have not been rendered.

STATEMENT OF ACCOUNTS 2025/26 FEEDBACK FORM

We actively try and improve the accounts each year and whilst a large amount of information included is prescribed in the Accounting Codes of Practice, the Council tries to keep the document as readable and user friendly as possible.

We would welcome any comments from readers of the Statement of Accounts as to how the Council can improve its layout and readability for future years. If you could complete the following short questionnaire and return to the address below, we will try to accommodate any comments received. Alternatively, if you are viewing this document on the internet, there is an on-line form which you can submit.

Any comments received by 30 April 2027 will be incorporated into the 2026/27 Statement where possible, but the Council would welcome any comments after that date which the Council will try to include in future years' documents.

1. Please indicate in what capacity you are viewing this Statement.
